

QUALIFICATION PACK – OCCUPATIONAL STANDARD FOR LEATHER SECTOR

What are Occupational Standards(OS)?

- OS describe what individuals need to do, know and understand in order to carry out a particular job role or function
- OS are performance standards that individuals must achieve when carrying out functions in the workplace, together with specifications of the underpinning knowledge and understanding

Introduction

Qualification Pack - Cutter

SECTOR:	LEATHER
SUB SECTOR:	Footwear
OCCUPATION:	Cutting
REFERENCE ID:	LSS/Q2301
ALIGNED TO:	NCO-2004/8266.22

Brief Job Description: The individual, as a part of the job role, lays out, marks, and cuts leather or non-leather material into parts for articles using cutting dies. The critical component of the role is to position leather/non-leather for cutting to ensure good number and quality of cut pieces.

Personal Attributes: The individual should possess good hand-eye coordination and judgement in positioning and cutting. Also should have basic estimation and numerical skills along with ability to choose the correct leather/ non-leather parts for different components

Qualifications Pack Code	LSS/Q2301		
Job Role	Cutter

Job Role	Cutter
Role Description	The individual, as a part of the job role, lays out, marks, and cuts leather or non-leather material into parts for articles using cutting dies. The critical component of the role is to position leather/non-leather for cutting to ensure good number and quality of cut pieces.
NSQF level	4
Minimum Educational Qualifications*	Class V
Maximum Educational Qualifications*	NA
Training (Suggested but not mandatory)	TBD
Minimum Job Entry Age	18 years
Experience	Prior experience as helper in footwear manufacturing for a minimum of 2-3 years preferred
Applicable National Occupational Standards (NOS)	Compulsory 1. LSS/N2301 Carry out cutting operations 2. LSS/N2302 Contribute to achieving product quality in cutting processes 3. LSS/N8501 Maintain the work area, tools and machines 4. LSS/N8601 Maintain health, safety and security at workplace 5. LSS/N8701 Comply with industry, regulatory and organizational requirements Optional: N.A.
Performance Criteria	As described in the relevant OS units

Definition

Keywords /Terms	Description
Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Vertical	Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.
Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry.
Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.
Sub-functions	Sub-functions are sub-activities essential to fulfil achieving the objectives of the function.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding; he/she needs to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria	Performance Criteria are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are Occupational Standards which apply uniquely in the Indian context.
Qualifications Pack Code	Qualifications Pack Code is a unique reference code that identifies a qualifications pack.
Qualifications Pack(QP)	Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.
Unit Code	Unit Code is a unique identifier for an Occupational Standard, which is denoted by an 'N'.
Unit Title	Unit Title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to find the required one.
Scope	Scope is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of required performance.
Knowledge and Understanding	Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform up to the required standard.

Acronyms

Keywords /Terms	Description
OS	Occupational Standard(s)
NOS	National Occupational Standard(s)
QP	Qualifications Pack
NSQF	National Skill Qualifications Framework
TBD	To Be Determined

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for footwear material cutting operations by either hand or by machine and using appropriate tools, equipment and processes.

