

QUALIFICATION PACK – OCCUPATIONAL STANDARD FOR LEATHER SECTOR

What are Occupational Standards(OS)?

- OS describe what individuals need to do, know and understand in order to carry out a particular job role or function
- OS are performance standards that individuals must achieve when carrying out functions in the workplace, together with specifications of the underpinning knowledge and understanding

Introduction

Qualification Pack - Cutter

SECTOR:	LEATHER
SUB SECTOR:	Goods and Garments
OCCUPATION:	Cutting
REFERENCE ID:	LSS/Q5301
ALIGNED TO:	NCO-2004/ 7435.45

Brief Job Description: The individual, as a part of the job role, lays out, marks, and cuts leather or non-leather material into parts for articles using cutting dies. The critical component of the role is to position leather/non-leather for cutting to ensure good number and quality of cut pieces.

Personal Attributes: The individual should possess good hand-eye coordination and judgment in positioning and cutting. Also should have basic estimation and numerical skills along with ability to choose the correct leather/ non-leather parts for different components.

Qualifications Pack Code	LSS/Q5301		
Job Role	Cutter		
Credits(NSQF)	TBD	Version number	1.0
Sector	Leather	Drafted on	25/07/13
Sub-sector	Goods and Garments	Last reviewed on	31/03/15
Occupation	Cutting	Next review date	31/03/17
NSQC Clearance on	18/06/2015		

Job Role	Cutter
Role Description	The individual, as a part of the job role, lays out, marks, and cuts leather or non-leather material into parts for articles using cutting dies or knives/scissors. The critical component of the role is to position leather/non-leather for cutting to ensure good number and quality of cut pieces with minimum wastage.
NSQF level	4
Minimum Educational Qualifications*	Class V
Maximum Educational Qualifications*	N/A
Training (Suggested but not mandatory)	On-The-job-Training
Minimum Job Entry Age	18 years
Experience	Prior experience in goods/garment manufacturing for a minimum of 2-3 years preferred
Applicable National Occupational Standards (NOS)	Compulsory LSS/N5301 Carry out cutting operations using hand LSS/N5302 Carry out cutting operations using clicking machine LSS/N5303 Contribute to achieving product quality in cutting processes LSS/N8501 Maintain the work area, tools and machines LSS/N8601 Maintain health, safety and security at workplace LSS/N8701 Comply with industry, regulatory and organizational requirements Optional: N.A.
Performance Criteria	As described in the relevant OS units

Definition

Keywords /Terms	Description
Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Vertical	Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.
Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry.
Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.
Sub-functions	Sub-functions are sub-activities essential to fulfil achieving the objectives of the function.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding; he/she needs to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria	Performance Criteria are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are Occupational Standards which apply uniquely in the Indian context.
Qualifications Pack Code	Qualifications Pack Code is a unique reference code that identifies a qualifications pack.
Qualifications Pack(QP)	Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.
Unit Code	Unit Code is a unique identifier for an Occupational Standard, which is denoted by an 'N'.
Unit Title	Unit Title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to find the required one.
Scope	Scope is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of required performance.
Knowledge and Understanding	Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform up to the required standard.

Acronyms	Keywords /Terms	Description
	OS	Occupational Standard(s)
	NOS	National Occupational Standard(s)
	QP	Qualifications Pack
	NSQF	National Skill Qualifications Framework
	TBD	To Be Determined

LSS/N5301

Carry out cutting operations using hand

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for goods and garments material cutting operations by hand using appropriate tools, equipment and processes.

National Occupational Standards

LSS/N5301

Carry out cutting operations using hand

National Occupational Standard

Unit Code	LSS/N5301
Unit Title (Task)	Carry out cutting operations using hand
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for goods and garments material cutting operations by hand using appropriate tools, equipment and processes.
Scope	This unit/task covers the following: • Cutting operation by hand • Reporting & Documentation • Sorting & Placing
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Cutting operation by hand	To be competent, the user/individual on the job must be able to: PC1. Make sure the work area is free from hazards PC2. Obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of the job role PC3. Ask questions to obtain more information on tasks when the instructions are unclear PC4. Calculate the number of components needed for production PC5. Select the tools and materials for the work PC6. Set up the equipment PC7. Make sure that tools are safe and clean to use on the material PC8. Check the quality and characteristics of the material match the required standards before starting to cut PC9. Utilise leather piece efficiently to get maximum cut pieces with minimum wastage PC10. Ensure no defects on the material PC11. Check the stretch-ability and tightness of leather as per end product PC12. Use scissors or cutting knife to cut the leather piece as per the markings given on the components PC13. Count the number of cut pieces PC14. Ensure cut pieces match the number mentioned in the job card PC15. Bundle the cut components and transfer material for quality check PC16. Make sure that when cutting the material • avoid damaging self and others • avoid damage to the knife and other equipment PC17. Avoid any imperfections in the material when cutting PC18. Agree and review the agreed upon work targets with the supervisor PC19. Minimise wastage while cutting material PC20. Meet company usage tolerances for efficient pattern interlocking PC21. Check with others when unsure of new product details PC22. Produce the required batch of components to match the job card and the company's production targets PC23. Dispose of waste materials safely and return re-useable materials PC24. Work in conformance to legal requirements, organizational policies and

