

QUALIFICATION PACK – OCCUPATIONAL STANDARD FOR LEATHER SECTOR

What are Occupational Standards(OS)?

- OS describe what individuals need to do, know and understand in order to carry out a particular job role or function
- OS are performance standards that individuals must achieve when carrying out functions in the workplace, together with specifications of the underpinning knowledge and understanding

Introduction

Qualification Pack - Helper Upper Making

SECTOR: LEATHER

SUB SECTOR: Footwear

OCCUPATION: Upper making operations (assistance)

REFERENCE ID: LSS/Q3301

ALIGNED TO: NCO-2004/NIL

Helper – Upper Making (also known as Assistant Operator) is an important job-role associated with the Footwear sector. With the growing demand for skills, the importance of a multi-skilled helper with knowledge and skills in multiple operations has increased.

Brief Job Description: The primary responsibility of a Helper - Upper Making is to provide assistance to the footwear machine operators involved in material cutting, insole building, stitching, skiving, etc. and carries out folding, adhesive adding and edge colouring. He/ She is required to co-ordinate with team members and is required to assist the operators to carry out activities based on the production schedule.

Personal Attributes: An upper making helper should be willing to learn new roles and responsibilities within the factory. The individual should have an eye for detail and an interest in upper making. He/ She should be able to pick up new methods and process and be willing to learn and work with people.

Qualifications Pack Code	LSS/Q3301		
Job Role	Helper Upper Making		
Credits(NSQF)	TBD	Version number	1.0
Sector	Leather	Drafted on	25/07/13
Sub-sector	Footwear	Last reviewed on	31/03/15
Occupation	Upper making operations (assistance)	Next review date	31/03/17
NSQC Clearance on	18/06/2015		

Job Role	Helper Upper Making
Role Description	The primary responsibility of an upper making helper is to provide assistance to the footwear machine operators involved in material cutting, insole building, stitching, skiving, etc. and carries out folding, adhesive adding and edge colouring.
NSQF level	2
Minimum Educational Qualifications*	Class V
Maximum Educational Qualifications*	N/A
Training (Suggested but not mandatory)	N/A
Minimum Job Entry Age	18 years
Experience	N/A
Applicable National Occupational Standards (NOS)	Compulsory 1. LSS/N3301 Carry out supporting operations in footwear upper making 2. LSS/N3302 Support to achieving product quality in footwear upper making 3. LSS/N8501 Maintain the work area, tools and machines 4. LSS/N8601 Maintain health, safety and security at workplace 5. LSS/N8701 Comply with industry, regulatory and organizational requirements Optional: N.A.
Performance Criteria	As described in the relevant OS units

Definition

Keywords /Terms	Description
Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Vertical	Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.
Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry.
Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.
Sub-functions	Sub-functions are sub-activities essential to fulfil achieving the objectives of the function.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding; he/she needs to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria	Performance Criteria are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are Occupational Standards which apply uniquely in the Indian context.
Qualifications Pack Code	Qualifications Pack Code is a unique reference code that identifies a qualifications pack.
Qualifications Pack(QP)	Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.
Unit Code	Unit Code is a unique identifier for an Occupational Standard, which is denoted by an 'N'.
Unit Title	Unit Title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to find the required one.
Scope	Scope is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of required performance.
Knowledge and Understanding	Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform up to the required standard.

TBD	To Be Determined

LSS/N3301 Carry out supporting operations in footwear upper making

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Ability for carrying out supporting operations within upper making footwear manufacturing processes.