National Occupational Standards

LSS/N2301

Carry out cutting operations

National Occupational Standard

Unit Code	LSS/N2301
Unit Title (Task)	Carry out cutting operations
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for footwear material cutting operations by either hand or by machine and using appropriate tools, equipment and processes.
Scope	This unit/task covers the following: • Prepare for cutting operations • Carry out cutting operations
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Prepare for cutting operations	To be competent, the user/individual on the job must be able to: - PC1. Make sure the work area is free from hazards - PC2. Follow the instructions given on the work ticket or job card in line with the responsibilities of the job role - PC3. Ask questions to obtain more information on tasks when the instructions are unclear - PC4. Agree and review the agreed upon work targets with the supervisor and check for special instructions, if any - PC5. Use the correct tools and equipment - PC6. Check that equipment is safe and set up in readiness for use - PC7. Select the correct component parts for the style being worked on - PC8. Check that the materials to be used are free from faults - PC9. Ensure the materials used meet the specification in terms of colour matching within a product/ between a pair of products, where applicable - PC10. Report faults in the materials - PC11. Carry out foundation footwear operations safely and at a rate which maintains work flow and meets production targets - PC12. Process component parts to the quality standard required - PC13. Correct work that does not conform to company quality standards - PC14. Report any damaged work to the supervisor/ quality controller - PC15. Report risks/ problems likely to affect services to the relevant person promptly and accurately - PC16. Follow company reporting procedures about defective tools and machines which affect work - PC17. Follow and utilize opportunities for learning - PC18. Update and develop knowledge of the products - PC19. Check with others when unsure of new product details - PC20. Sort and place work to assist with the next stage of production and minimise the risk of damage - PC21. Seek feedback from team mates on work related performance - PC22. Ask for help and information from the colleagues, when necessary, in a polite manner - PC23. Anticipate and respond to requests for assistance from colleagues

National Occupational Standards

LSS/N2301

Carry out cutting operations

	willingly and politely PC24. Leave work area safe and secure when work is complete PC25. Complete forms, records and other documentation PC26. Work in conformance to legal requirements, organizational policies and procedures
Carry out cutting operations	PC27. Make sure the work area is free from hazards PC28. Obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of the job role PC29. Ask questions to obtain more information on tasks when the instructions are unclear PC30. Calculate the number of components needed for production PC31. Select the tools and materials for the work PC32. Set up the equipment PC33. Make sure that tools are safe and clean to use on the material PC34. Check the quality and characteristics of the material match the required standards before starting to cut PC35. Use tools and equipment for hand or machine cutting PC36. Make sure that when cutting the material • Avoid damaging self and others • Avoid damage to the knife and other equipment PC37. Avoid any imperfections in the material when cutting PC38. Calculate the components required PC39. Agree and review the agreed upon work targets with the supervisor PC40. Seek feedback from team mates on work related performance PC41. Ask for help and information from the colleagues, when necessary, in a polite manner PC42. Anticipate and respond to requests for assistance from colleagues willingly and politely PC43. Follow and utilize opportunities for learning PC44. Update and develop knowledge of the products PC45. Minimise wastage PC46. Meet company usage tolerances for efficient pattern interlocking PC47. Report risks/ problems likely to affect services to the relevant person promptly and accurately PC48. Check with others when unsure of new product details PC49. Identify and respond to imperfections, defects and damage due to mishandling PC50. Produce the required batch of components to match the job card and the company's production targets PC51. Report defects in the tools and equipment that do not have the authority to repair PC52. Dispose of waste materials safely and return re-useable materials PC53. Carry out closedown procedures on completion of work PC54. Make sure that the cut material is • Correctly sorted to assist the next stage of production

National Occupational Standards

LSS/N2301

Carry out cutting operations

	Carefully placed to minimise the risk of damage PC55. Complete forms, records and other documentation PC56. Work in conformance to legal requirements, organizational policies and procedures
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. Details of the various job roles and responsibilities KA2. Responsibilities and line of reporting within the work area KA3. Protocol to obtain more information on work related tasks KA4. Organizational policies and procedures KA5. Work target and review mechanism with the supervisor KA6. Method of obtaining/ giving feedback related to performance KA7. Importance of team work and harmonious working relationships KA8. Process for offering/ obtaining work related assistance KA9. Protocol and format for reporting work related risks/ problems KA10. Contact person in case of queries on procedure or products KA11. Common hazards in the work area and procedures for dealing with them KA12. Procedures for handling the tools and equipment KA13. Procedures with regard to material re-usage and disposal KA14. Quality standards and the reporting procedures KA15. Documentation required as part of the process KA16. Cutting efficiencies with regard to the material being cut
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Knowledge of footwear products and styles of footwear currently being produced KB2. Sources of updates on footwear and related areas KB3. Interpretation of body language (both positive and negative) KB4. Method of sharing domain related information with team members KB5. Method of interpreting product specifications KB6. The relation between the data on the work ticket/ job card and the production schedules KB7. Method of safely setting up and closing down cutting and other equipment in the work station KB8. Equipment needed for the cutting activity KB9. Methods of calculating the number of components required KB10. Methods of cutting to ensure maximum usage and minimum wastage KB11. Common quality imperfections associated with the materials KB12. Main characteristics of the materials, method of identification and the means of cutting operations and subsequent operations KB13. Implications of using defective tools and machines on the materials KB14. Equipment operating procedures KB15. Manufacturers' instructions
Skills (S)	
A. Core Skills /	Writing Skills