National Occupational Standards

LSS/N5301

Carry out cutting operations using hand

	procedures
Reporting & Documentation	PC25. Identify and respond to imperfections, defects and damage due to mishandling PC26. Report defects in the tools and equipment one does not have the authority to repair PC27. Report risks/ problems likely to affect services to the relevant person promptly and accurately PC28. Complete forms, records and other documentation
Sorting & Placing	PC29. Make sure that the cut material is correctly sorted to assist the next stage of production PC30. Make sure that the cut material carefully placed to minimise the risk of damage PC31. Carry out closedown procedures on completion of work
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. Details of the various job roles and responsibilities KA2. Responsibilities and line of reporting within the work area KA3. Protocol to obtain more information on work related tasks KA4. Organizational policies and procedures KA5. Work target and review mechanism with the supervisor KA6. Protocol and format for reporting work related risks/ problems KA7. Contact person in case of queries on procedure or products KA8. Common hazards in the work area and procedures for dealing with them KA9. Procedures for handling the tools and equipment KA10. Procedures with regard to material re-usage and disposal KA11. Quality standards and the reporting procedures KA12. Documentation required as part of the process KA13. Cutting efficiencies with regard to the material being cut
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Knowledge of products and styles of goods and garments currently being produced KB2. Sources of updates on goods and garments and related areas KB3. Method of interpreting product specifications KB4. The relation between the data on the work ticket/ job card and the production schedules KB5. Method of safely setting up and closing down cutting and other equipment in the work station KB6. Equipment needed for the cutting activity KB7. Methods of calculating the number of components required KB8. Method of identifying the quality and usage of components being cut KB9. Methods of cutting to ensure maximum usage and minimum wastage KB10. Common quality imperfections associated with the materials KB11. Knowledge of various shades of colours KB12. Main characteristics of the materials, method of identification and the

	means of cutting operations and subsequent operations KB13. Implications of using defective tools and machines on the materials KB14. Cutting equipment operating procedures KB15. Manufacturers' instructions
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to:
	SA1. Write in English/ local language as applicable
	SA2. Fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
	Reading Skills
	The user/ individual on the job needs to know and understand how to:
B. Professional Skills	SA3. Read English/ local language as applicable
	SA4. Read and understand manuals, health and safety instructions, memos, reports, job cards etc
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to:
	SA5. Listen actively
	SA6. Communicate effectively with supervisors, managers, etc
	Decision Making
	The user/ individual on the job needs to know and understand how to:
	SB1. Analyse the defects and the procedure for dealing with it
	SB2. Take appropriate actions in terms of any deviations from the process
	Plan and Organize
	The user/ individual on the job needs to know and understand how to:
	SB3. Plan work according to the required schedule and location
	SB4. Produce as per the specified productivity targets
	SB5. Organise the required materials sequentially
	Customer Centricity
	The user/ individual on the job needs to know and understand how to:
	SB6. Take measurements and make drawings as per customer specifications
	SB7. Evaluate and ensure cutting of the materials is as per customer standards
	Problem Solving
	The user/ individual on the job needs to know and understand how to:
	SB8. Review the defects and take appropriate actions
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB9. Analyze the drawings and cut the material accordingly
	SB10. Evaluate and assess the cut materials for any modifications and corrections
	Critical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB11. Assess and control the quality standards of the cut materials as per customer standards

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for goods and garments material cutting operations by clicking machine using appropriate tools, equipment and processes.