National Occupational Standards

LSS/N3301 Carry out supporting operations in footwear upper making

National Occupational Standard

Unit Code	LSS/N3301
Unit Title (Task)	Carry out supporting operations in footwear upper making
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Ability for carrying out supporting operations within upper making footwear manufacturing processes.
Scope	This unit/task covers the following: • Support operations • Designing Operations • Cutting Operations • Stamping/Embossing • Skiving Operations • Edge Colouring • Adhesive adding • Folding • Stitching Operations • Quality Inspection
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Carry out supporting operations within footwear	To be competent, the user/individual on the job must be able to: PC1. Follow the instructions on the work ticket/ job card PC2. Make sure that the work area is free from hazards PC3. Support the operator in checking the materials used meet the specification matching • within a product • between a pair of products where applicable PC4. Agree and review agreed upon work targets with the supervisor PC5. Assist in carrying out foundation footwear operations safely and at a rate which maintains work flow and meets production targets PC6. Report any damaged work to the responsible person PC7. Ask questions to obtain more information on tasks when the instructions are unclear PC8. Anticipate and respond to requests for assistance from colleagues willingly and politely PC9. Update & develop knowledge of the products, check with others when unsure of new product details
Assist in Designing Operations	PC10. Take the leather pieces and keeps the tools and materials ready PC11. Sort the leather pieces as per the job card PC12. Assist the designer in making model/samples PC13. Sort and place the designed components and their grading to assist the next stage of production
Assist in Cutting Operations	PC14. Choose the tools and materials required for cutting process and get the components from the designing section PC15. Sort the components as per the job card PC16. Count the number of pieces that have been cut for each design and

National Occupational Standards

LSS/N3301 Carry out supporting operations in footwear upper making

	prompt the cutter accordingly. PC17. Check that the number of cut components is equal to that in the work ticket/ job card. PC18. Inform the operator when the desired number of pieces required of the particular pattern is reached PC19. Assist the cutter/ clicker performing the clicking operation PC20. Correctly sort and place work to assist the next stage of production PC21. Minimise waste and dispose of all waste materials in the approved manner PC22. Store and dispose the waste materials from the process
Assist in Stamping/Embossing	PC23. Collect the cut uppers from the cutting section and sorts as per job card PC24. Stamp the cut components as per specifications on the upper/sock PC25. Pass the uppers to the skiving section PC26. Pass the socks to the bottoming section
Assist in Skiving Operations	PC27. Choose the tools and materials required for skiving process and get the cut uppers from the cutting section PC28. Sort the cut uppers as per the job card PC29. Place the upper components on to the tray PC30. Collect the skived uppers from the tray and place work to assist the next stage of production PC31. Sort and place work to assist the next stage of production PC32. Clean and oil the machinery and report errors, if required
Edge Colouring	PC33. Take the skived uppers and sorts them as per the job card PC34. Colour the edges of the components using a brush PC35. Check the quality and appearance of the product as per the specifications PC36. Sort and place work to assist the next stage of production PC37. Keep the tools and workplace tidy
Adhesive adding	PC38. Take the skived uppers and sorts them as per the job card PC39. Apply adhesive on the skived edge as per instructions PC40. Check the quality and appearance of the product as per the specifications PC41. Sort and place work to assist the next stage of production PC42. Keep the tools and workplace tidy
Folding	PC43. Fold the skived portion of the uppers PC44. Check the quality and appearance of the product as per the specifications PC45. Pass the uppers for the next operation PC46. Sort and place work to assist the next stage of production PC47. Keep the tools and workplace tidy
Assist in Stitching Operations	PC48. Assist the stitching operator in getting the materials and components from respective operators PC49. Carry out the pairing of the upper components as per the shade of the leather PC50. Check the product quality of the different components to adhere to

National Occupational Standards

LSS/N3301 Carry out supporting operations in footwear upper making

	quality norms PC51. Place the components on to the first stitching operator PC52. Take the stitched components from the last stitching assembly line operator PC53. Give to the next operator for eyeleting the upper, if required PC54. Trim any excess thread or materials based on the design requirements using appropriate tools and without any damage PC55. Sort and place work to assist the next stage of production
Assist in first Quality Inspection	PC56. Get the closed uppers from the stitching section PC57. Check that products conform to their specification PC58. Sort and place work to assist the next stage of production
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. The organization's procedures and guidelines related to footwear manufacturing processes KA2. Work target and review mechanism with your supervisor for obtaining/ giving feedback related to performance KA3. Process for offering/ obtaining work related assistance in case of queries on procedure or products KA4. The different components of footwear KA5. Storage and assembly areas for different processes in upper making KA6. The various machinery and equipments handled KA7. Documentation related to the manufacturing processes and protocol for recording KA8. Location and process for storage and disposal of waste KA9. Importance of team work and harmonious working relationships
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. The different characteristics and properties of the various kinds of leather KB2. The designing process and the related equipments used KB3. The different techniques of designing uppers KB4. The cutting process and the related equipments used KB5. The different techniques of cutting uppers KB6. The importance of accuracy and quality in the cutting process KB7. The various defects found in different kinds of leather KB8. The stamping and embossing process and the related equipments used KB9. The different techniques used in stamping and embossing KB10. The skiving process and the related equipments used KB11. The different techniques of skiving uppers KB12. The importance of skiving as per specifications in the job card KB13. The edge colouring process and the related equipments KB14. The different techniques used in edge colouring KB15. The different kinds of paints and brushes used KB16. The properties of adhesives KB17. The importance of proper and accurate application