National Occupational Standards

LSS/N2301

Carry out cutting operations

Generic Skills	The user/ individual on the job needs to know and understand how to: SA1. Write in English/ local language as applicable SA2. Fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
	Reading Skills The user/ individual on the job needs to know and understand how to: SA3. Read English/ local language as applicable SA4. Read and understand manuals, health and safety instructions, memos, reports, job cards etc
	Oral Communication (Listening and Speaking Skills) The user/ individual on the job needs to know and understand how to: SA5. Listen actively SA6. Communicate effectively with supervisors, managers, etc
B. Professional Skills	Decision Making The user/ individual on the job needs to know and understand how to: SB1. Analyse the defects and the procedure for dealing with it SB2. Take appropriate actions in terms of any deviations from the process
	Plan and Organize The user/ individual on the job needs to know and understand how to: SB3. Plan work according to the required schedule and location SB4. Produce as per the specified productivity targets SB5. Organise the required materials sequentially
	Customer Centricity The user/ individual on the job needs to know and understand how to: SB6. Take measurements and make drawings as per customer specifications SB7. Evaluate and ensure cutting of the materials is as per customer standards
	Problem Solving The user/ individual on the job needs to know and understand how to: SB8. Review the defects and take appropriate actions
	Analytical Thinking The user/ individual on the job needs to know and understand how to: SB9. Analyze the drawings and cut the material accordingly SB10. Evaluate and assess the cut materials for any modifications and corrections
	Critical Thinking The user/ individual on the job needs to know and understand how to: SB11. Assess and control the quality standards of the cut materials as per customer standards

LSS/N2302 Contribute to achieving product quality in cutting processes

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of the production while undertaking cutting related activities to ensure products meet specifications.

LSS/N2302 Contribute to achieving product quality in cutting processes

National Occupational Standard

Unit Code	LSS/N2302
Unit Title (Task)	Contribute to achieving product quality in cutting processes
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of the production while undertaking cutting related activities to ensure products meet specifications.
Scope	This unit/task covers the following: Contribute to achieving the product quality
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Contribute to achieving the product quality	To be competent, the user/individual on the job must be able to: PC1. Set up and test equipment to meet quality standard PC2. Ensure materials and component parts meet specifications PC3. Ensure the quality of the product meets specification during production PC4. Maintain the required productivity and quality levels PC5. Carry out quality checks at agreed intervals and in the approved way PC6. Apply the allowed tolerances PC7. Report and replace faulty materials and component parts which do not meet specification PC8. Identify process problems that effect product quality and report them promptly to appropriate people PC9. Maintain the continuity of production with minimum interruptions and downtime PC10. Identify faults and irregularities in equipment and machinery and take action within the limits of the responsibility PC11. Identify faults in finished products and trace their causes PC12. Follow reporting procedures where the cause of faults cannot be identified PC13. Maintain records and documentation
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. Types of problems with quality and how to report them to appropriate people KA2. Consequences of not rectifying problems KA3. Importance of keeping accurate quality records KA4. Methods to present any ideas for improvement to line manager KA5. Safe working practices and organisational procedures KA6. Limits of the own responsibility KA7. Ways of resolving with problems within the work area KA8. The importance of effective communication with colleagues KA9. The lines of communication, authority and reporting procedures KA10. The organisation's rules, codes and guidelines (including timekeeping) KA11. The companies quality standards KA12. The types of records kept, methods to complete the record and the importance of keeping them accurate