LSS/N5302
Carry out cutting operations using clicking machine
National Occupational Standard

Unit Code	LSS/N5302
Unit Title (Task)	Carry out cutting operations using clicking machine
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for goods and garments material cutting operations by clicking machine using appropriate tools, equipment and processes.
Scope	This unit/task covers the following: • Cutting operation by clicking machine • Reporting & Documentation • Sorting & Placing
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Cutting operation by clicking machine	To be competent, the user/individual on the job must be able to: - PC1. Make sure the work area is free from hazards - PC2. Obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of the job role - PC3. Ask questions to obtain more information on tasks when the instructions are unclear - PC4. Calculate the number of components needed for production - PC5. Select the tools and materials for the work - PC6. Set up the equipment and clicking machine - PC7. Make sure that tools are safe and clean to use on the material - PC8. Check the quality and characteristics of the material match the required standards before starting to cut - PC9. Utilise leather piece efficiently to get maximum cut pieces with minimum wastage - PC10. Ensure no defects on the material - PC11. Check the stretch-ability and tightness of leather as per end product - PC12. Place cutting dies on the leather piece in an efficient manner to minimize waste - PC13. Use the clicking machine to cut the material - PC14. Count the number of cut pieces - PC15. Ensure cut pieces match the number mentioned in the job card - PC16. Bundle the cut components and transfer material for quality check - PC17. Make sure that when cutting the material • avoid damaging self and others • avoid damage to the knife and other equipment - PC18. Avoid any imperfections in the material when cutting - PC19. Agree and review the agreed upon work targets with the supervisor - PC20. Update and develop knowledge of the products - PC21. Minimise wastage while cutting material - PC22. Meet company usage tolerances for efficient pattern interlocking - PC23. Check with others when unsure of new product details - PC24. Produce the required batch of components to match the job card and the company's production targets - PC25. Dispose of waste materials safely and return re-useable materials

LSS/N5303 Contribute to achieving product quality in cutting processes

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of the production while undertaking cutting related activities to ensure products meet specifications.

LSS/N5303 Contribute to achieving product quality in cutting processes

National Occupational Standard

Unit Code	LSS/N5303
Unit Title (Task)	Contribute to achieving product quality in cutting processes
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of the production while undertaking cutting related activities to ensure products meet specifications.
Scope	This unit/task covers the following: • Inspection • Reporting & Documentation
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Inspection	To be competent, the user/individual on the job must be able to: PC1. Set up and test equipment to meet quality standard PC2. Ensure materials and component parts meet specifications PC3. Ensure the quality of the cut components meets specification during production PC4. Cut components to ensure maximum usage and minimum wastage PC5. Maintain the required productivity and quality levels PC6. Carry out quality checks at agreed intervals and in the approved way PC7. Apply the allowed tolerances PC8. Identify process problems that effect product quality and report them promptly to appropriate people PC9. Maintain the continuity of production with minimum interruptions and downtime PC10. Identify faults in finished products and trace their causes
Reporting & Documentation	PC11. Identify causes of faults and take action to rectify the same to maintain product quality PC12. Identify faults and irregularities in equipment and machinery and take action within the limits of responsibility PC13. Report and replace faulty materials and component parts which do not meet specification PC14. Follow reporting procedures where the cause of faults cannot be identified PC15. Maintain records and documentation
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. Types of problems with quality and how to report them to appropriate people KA2. Consequences of not rectifying problems KA3. Importance of keeping accurate quality records KA4. Methods to present any ideas for improvement to line manager KA5. Safe working practices and organizational procedures KA6. Limits of own responsibility KA7. Ways of resolving with problems within the work area KA8. The importance of effective communication with colleagues KA9. The lines of communication, authority and reporting procedures

LSS/N5303 Contribute to achieving product quality in cutting processes

	KA10. The organization's rules and guidelines (including timekeeping) KA11. The companies quality standards KA12. The types of records kept, methods to complete the record and the importance of keeping them accurate KA13. The importance of complying with written instructions KA14. Equipment operating procedures / manufacturer's instructions
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Methods to receive work instructions and specifications and interpret them accurately KB2. Methods to make use of the information detailed in specifications and instructions KB3. Methods of cutting components to ensure maximum usage and minimum wastage KB4. The types of faults in equipment and machinery and the action to be taken when they occur KB5. Process to identify materials which do not conform to requirements and how to report them to appropriate people KB6. Care and fabric content labels / symbols KB7. Awareness of material/fabric / yarn types KB8. The causes of lost production and material wastage KB9. Process to maintain the flow of production KB10. The importance of achieving quality and its relation to the end user/customer
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to: SA1. Write in English/ local language as applicable SA2. Fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
	Reading Skills
	The user/ individual on the job needs to know and understand how to: SA3. Read English/ local language as applicable SA4. Read and understand manuals, health and safety instructions, memos, reports, job cards etc
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to: SA5. Listen actively SA6. Communicate effectively with supervisors, managers, etc
B. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to: SB1. Analyse the defects and the procedure for dealing with it SB2. Take appropriate actions in terms of any deviations from the process SB3. Evaluate and apply appropriate methods of inspection
	Plan and Organize
	The user/ individual on the job needs to know and understand how to: SB4. Plan work according to the required schedule and location