National Occupational Standards

LSS/N3301 Carry out supporting operations in footwear upper making

	KB18. The folding process KB19. The stitching process and the related equipments used KB20. The different kinds of thread to be used KB21. The different properties of thread in relation to the material used KB22. Common faults in tools and equipment and implications of working with faulty equipments KB23. Common errors in processes and how to avoid them KB24. Styles/ design of the products currently being produced KB25. Manufacturers' instructions KB26. The quality parameters to be checked as per the job card
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to:
	SA1. Write in English/ local language as applicable
	SA2. Fill up activity logs/work sheet in the prescribed format of the company as applicable
	Reading Skills
	The user/ individual on the job needs to know and understand how to:
B. Professional Skills	SA3. Read English/ local language as applicable
	SA4. Read and understand manuals, health and safety instructions, memos, job cards etc
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to:
	SA5. Listen actively
	SA6. Communicate effectively with operators, supervisors, managers, etc
B. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to:
	SB1. Analyse different sequence of the process and provide for appropriate assistance
	SB2. Assess the material and apply appropriate lifting and handling procedures
	Plan and Organize
	The user/ individual on the job needs to know and understand how to:
	SB3. Confirm the instructions and seek clarifications to ensure accuracy of requirements
	SB4. Evaluate the requirements of the process and prepare for the work area
	SB5. Plan and organize cleaning of tools, equipment and machineries
	Customer Centricity
B. Professional Skills	The user/ individual on the job needs to know and understand how to:
	SB6. Adhere to each of the process guidelines in upper making
	SB7. Anticipate and provide assistance in upper making as and when required
B. Professional Skills	Problem Solving
	The user/ individual on the job needs to know and understand how to:
B. Professional Skills	SB8. Report in incase of deviations from the process

National Occupational Standards

LSS/N3301 Carry out supporting operations in footwear upper making

	SB9. Anticipate and notify the concerned person if there is any shortage in materials required for upper making
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB10. Observe mechanical processing vigilantly and report any deviations
	SB11. Evaluate the material before sorting and placing
	SB12. Identify equipment maintenance requirements and perform the maintenance procedures
	Critical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB13. Analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N3302 Support to achieving product quality in footwear upper making

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of production while undertaking supporting activities to ensure products meet specifications.

LSS/N3302 Support to achieving product quality in footwear upper making

National Occupational Standard

Unit Code	LSS/N3302
Unit Title (Task)	Support to achieving product quality in footwear upper making
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of production while undertaking supporting activities to ensure products meet specifications.
Scope	This unit/task covers the following: Contribute to achieving the product quality
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Contribute to achieving the product quality	To be competent, the user/individual on the job must be able to: PC1. Ensure materials and component parts meet specifications PC2. Ensure the quality of the product meets specification during production PC3. Maintain the required productivity and quality levels PC4. Carry out quality checks at agreed intervals and in the approved way PC5. Count and verify the number of uppers are as per job card at the start and end of every stage in the processes PC6. Sort the components as per the job card after designing, clicking and skiving before passing it to the next stage of production PC7. Ensure that the quality and appearance of the uppers are not affected during materials movement PC8. Report and replace faulty materials and component parts which do not meet specification with the operator's approval PC9. Maintain the continuity of production with minimum interruptions and downtime PC10. Identify faults and irregularities in equipment and machinery and report to your superior PC11. Ensure minimum of wastage and their proper disposal
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. The companies quality standards KA2. The importance of complying with written instructions KA3. Types of problems with quality and how to report them to appropriate people KA4. Consequences of not rectifying problems KA5. Safe working practices and organizational procedures KA6. Limits of your own responsibility KA7. The lines of communication, authority and reporting procedures KA8. The organization's rules, codes and guidelines (including timekeeping) KA9. Manufacturer's instructions KA10. Statutory responsibilities under Health, Safety and Environmental legislation and regulations
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Methods to receive work instructions and specifications and interpret them accurately KB2. The types of faults in materials and tools