LSS/N2302 Contribute to achieving product quality in cutting processes

	KA13. The importance of complying with written instructions KA14. Equipment operating procedures / manufacturer's instructions KA15. Statutory responsibilities under Health, Safety and Environmental legislation and regulations
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Methods to receive work instructions and specifications and interpret them accurately KB2. Methods to make use of the information detailed in specifications and instructions KB3. The types of faults in equipment and machinery and the action to be taken when they occur KB4. Process to identify materials which do not conform to requirements and how to report them to appropriate people KB5. Care and fabric content labels / symbols KB6. Awareness of material/fabric / yarn types KB7. The causes of lost production and material wastage KB8. Process to maintain the flow of production KB9. The importance of achieving quality and its relation to the end user / customer

LSS/N8501

Maintain the work area, tools and machines

Unit Code	LSS/N8501
Unit Title (Task)	Maintain the work area, tools and machines
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to organise/ maintain work areas and activities to ensure tools and machines are maintained as per norms.
Scope	This unit/task covers the following: Maintenance of the work area, tools and machines
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Maintenance of work area, tools and machines	To be competent, the user/individual on the job must be able to: PC1. Handle materials, machinery, equipment and tools safely and correctly PC2. Use correct lifting and handling procedures PC3. Use materials to minimize waste PC4. Prepare and organize work PC5. Maintain a clean and hazard free working area PC6. Deal with work interruptions PC7. Move around the workplace with care PC8. Maintain tools and equipment PC9. Carry out running maintenance within agreed schedules PC10. Carry out maintenance and/or cleaning outside responsibility PC11. Report unsafe equipment and other dangerous occurrences PC12. Ensure that the correct machine guards are in place PC13. Work in a comfortable position with the correct posture PC14. Use cleaning equipment and methods appropriate for the work to be carried out PC15. Dispose of waste safely in the designated location PC16. Store cleaning equipment safely after use PC17. Complete and store accurate records and documentation PC18. Maintain proper lighting, ventilation to make sure general comfort is there while working PC19. Give inputs and assist in completing documentation PC20. Report the need for maintenance and/or cleaning outside your area of responsibility PC21. Ensure safe and correct handling of materials, equipment and tools PC22. Maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration
Knowledge and Understanding (K)	
C. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. Personal hygiene and duty of care KA2. Safe working practices and organizational procedures KA3. Limits of one's own responsibility KA4. Ways of resolving with problems within the work area KA5. The production process and the specific work activities that relate to the whole process KA6. The lines of communication, authority and reporting procedures

LSS/N8501

Maintain the work area, tools and machines

	KA7. The organization's rules, codes and guidelines (including timekeeping) KA8. The companies quality standards KA9. The types of records kept, how are they completed and the importance of keeping them accurate KA10. The importance of complying with written instructions KA11. Equipment operating procedures / manufacturer's instructions KA12. Statutory responsibilities under Health, Safety and Environmental legislation and regulations KA13. The quality standards and processes followed by the organization relevant to your role KA14. Documentation required for reporting
D. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Work instructions and specifications and interpret them accurately KB2. Method to make use of the information detailed in specifications and instructions KB3. Relation between work role and the overall manufacturing process KB4. The importance of good time keeping and attendance KB5. The importance of minimized production costs KB6. The importance of taking action when problems are identified KB7. Different ways of minimizing waste KB8. The importance of running maintenance and regular cleaning KB9. Effects of contamination on products i.e. Machine oil, dirt KB10. Common faults with equipment and the method to rectify KB11. Maintenance procedures and manufacturer's instructions KB12. Hazards likely to be encountered when conducting routine maintenance KB13. Different types of cleaning equipment and substances and their use KB14. Safe working practices for cleaning and the method of carrying them out KB15. The production process and the specific work activities that relate to the whole process
Skills (S)	
C. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to: SA1. Write and document appropriate technical forms, job cards, inspection sheets as required format of the company
	Reading Skills
	The user/ individual on the job needs to know and understand how to: SA2. Read and comprehend basic English to read and interpret indicators in the machine and operating manuals, job cards, visual cards, SA3. Read and understand manuals, health and safety instructions, memos, reports, job cards etc
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to: SA4. Speak and communicate effectively to peers and supervisors SA5. Give clear instructions to co-workers, subordinates others SA6. Use correct technical term while interacting with supervisor