LSS/N5303 Contribute to achieving product quality in cutting processes

	SB5. Produce as per the specified productivity targets

Maintain the work area, tools and machines

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to organise/ maintain work areas and activities to ensure tools and machines are maintained as per norms.

LSS/N8501

Maintain the work area, tools and machines

National Occupational Standard

Unit Code	LSS/N8501
Unit Title (Task)	Maintain the work area, tools and machines
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to organise/ maintain work areas and activities to ensure tools and machines are maintained as per norms.
Scope	This unit/task covers the following: Maintenance of the work area, tools and machines
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Maintenance of work area, tools and machines	To be competent, the user/individual on the job must be able to: PC1. Handle materials, machinery, equipment and tools safely and correctly PC2. Use correct lifting and handling procedures PC3. Use materials to minimize waste PC4. Prepare and organize work PC5. Maintain a clean and hazard free working area PC6. Deal with work interruptions PC7. Move around the workplace with care PC8. Maintain tools and equipment PC9. Carry out running maintenance within agreed schedules PC10. Carry out maintenance and/or cleaning outside responsibility PC11. Report unsafe equipment and other dangerous occurrences PC12. Ensure that the correct machine guards are in place PC13. Work in a comfortable position with the correct posture PC14. Use cleaning equipment and methods appropriate for the work to be carried out PC15. Dispose of waste safely in the designated location PC16. Store cleaning equipment safely after use PC17. Complete and store accurate records and documentation PC18. Maintain proper lighting, ventilation to make sure general comfort is there while working PC19. Give inputs and assist in completing documentation PC20. Report the need for maintenance and/or cleaning outside your area of responsibility PC21. Ensure safe and correct handling of materials, equipment and tools PC22. Maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. Personal hygiene and duty of care KA2. Safe working practices and organizational procedures KA3. Limits of one's own responsibility KA4. Ways of resolving with problems within the work area KA5. The production process and the specific work activities that relate to the whole process

LSS/N8501

Maintain the work area, tools and machines

	KA6. The lines of communication, authority and reporting procedures KA7. The organization's rules, codes and guidelines (including timekeeping) KA8. The companies quality standards KA9. The types of records kept, how are they completed and the importance of keeping them accurate KA10. The importance of complying with written instructions KA11. Equipment operating procedures / manufacturer's instructions KA12. Statutory responsibilities under Health, Safety and Environmental legislation and regulations KA13. The quality standards and processes followed by the organization relevant to your role KA14. Documentation required for reporting
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Work instructions and specifications and interpret them accurately KB2. Method to make use of the information detailed in specifications and instructions KB3. Relation between work role and the overall manufacturing process KB4. The importance of good time keeping and attendance KB5. The importance of minimized production costs KB6. The importance of taking action when problems are identified KB7. Different ways of minimizing waste KB8. The importance of running maintenance and regular cleaning KB9. Effects of contamination on products i.e. Machine oil, dirt KB10. Common faults with equipment and the method to rectify KB11. Maintenance procedures and manufacturer's instructions KB12. Hazards likely to be encountered when conducting routine maintenance KB13. Different types of cleaning equipment and substances and their use KB14. Safe working practices for cleaning and the method of carrying them out KB15. The production process and the specific work activities that relate to the whole process
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to: SA1. Write and document appropriate technical forms, job cards, inspection sheets as required format of the company
	Reading Skills
	The user/ individual on the job needs to know and understand how to: SA2. Read and comprehend basic English to read and interpret indicators in the machine and operating manuals, job cards, visual cards SA3. Read and understand manuals, health and safety instructions, memos, reports, job cards etc.
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to: SA4. Speak and communicate effectively to peers and supervisors SA5. Give clear instructions to co-workers, subordinates others