LSS/N3302 Support to achieving product quality in footwear upper making

	KB3. Process to identify materials which do not conform to requirements and how to report them to appropriate people KB4. Awareness of material/fabric / yarn types KB5. The causes of lost production and material wastage KB6. Importance/properties of adhesives KB7. Process to maintain the flow of production KB8. The importance of achieving quality and its relation to the end user / customer

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to organise/ maintain work areas and activities to ensure tools and machines are maintained as per norms.

LSS/N8501

Maintain the work area, tools and machines

Unit Code	LSS/N8501
Unit Title (Task)	Maintain the work area, tools and machines
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to organise/ maintain work areas and activities to ensure tools and machines are maintained as per norms.
Scope	This unit/task covers the following: Maintenance of the work area, tools and machines
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Maintenance of work area, tools and machines	To be competent, the user/individual on the job must be able to: PC1. Handle materials, machinery, equipment and tools safely and correctly PC2. Use correct lifting and handling procedures PC3. Use materials to minimize waste PC4. Prepare and organize work PC5. Maintain a clean and hazard free working area PC6. Deal with work interruptions PC7. Move around the workplace with care PC8. Maintain tools and equipment PC9. Carry out running maintenance within agreed schedules PC10. Carry out maintenance and/or cleaning outside responsibility PC11. Report unsafe equipment and other dangerous occurrences PC12. Ensure that the correct machine guards are in place PC13. Work in a comfortable position with the correct posture PC14. Use cleaning equipment and methods appropriate for the work to be carried out PC15. Dispose of waste safely in the designated location PC16. Store cleaning equipment safely after use PC17. Complete and store accurate records and documentation PC18. Maintain proper lighting, ventilation to make sure general comfort is there while working PC19. Give inputs and assist in completing documentation PC20. Report the need for maintenance and/or cleaning outside your area of responsibility PC21. Ensure safe and correct handling of materials, equipment and tools PC22. Maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration
Knowledge and Understanding (K)	
C. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. Personal hygiene and duty of care KA2. Safe working practices and organizational procedures KA3. Limits of one's own responsibility KA4. Ways of resolving with problems within the work area KA5. The production process and the specific work activities that relate to the whole process

LSS/N8501

Maintain the work area, tools and machines

	KA6. The lines of communication, authority and reporting procedures KA7. The organization's rules, codes and guidelines (including timekeeping) KA8. The companies quality standards KA9. The types of records kept, how are they completed and the importance of keeping them accurate KA10. The importance of complying with written instructions KA11. Equipment operating procedures / manufacturer's instructions KA12. Statutory responsibilities under Health, Safety and Environmental legislation and regulations KA13. The quality standards and processes followed by the organization relevant to your role KA14. Documentation required for reporting
D. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Work instructions and specifications and interpret them accurately KB2. Method to make use of the information detailed in specifications and instructions KB3. Relation between work role and the overall manufacturing process KB4. The importance of good time keeping and attendance KB5. The importance of minimized production costs KB6. The importance of taking action when problems are identified KB7. Different ways of minimizing waste KB8. The importance of running maintenance and regular cleaning KB9. Effects of contamination on products i.e. Machine oil, dirt KB10. Common faults with equipment and the method to rectify KB11. Maintenance procedures and manufacturer's instructions KB12. Hazards likely to be encountered when conducting routine maintenance KB13. Different types of cleaning equipment and substances and their use KB14. Safe working practices for cleaning and the method of carrying them out KB15. The production process and the specific work activities that relate to the whole process
Skills (S)	
C. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to: SA1. Write and document appropriate technical forms, job cards, inspection sheets as required format of the company
	Reading Skills
	The user/ individual on the job needs to know and understand how to: SA2. Read and comprehend basic English to read and interpret indicators in the machine and operating manuals, job cards, visual cards, SA3. Read and understand manuals, health and safety instructions, memos, reports, job cards etc
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to: SA4. Speak and communicate effectively to peers and supervisors SA5. Give clear instructions to co-workers, subordinates others

LSS/N8501

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimize risk to self and others.