LSS/N8501

Maintain the work area, tools and machines

D. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to:
	SB1. Take appropriate decisions regarding to responsibilities
	SB2. Assess for any damage/faulty component in the concerned machinery and take action accordingly
	SB3. Evaluate the decision and conduct basic trouble shooting
	Plan and Organize
	The user/ individual on the job needs to know and understand how to:
	SB4. Plan and manage work routine based on company procedure
	SB5. Work with supervisors/ team mates to carry out work related tasks
	SB6. Plan for cleaning and lubricating the concerned machinery daily
	SB7. Plan for cleaning the concerned tools and workplace daily before and after operations
	Customer Centricity
	The user/ individual on the job needs to know and understand how to:
	SB8. Ensure and follow organizational procedures pertaining to health and safety are followed
	Problem Solving
	The user/ individual on the job needs to know and understand how to:
	SB9. Solve operational role related issues
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB10. Diagnose common problems in the machine based on visual inspection, sound, temperature etc.
	Critical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB11. Analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Country / customer specific regulations for the sector and their importance KB2. Reporting procedure in case of deviations KB3. Limits of personal responsibility
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to: SA1. Write and document appropriate technical forms, job cards, inspection sheets as required format of the company
	Reading Skills
	The user/ individual on the job needs to know and understand how to: SA2. Read and comprehend the organizational documents pertaining to rules and procedures SA3. Read and comprehend basic English to read and interpret indicators in

LSS/N8701

Comply with industry, regulatory and organizational requirements

	the machine and operating manuals, job cards, visual cards, etc
	SA4. Read in the local language as applicable
	SA5. Read and understand manuals, health and safety instructions, memos, reports, job cards etc
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to:
	SA6. Positively influence the team members into following procedures
B. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to:
	SB1. Take appropriate decisions related to responsibilities
	Plan and Organize
	The user/ individual on the job needs to know and understand how to:
	SB2. Plan and manage work routine based on company procedure
	Customer Centricity
	The user/ individual on the job needs to know and understand how to:
	SB3. Ensure and follow organizational procedures and policies
	Problem Solving
	The user/ individual on the job needs to know and understand how to:
	SB4. Evaluate and seek and obtain clarification from the superiors
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB5. Apply balanced judgement to different situations
	Critical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB6. Analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N8701 Comply with industry, regulatory and organizational requirements

CRITERIA FOR ASSESSMENT OF TRAINEES

Job Role Cutter (Footwear)

Qualification Pack Code LSS/Q2301

Sector Skill Council Leather

Guidelines for Assessment:

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below)
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on these criteria
5. To pass the Qualification Pack, every trainee should score a minimum of 50% aggregate
6. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

NOS	PC	Marks Allocation			
		Total Mark	Out Of	Theory	Skills Practical
1. LSS/N2301– Carry out cutting operations	PC1. Make sure the work area is free from hazards	100	2	0	2
	PC2. Follow the instructions given on the work ticket or job card in line with the responsibilities of the job role		1	0	1
	PC3. Ask questions to obtain more information on tasks when the instructions are unclear		1	0	1
	PC4. Agree and review the agreed upon work targets with the supervisor and check for special instructions, if any		1	0	1
	PC5. Use the correct tools and equipment		6	5	1
	PC6. Check that equipment is safe and set up in readiness for use		1	0	1
	PC7. Select the correct component parts for the style being worked on		2	0	2