LSS/N8501

Maintain the work area, tools and machines

	SA6. Use correct technical term while interacting with supervisor
B. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to:
	SB1. Take appropriate decisions regarding to responsibilities
	SB2. Assess for any damage/faulty component in the concerned machinery and take action accordingly
	SB3. Evaluate the decision and conduct basic trouble shooting
	Plan and Organize
	The user/ individual on the job needs to know and understand how to:
	SB4. Plan and manage work routine based on company procedure
	SB5. Work with supervisors/ team mates to carry out work related tasks
	SB6. Plan for cleaning and lubricating the concerned machinery daily
	SB7. Plan for cleaning the concerned tools and workplace daily before and after operations
	Customer Centricity
	The user/ individual on the job needs to know and understand how to:
	SB8. Ensure and follow organizational procedures pertaining to health and safety are followed
	Problem Solving
	The user/ individual on the job needs to know and understand how to:
	SB9. Solve operational role related issues
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB10. Diagnose common problems in the machine based on visual inspection, sound, temperature etc
	Critical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB11. Analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

Maintain health, safety and security at workplace

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimize risk to self and others.

LSS/N8601
Maintain health, safety and security at workplace
National Occupational Standard

Unit Code	LSS/N8601
Unit Title (Task)	Maintain health, safety and security at workplace
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimize risk to self and others.
Scope	This unit/task covers the following: Compliance with health, safety and security requirements at work
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Compliance with health, safety and security requirements at work	To be competent, the user/individual on the job must be able to: PC1. Comply with health and safety related instructions applicable to the workplace PC2. Use and maintain personal protective equipment as per protocol PC3. Carry out own activities in line with approved guidelines and procedures PC4. Maintain a healthy lifestyle and guard against dependency on intoxicants PC5. Follow environment management system related procedures PC6. Identify and correct (if possible) malfunctions in machinery and equipment PC7. Report any service malfunctions that cannot be rectified PC8. Store materials and equipment in line with manufacturer's and organizational requirements PC9. Safely handle and move waste and debris PC10. Minimize health and safety risks to self and others due to own actions PC11. Seek clarifications, from supervisors or other authorized personnel in case of perceived risks PC12. Monitor the workplace and work processes for potential risks and threats PC13. Carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned PC14. Report hazards and potential risks/ threats to supervisors or other authorized personnel PC15. Participate in mock drills/ evacuation procedures organized at the workplace PC16. Undertake first aid, fire-fighting and emergency response training, if asked to do so PC17. Take action based on instructions in the event of fire, emergencies or accidents PC18. Follow organization procedures for shutdown and evacuation when required
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the	The user/individual on the job needs to know and understand: KA1. Health and safety related practices applicable at the workplace KA2. Potential hazards, risks and threats based on nature of operations

LSS/N8601

Maintain health, safety and security at workplace

company / organization and its processes)	KA3. Organizational procedures for safe handling of equipment and machine operations KA4. Potential risks due to own actions and methods to minimize these KA5. Environmental management system related procedures at the workplace KA6. Layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points KA7. Potential accidents and emergencies and response to these scenarios KA8. Reporting protocol and documentation required KA9. Details of personnel trained in first aid, fire-fighting and emergency response KA10. Actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Occupational health and safety risks and KB2. Personal protective equipment and method of use KB3. Identification, handling and storage of hazardous substances KB4. Proper disposal system for waste and by-products KB5. Signage related to health and safety and their meaning KB6. Importance of sound health, hygiene and good habits KB7. Ill-effects of alcohol, tobacco and drugs
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to:
	SA1. Document and report any health and safety related incidents/ accidents
	Reading Skills
	The user/ individual on the job needs to know and understand how to:
	SA2. Read and comprehend manuals of operations
B. Professional Skills	SA3. Read all organizational and equipment related health and safety manuals and documents
	SA4. Read instructions, guidelines/procedures/rules related to the worksite and machine operations
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to:
	SA5. Give clear instructions to co-workers, subordinates and other personnel
	SA6. Use correct technical terms while interacting with supervisor
B. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to:
	SB1. Make an appropriate timely decision in responding to emergencies/accidents in line with organization
	SB2. Evaluate and use correct PPE and other safety gear while at the workplace
	Plan and Organize
	The user/ individual on the job needs to know and understand how to:
B. Professional Skills	SB3. Work with supervisors/ team mates to carry out work related tasks
	SB4. Plan work according to the required schedule

LSS/N8601

Maintain health, safety and security at workplace

	SB5. Keep work area free from potential hazards
	Customer Centricity
	The user/ individual on the job needs to know and understand how to:
	SB6. Ensure and follow organizational procedures pertaining to health and safety are followed
	Problem Solving
	The user/ individual on the job needs to know and understand how to:
	SB7. Take appropriate actions during emergencies, accidents or fire at the workplace
	SB8. Resolve issues pertaining to malfunctions in machineries and report if required
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB9. Identify emergency situations
	SB10. Identify cause effect relationship for the emergencies
	Critical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB11. Analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N8701 Comply with industry, regulatory and organizational requirements

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for complying with industry, regulatory and organizational requirements at the workplace.