LSS/N8601

Maintain health, safety and security at workplace

National Occupational Standard

Unit Code	LSS/N8601
Unit Title (Task)	Maintain health, safety and security at workplace
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimize risk to self and others.
Scope	This unit/task covers the following: Compliance with health, safety and security requirements at work
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Compliance with health, safety and security requirements at work	To be competent, the user/individual on the job must be able to: PC1. Comply with health and safety related instructions applicable to the workplace PC2. Use and maintain personal protective equipment as per protocol PC3. Carry out own activities in line with approved guidelines and procedures PC4. Maintain a healthy lifestyle and guard against dependency on intoxicants PC5. Follow environment management system related procedures PC6. Identify and correct (if possible) malfunctions in machinery and equipment PC7. Report any service malfunctions that cannot be rectified PC8. Store materials and equipment in line with manufacturer's and organizational requirements PC9. Safely handle and move waste and debris PC10. Minimize health and safety risks to self and others due to own actions PC11. Seek clarifications, from supervisors or other authorized personnel in case of perceived risks PC12. Monitor the workplace and work processes for potential risks and threats PC13. Carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned PC14. Report hazards and potential risks/ threats to supervisors or other authorized personnel PC15. Participate in mock drills/ evacuation procedures organized at the workplace PC16. Undertake first aid, fire-fighting and emergency response training, if asked to do so PC17. Take action based on instructions in the event of fire, emergencies or accidents PC18. Follow organization procedures for shutdown and evacuation when required
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the	The user/individual on the job needs to know and understand: KA1. Health and safety related practices applicable at the workplace KA2. Potential hazards, risks and threats based on nature of operations

LSS/N8601

Maintain health, safety and security at workplace

company / organization and its processes)	KA3. Organizational procedures for safe handling of equipment and machine operations KA4. Potential risks due to own actions and methods to minimize these KA5. Environmental management system related procedures at the workplace KA6. Layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points KA7. Potential accidents and emergencies and response to these scenarios KA8. Reporting protocol and documentation required KA9. Details of personnel trained in first aid, fire-fighting and emergency response KA10. Actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Occupational health and safety risks KB2. Personal protective equipment and method of use KB3. Identification, handling and storage of hazardous substances KB4. Proper disposal system for waste and by-products KB5. Signage related to health and safety and their meaning KB6. Importance of sound health, hygiene and good habits KB7. Ill-effects of alcohol, tobacco and drugs
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to:
	SA1. Document and report any health and safety related incidents/ accidents
	Reading Skills
	The user/ individual on the job needs to know and understand how to:
	SA2. Read and comprehend manuals of operations
B. Professional Skills	SA3. Read all organizational and equipment related health and safety manuals and documents
	SA4. Read instructions, guidelines/procedures/rules related to the worksite and machine operations
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to:
	SA5. Give clear instructions to co-workers, subordinates and other personnel
	SA6. Use correct technical terms while interacting with supervisor
B. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to:
	SB1. Make an appropriate timely decision in responding to emergencies/accidents in line with organization
	SB2. Evaluate and use correct PPE and other safety gear while at the workplace
B. Professional Skills	Plan and Organize
	The user/ individual on the job needs to know and understand how to:
	SB3. Work with supervisors/ team mates to carry out work related tasks
B. Professional Skills	SB4. Plan work according to the required schedule

LSS/N8601

Maintain health, safety and security at workplace

	SB5. Keep work area free from potential hazards
	Customer Centricity
	The user/ individual on the job needs to know and understand how to:
	SB6. Ensure and follow organizational procedures pertaining to health and safety are followed
	Problem Solving
	The user/ individual on the job needs to know and understand how to:
	SB7. Take appropriate actions during emergencies, accidents or fire at the workplace
	SB8. Resolve issues pertaining to malfunctions in machineries and report if required
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB9. Identify emergency situations
	SB10. Identify cause effect relationship for the emergencies
	Critical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB11. Analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N8701

Comply with industry, regulatory and organizational requirements

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for complying with industry, regulatory and organizational requirements at the workplace.