	PC8. Check that the materials to be used are free from faults	1	0	1
	PC9. Ensure the materials used meet the specification in terms of colour matching within a product/ between a pair of products, where applicable	7	5	2
	PC10. Report faults in the materials	1	0	1
	PC11. Carry out foundation footwear operations safely and at a rate which maintains work flow and meets production targets	2	0	2
	PC12. Process component parts to the quality standard required	2	0	2
	PC13. Correct work that does not conform to company quality standards	2	0	2
	PC14. Report any damaged work to the supervisor/ quality controller	1	0	1
	PC15. Report risks/ problems likely to affect services to the relevant person promptly and accurately	1	0	1
	PC16. Follow company reporting procedures about defective tools and machines which affect work	1	0	1
	PC17. Follow and utilize opportunities for learning	2	0	2
	PC18. Update and develop knowledge of the products	2	0	2
	PC19. Check with others when unsure of new product details	2	0	2
	PC20. Sort and place work to assist with the next stage of production and minimise the risk of damage	2	0	2
	PC21. Seek feedback from team mates on work related performance	1	0	1
	PC22. Ask for help and information from the colleagues, when necessary, in a polite manner	1	0	1
	PC23. Anticipate and respond to requests for assistance from colleagues willingly and politely	1	0	1
	PC24. Leave work area safe and secure when work is complete	1	0	1
	PC25. Complete forms, records and other documentation	1	0	1
	PC26. Work in conformance to legal requirements, organizational policies and procedures	1	0	1
	PC27. Make sure the work area is free from hazards	2	0	2

	PC28. Obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of the job role		1	0	1
	PC29. Ask questions to obtain more information on tasks when the instructions are unclear		1	0	1
	PC30. Calculate the number of components needed for production		1	0	1
	PC31. Select the tools and materials for the work		1	0	1
	PC32. Set up the equipment		1	0	1
	PC33. Make sure that tools are safe and clean to use on the material		1	0	1
	PC34. Check the quality and characteristics of the material match the required standards before starting to cut		1		1
	PC35. Use tools and equipment for hand or machine cutting		1	0	1
	PC36. Make sure that when cutting the material • Avoid damaging self and others • Avoid damage to the knife and other equipment		2	0	2
	PC37. Avoid any imperfections in the material when cutting		1	0	1
	PC38. Calculate the components required		7	5	2
	PC39. Agree and review the agreed upon work targets with the supervisor		1	0	1
	PC40. Seek feedback from team mates on work related performance		1	0	1
	PC41. Ask for help and information from the colleagues, when necessary, in a polite manner		7	5	2
	PC42. Anticipate and respond to requests for assistance from colleagues willingly and politely		1	0	1
	PC43. Follow and utilize opportunities for learning		1	0	1
	PC44. Update and develop knowledge of the products		1	0	1
	PC45. Minimise wastage		1	0	1
	PC46. Meet company usage tolerances for efficient pattern interlocking		1	0	1
	PC47. Report risks/ problems likely to affect services to the relevant person promptly and accurately		1	0	1
	PC48. Check with others when unsure of new product details		1	0	1
	PC49. Identify and respond to imperfections, defects and damage due to mishandling		1	0	1

	PC50. Produce the required batch of components to match the job card and the company's production targets		6	5	1
	PC51. Report defects in the tools and equipment that do not have the authority to repair		1	0	1
	PC52. Dispose of waste materials safely and return re-useable materials		6	5	1
	PC53. Carry out closedown procedures on completion of work		1	0	1
	PC54. Make sure that the cut material is - Correctly sorted to assist the next stage of production - Carefully placed to minimise the risk of damage		1	0	1
	PC55. Complete forms, records and other documentation		1	0	1
	PC56. Work in conformance to legal requirements, organizational policies and procedures		1	0	1
		Total	100	30	70
2. LSS/N2302– Contribute to achieving product quality in cutting processes	PC1. Set up and test equipment to meet quality standard		1	0	1
	PC2. Ensure materials and component parts meet specifications		1	0	1
	PC3. Ensure the quality of the product meets specification during production		6	5	1
	PC4. Maintain the required productivity and quality levels		6	5	1
	PC5. Carry out quality checks at agreed intervals and in the approved way	50	6	5	1
	PC6. Apply the allowed tolerances		6	5	1
	PC7. Report and replace faulty materials and component parts which do not meet specification		2	0	2
	PC8. Identify process problems that effect product quality and report them promptly to appropriate people		7	5	2
	PC9. Maintain the continuity of production with minimum interruptions and downtime		6	5	1
	PC10. Identify faults and irregularities in equipment and machinery and take action within the limits of the responsibility		1	0	1
	PC11. Identify faults in finished products and		1	0	1