LSS/N8701 Comply with industry, regulatory and organizational requirements

National Occupational Standard

Unit Code	LSS/N8701
Unit Title (Task)	Comply with industry, regulatory and organizational requirements
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for complying with industry, regulatory and organizational requirements at the workplace.
Scope	This unit/task covers the following: Compliance with industry, regulatory and organizational requirements
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Compliance with industry, regulatory and organizational requirements	To be competent, the user/individual on the job must be able to: PC1. Carry out work functions in accordance with legislation and regulations, organizational guidelines and procedures PC2. Seek and obtain clarifications on policies and procedures, from the supervisor or other authorized personnel PC3. Apply and follow these policies and procedures within the work practices PC4. Provide support to the supervisor and team members in enforcing these considerations PC5. Identify and report any possible deviation to these requirements
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. The importance of having an ethical and value-based approach to governance KA2. Benefits to the company and oneself due to practice of these procedures KA3. Specific to the industry/sector, know and understand: - Legal, regulatory and ethical requirements - Procedures to follow if someone does not meet the requirements KA4. Customer specific requirements mandated as a part of the work process
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Country / customer specific regulations for the sector and their importance KB2. Reporting procedure in case of deviations KB3. Limits of personal responsibility
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to: SA1. Write and document appropriate technical forms, job cards, inspection sheets as required format of the company
	Reading Skills
	The user/ individual on the job needs to know and understand how to: SA2. Read and comprehend the organizational documents pertaining to rules and procedures SA3. Read and comprehend basic English to read and interpret indicators in

LSS/N8701 Comply with industry, regulatory and organizational requirements

	the machine and operating manuals, job cards, visual cards, etc
	SA4. Read in the local language as applicable
	SA5. Read and understand manuals, health and safety instructions, memos, reports, job cards etc
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to:
	SA6. Positively influence the team members into following procedures
B. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to:
	SB1. Take appropriate decisions related to responsibilities
	Plan and Organize
	The user/ individual on the job needs to know and understand how to:
	SB2. Plan and manage work routine based on company procedure

CRITERIA FOR ASSESSMENT OF TRAINEES

Job Role Cutter (Goods and Garments)

Qualification Pack Code LSS/Q5301

Sector Skill Council Leather

Guidelines for Assessment:

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below)
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on these criteria
5. To pass the Qualification Pack, every trainee should score a minimum of 50% aggregate
6. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

NOS	PC	Marks Allocation			
		Total Mark	Out Of	Theory	Skills Practical
1. LSS/N5301 -(Carry out cutting operations using hand)	PC1. Make sure the work area is free from hazards	100	2	0	2
	PC2. Obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of the job role		6	5	1
	PC3. Ask questions to obtain more information on tasks when the instructions are unclear		10	5	5
	PC4. Calculate the number of components needed for production		3	0	3
	PC5. Select the tools and materials for the work		2	0	2
	PC6. Set up the equipment		3	0	3
	PC7. Make sure that tools are safe and clean to use on the material		1	0	1
	PC8. Check the quality and characteristics of the material match the required standards before starting to cut		2	0	2