LSS/N8701

Comply with industry, regulatory and organizational requirements

Unit Code	LSS/N8701
Unit Title (Task)	Comply with industry, regulatory and organizational requirements
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for complying with industry, regulatory and organizational requirements at the workplace.
Scope	This unit/task covers the following: Compliance with industry, regulatory and organizational requirements
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Compliance with industry, regulatory and organizational requirements	To be competent, the user/individual on the job must be able to: PC1. Carry out work functions in accordance with legislation and regulations, organizational guidelines and procedures PC2. Seek and obtain clarifications on policies and procedures, from the supervisor or other authorized personnel PC3. Apply and follow these policies and procedures within the work practices PC4. Provide support to the supervisor and team members in enforcing these considerations PC5. Identify and report any possible deviation to these requirements
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. The importance of having an ethical and value-based approach to governance KA2. Benefits to the company and oneself due to practice of these procedures KA3. Specific to the industry/sector, know and understand: - Legal, regulatory and ethical requirements - Procedures to follow if someone does not meet the requirements KA4. Customer specific requirements mandated as a part of the work process
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Country / customer specific regulations for the sector and their importance KB2. Reporting procedure in case of deviations KB3. Limits of personal responsibility
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to:
	SA1. Write and document appropriate technical forms, job cards, inspection sheets as required format of the company
	Reading Skills
	The user/ individual on the job needs to know and understand how to:
	SA2. Read and comprehend the organizational documents pertaining to rules and procedures
	SA3. Read and comprehend basic English to read and interpret indicators in

LSS/N8701

Comply with industry, regulatory and organizational requirements

	the machine and operating manuals, job cards, visual cards, etc
	SA4. Read in the local language as applicable
	SA5. Read and understand manuals, health and safety instructions, memos, reports, job cards etc
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to:
	SA6. Positively influence the team members into following procedures
B. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to:
	SB1. Take appropriate decisions related to responsibilities
	Plan and Organize
	The user/ individual on the job needs to know and understand how to:
	SB2. Plan and manage work routine based on company procedure
	Customer Centricity
	The user/ individual on the job needs to know and understand how to:
	SB3. Ensure and follow organizational procedures and policies
	Problem Solving
	The user/ individual on the job needs to know and understand how to:
	SB4. Evaluate and seek and obtain clarification from the superiors
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB5. Apply balanced judgement to different situations
	Critical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB6. Analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N8701 Comply with industry, regulatory and organizational requirements

CRITERIA FOR ASSESSMENT OF TRAINEES

Job Role Helper Upper Making (Footwear)

Qualification Pack Code LSS/Q3301

Sector Skill Council Leather

Guidelines for Assessment:

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below)
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on these criteria
5. To pass the Qualification Pack, every trainee should score a minimum of 50% aggregate
6. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

NOS	PC	Marks Allocation			
		Total Mark	Out Of	Theory	Skills Practical
1. LSS/N3301 Carry out supporting operations in footwear upper making	PC1. Follow the instructions on the work ticket/ job card	100	1	0	1
	PC2. Make sure that the work area is free from hazards		1	0	1
	PC3. Support the operator in checking the materials used meet the specification matching • within a product • between a pair of products where applicable		2	0	2
	PC4. Agree and review agreed upon work targets with the supervisor		1	0	1
	PC5. Assist in carrying out foundation footwear operations safely and at a rate which maintains work flow and meets production targets		1	0	1
	PC6. Report any damaged work to the responsible person		6	5	1