	trace their causes				
	PC12. Follow reporting procedures where the cause of faults cannot be identified		6	5	1
	PC13. Maintain records and documentation		1	0	1
		Total	50	35	15
3. LSS/N8501– Maintain the work area, tools and machines	PC1. Handle materials, machinery, equipment and tools safely and correctly	50	2	0	2
	PC2. Use correct lifting and handling procedures		2	0	2
	PC3. Use materials to minimize waste		3	0	3
	PC4. Prepare and organize work		2	0	2
	PC5. Maintain a clean and hazard free working area		3	0	3
	PC6. Deal with work interruptions		2	0	2
	PC7. Move around the workplace with care		3	0	3
	PC8. Maintain tools and equipment		3	0	3
	PC9. Carry out running maintenance within agreed schedules		4	2	2
	PC10. Carry out maintenance and/or cleaning outside responsibility		2	1	1
	PC11. Report unsafe equipment and other dangerous occurrences		3	2	1
	PC12. Ensure that the correct machine guards are in place		1	0	1
	PC13. Work in a comfortable position with the correct posture		2	1	1
	PC14. Use cleaning equipment and methods appropriate for the work to be carried out		3	2	1
	PC15. Dispose of waste safely in the designated location		3	2	1
	PC16. Store cleaning equipment safely after use		2	1	1
	PC17. Complete and store accurate records and documentation		2	1	1
	PC18. Maintain proper lighting, ventilation to make sure general comfort is there while working		2	1	1
	PC19. Give inputs and assist in completing documentation		1	0	1
	PC20. Report the need for maintenance and/or cleaning outside your area of responsibility		1	0	1
	PC21. Ensure safe and correct handling of materials, equipment and tools		2	1	1
	PC22. Maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration		2	1	1

		Total	50	15	35
4. LSS/N8601- Maintain health, safety and security at workplace	PC1. Comply with health and safety related instructions applicable to the workplace	25	6	5	1
	PC2. Use and maintain personal protective equipment as per protocol		0.5	0	0.5
	PC3. Carry out own activities in line with approved guidelines and procedures		0.5	0	0.5
	PC4. Maintain a healthy lifestyle and guard against dependency on intoxicants		0.5	0	0.5
	PC5. Follow environment management system related procedures		5.5	5	0.5
	PC6. Identify and correct (if possible) malfunctions in machinery and equipment		1	0	1
	PC7. Report any service malfunctions that cannot be rectified		1	0	1
	PC8. Store materials and equipment in line with manufacturer's and organizational requirements		0.5	0	0.5
	PC9. Safely handle and move waste and debris		0.5	0	0.5
	PC10. Minimize health and safety risks to self and others due to own actions		1	0	1
	PC11. Seek clarifications, from supervisors or other authorized personnel in case of perceived risks		1	0	1
	PC12. Monitor the workplace and work processes for potential risks and threats		1	0	1
	PC13. Carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned		1	0	1
	PC14. Report hazards and potential risks/ threats to supervisors or other authorized personnel		1	0	1
	PC15. Participate in mock drills/ evacuation procedures organized at the workplace		1	0	1
	PC16. Undertake first aid, fire-fighting and emergency response training, if asked to do so		1	0	1
	PC17. Take action based on instructions in the event of fire, emergencies or accidents		1	0	1
	PC18. Follow organization procedures for shutdown and evacuation when required		1	0	1
	Total		25	10	15

5. LSS/N8701- Comply with industry, regulatory and organizational requirements	PC1. Carry out work functions in accordance with legislation and regulations, organizational guidelines and procedures	25	8	5	3
	PC2. Seek and obtain clarifications on policies and procedures, from the supervisor or other authorized personnel		8	5	3