	PC9. Utilise leather piece efficiently to get maximum cut pieces with minimum wastage		1	0	1
	PC10. Ensure no defects on the material		1	0	1
	PC11. Check the stretch-ability and tightness of leather as per end product		1	0	1
	PC12. Use scissors or cutting knife to cut the leather piece as per the markings given on the components		8	5	3
	PC13. Count the number of cut pieces		1	0	1
	PC14. Ensure cut pieces match the number mentioned in the job card		2	0	2
	PC15. Bundle the cut components and transfer material for quality check		8	5	3
	PC16. Make sure that when cutting the material • avoid damaging self and others • avoid damage to the knife and other equipment		2	0	2
	PC17. Avoid any imperfections in the material when cutting		1	0	1
	PC18. Agree and review the agreed upon work targets with the supervisor		1	0	1
	PC19. Minimise wastage while cutting material		2	0	2
	PC20. Meet company usage tolerances for efficient pattern interlocking		2	0	2
	PC21. Check with others when unsure of new product details		1	0	1
	PC22. Produce the required batch of components to match the job card and the company's production targets		8	5	3
	PC23. Dispose of waste materials safely and return re-useable materials		2	0	2
	PC24. Work in conformance to legal requirements, organizational policies and procedures		3	0	3
	PC25. Identify and respond to imperfections, defects and damage due to mishandling		8	5	3
	PC26. Report defects in the tools and equipment one does not have the authority to repair		3	0	3
	PC27. Report risks/ problems likely to affect services to the relevant person promptly and accurately		5	0	5
	PC28. Complete forms, records and other documentation		3	0	3

	PC29. Make sure that the cut material is correctly sorted to assist the next stage of production		2	0	2
	PC30. carefully placed to minimise the risk of damage		3	0	3
	PC31. Carry out closedown procedures on completion of work		3	0	3
		Total	100	30	70
2. LSS/N5302 - (Carry out cutting operations using clicking machine)	PC1. Make sure the work area is free from hazards	100	1	0	1
	PC2. Obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of the job role		3	0	3
	PC3. Ask questions to obtain more information on tasks when the National Occupational instructions are unclear		8	5	3
	PC4. Calculate the number of components needed for production		2	0	2
	PC5. Select the tools and materials for the work		3	0	3
	PC6. Set up the equipment and clicking machine		7	5	2
	PC7. Make sure that tools are safe and clean to use on the material		1	0	1
	PC8. Check the quality and characteristics of the material match the required standards before starting to cut		1	0	1
	PC9. Utilise leather piece efficiently to get maximum cut pieces with minimum wastage		1	0	1
	PC10. Ensure no defects on the material		1	0	1
	PC11. Check the stretch-ability and tightness of leather as per end product		3	0	3
	PC12. Place cutting dies on the leather piece in an efficient manner to minimize waste		7	5	2
	PC13. Use the clicking machine to cut the material		4	0	4
	PC14. Count the number of cut pieces		3	0	3
	PC15. Ensure cut pieces match the number mentioned in the job card		4	0	4
	PC16. Bundle the cut components and transfer material for quality check		4	0	4
	PC17. Make sure that when cutting the material - avoid damaging self and others - avoid damage to the knife and other		3	0	3

	equipment				
	PC18. Avoid any imperfections in the material when cutting		2	0	2
	PC19. Agree and review the agreed upon work targets with the supervisor		1	0	1
	PC20. Update and develop knowledge of the products		1	0	1
	PC21. Minimise wastage while cutting material		1	0	1
	PC22. Meet company usage tolerances for efficient pattern interlocking		9	5	4
	PC23. Check with others when unsure of new product details		1	0	1
	PC24. Produce the required batch of components to match the job card and the company’s production targets		8	5	3
	PC25. Dispose of waste materials safely and return re-useable materials		1	0	1
	PC26. Work in conformance to legal requirements, organizational policies and procedures		1	0	1
	PC27. Identify and respond to imperfections, defects and damage due to mishandling		3	0	3
	PC28. Report defects in the tools and equipment one does not have the authority to repair		1	0	1
	PC29. Report risks/ problems likely to affect services to the relevant person promptly and accurately		2	0	2
	PC30. Complete forms, records and other documentation		2	0	2
	PC31. Make sure that the cut material is correctly sorted to assist the next stage of production		8	5	3
	PC32. Make sure that the cut material is carefully placed to minimise the risk of damage		2	0	2
	PC33. Carry out closedown procedures on completion of work		1	0	1
		Total	100	30	70
3. LSS/N5303- (Contribute to achieving product quality in cutting process)	PC1. Set up and test equipment to meet quality standard	50	1	0	1
	PC2. Ensure materials and component parts meet specifications		6	5	1

	PC3. Ensure the quality of the cut components meets specification during production		1	0	1
	PC4. Cut components to ensure maximum usage and minimum wastage		6	5	1
	PC5. Maintain the required productivity and quality levels		6	5	1
	PC6. Carry out quality checks at agreed intervals and in the approved way		1	0	1
	PC7. Apply the allowed tolerances		1	0	1
	PC8. Identify process problems that effect product quality and report them promptly to appropriate people		6	5	1
	PC9. Maintain the continuity of production with minimum interruptions and downtime		1	0	1
	PC10. Identify faults in finished products and trace their causes		6	5	1
	PC11. Identify causes of faults and take action to rectify the same to maintain product quality		1	0	1
	PC12. Identify faults and irregularities in equipment and machinery and take action within the limits of responsibility		11	10	1
	PC13. Report and replace faulty materials and component parts which do not meet specification		1	0	1
	PC14. Follow reporting procedures where the cause of faults cannot be identified		1	0	1
	PC15. Maintain records and documentation		1	0	1
		Total	50	35	15
4. LSS/N8501 - (Maintain the work area, tools and machines)	PC1. Handle materials, machinery, equipment and tools safely and correctly		1	0	1
	PC2. Use correct lifting and handling procedures		3	0	3
	PC3. Use materials to minimize waste		1	0	1
	PC4. Prepare and organise work		7	5	2
	PC5. Maintain a clean and hazard free working area	50	6	5	1
	PC6. Deal with work interruptions		3	0	3
	PC7. Move about the workplace with care		1	0	1
	PC8. Maintain tools and equipment		3	0	3
	PC9. Carry out running maintenance within agreed schedules		1	0	1
	PC10. Carry out maintenance and/or cleaning outside responsibility		1	0	1

	PC11. Report unsafe equipment and other dangerous occurrences		2	0	2
	PC12. Ensure that the correct machine guards are in place		3	0	3
	PC13. Work in a comfortable position with the correct posture		1	0	1
	PC14. Use cleaning equipment and methods appropriate for the work to be carried out		6	5	1
	PC15. Dispose of waste safely in the designated location		2	0	2
	PC16. Store cleaning equipment safely after use		2	0	2
	PC17. Complete and store accurate records and documentation		1	0	1
	PC18. Maintain proper lighting, ventilation to make sure general comfort is there while working		1	0	1
	PC19. Give inputs and assist in completing documentation		1	0	1
	PC20. Report the need for maintenance and/or cleaning outside your area of responsibility		1	0	1
	PC21. Ensure safe and correct handling of materials, equipment and tools		1	0	1
	PC22. Maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration		2	0	2
		Total	50	15	35
5. LSS/N8601 - (Maintain health, safety and security at workplace)	PC1. Comply with health and safety related instructions applicable to the workplace	25	1	0	1
	PC2. Use and maintain personal protective equipment as per protocol		1	0	1
	PC3. Carry out own activities in line with approved guidelines and procedures		0.5	0	0.5
	PC4. Maintain a healthy lifestyle and guard against dependency on intoxicants		1	0	1
	PC5. Follow environment management system related procedures		0.5	0	0.5
	PC6. Identify and correct (if possible) malfunctions in machinery and equipment		6	5	1
	PC7. Report any service malfunctions that cannot be rectified		1	0	1
	PC8. Store materials and equipment in line with manufacturer's and organizational requirements		0.5	0	0.5

	PC9.Safely handle and move waste and debris		2	0	2
	PC10.Minimize health and safety risks to self and others due to own actions		0.5	0	0.5
	PC11.Seek clarifications, from supervisors or other authorized personnel in case of perceived risks		1	0	1
	PC12.Monitor the workplace and work processes for potential risks and threats		6	5	1
	PC13.Carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned		0.5	0	0.5
	PC14.Report hazards and potential risks/ threats to supervisors or other authorized personnel		1	0	1
	PC15.Participate in mock drills/ evacuation procedures organized at the workplace		0.5	0	0.5
	PC16.Undertake first aid, fire-fighting and emergency response training, if asked to do so		0.5	0	0.5
	PC17.Take action based on instructions in the event of fire, emergencies or accidents		1	0	1
	PC18.Follow organization procedures for shutdown and evacuation when required		0.5	0	0.5
		Total	25	10	15
6. LSS/N8701 - (Comply with industry, regulatory and organizational requirements)	PC1.Carry out work functions in accordance with legislation and regulations, organizational guidelines and procedures	25	7	5	2
	PC2.Seek and obtain clarifications on policies and procedures, from the supervisor or other authorized personnel		3	0	3
	PC3.Apply and follow these policies and procedures within the work practices		10	5	5
	PC4.Provide support to the supervisor and team members in enforcing these considerations		3	0	3
	PC5.Identify and report any possible deviation to these requirements		2	0	2
		Total	25	10	15