	PC7. Ask questions to obtain more information on tasks when the instructions are unclear		1	0	1
	PC8. Anticipate and respond to requests for assistance from colleagues willingly and politely		1	0	1
	PC9. Update & develop knowledge of the products, check with others when unsure of new product details		6	5	1
	PC10. Take the leather pieces and keeps the tools and materials ready		2	0	2
	PC11. Sort the leather pieces as per the job card		2	0	2
	PC12. Assist the designer in making model/samples		6	5	1
	PC13. Sort and place the designed components and their grading to assist the next stage of production		1	0	1
	PC14. Choose the tools and materials required for cutting process and get the components from the designing section		1	0	1
	PC15. Sort the components as per the job card		1	0	1
	PC16. Count the number of pieces that have been cut for each design and prompt the cutter accordingly.		1	0	1
	PC17. Check that the number of cut components is equal to that in the work ticket/ job card.		2	0	2
	PC18. Inform the operator when the desired number of pieces required of the particular pattern is reached		6	5	1
	PC19. Assist the cutter/ clicker performing the clicking operation		2	0	2
	PC20. Correctly sort and place work to assist the next stage of production		1	0	1
	PC21. Minimise waste and dispose of all waste materials in the approved manner		6	5	1
	PC22. Store and dispose the waste materials from the process		1	0	1
	PC23. Collect the cut uppers from the cutting section and sorts as per job card		1	0	1
	PC24. Stamp the cut components as per specifications on the upper/sock		2	0	2
	PC25. Pass the uppers to the skiving section		1	0	1

	PC26. Pass the socks to the bottoming section		1	0	1
	PC27. Choose the tools and materials required for skiving process and get the cut uppers from the cutting section		1	0	1
	PC28. Sort the cut uppers as per the job card		1	0	1
	PC29. Place the upper components on to the tray		1	0	1
	PC30. Collect the skived uppers from the tray and place work to assist the next stage of production		1	0	1
	PC31. Sort and place work to assist the next stage of production		1	0	1
	PC32. Clean and oil the machinery and report errors, if required		1	0	1
	PC33. Take the skived uppers and sorts them as per the job card		1	0	1
	PC34. Colour the edges of the components using a brush		1	0	1
	PC35. Check the quality and appearance of the product as per the specifications		6	5	1
	PC36. Sort and place work to assist the next stage of production		1	0	1
	PC37. Keep the tools and workplace tidy		1	0	1
	PC38. Take the skived uppers and sorts them as per the job card		1	0	1
	PC39. Apply adhesive on the skived edge as per instructions		2	0	2
	PC40. Check the quality and appearance of the product as per the specifications		1	0	1
	PC41. Sort and place work to assist the next stage of production		1	0	1
	PC42. Keep the tools and workplace tidy		1	0	1
	PC43. Fold the skived portion of the uppers		2	0	2
	PC44. Check the quality and appearance of the product as per the specifications		1	0	1
	PC45. Pass the uppers for the next operation		1	0	1
	PC46. Sort and place work to assist the next stage of production		1	0	1
	PC47. Keep the tools and workplace tidy		1	0	1
	PC48. Assist the stitching operator in getting the materials and components		2	0	2

	from respective operators				
	PC49. Carry out the pairing of the upper components as per the shade of the leather		1	0	1
	PC50. Check the product quality of the different components to adhere to quality norms		1	0	1
	PC51. Place the components on to the first stitching operator		1	0	1
	PC52. Take the stitched components from the last stitching assembly line operator		1	0	1
	PC53. Give to the next operator for eyeleting the upper, if required		1	0	1
	PC54. Trim any excess thread or materials based on the design requirements using appropriate tools and without any damage		2	0	2
	PC55. Sort and place work to assist the next stage of production		1	0	1
	PC56. Get the closed uppers from the stitching section		1	0	1
	PC57. Check that products conform to their specification		2	0	2
	PC58. Sort and place work to assist the next stage of production		2	0	2
		Total	100	30	70
2. LSS/N3302 Support to achieving product quality in footwear upper making	PC1. Ensure materials and component parts meet specifications	50	6	5	1
	PC2. Ensure the quality of the product meets specification during production		6	5	1
	PC3. Maintain the required productivity and quality levels		2	0	2
	PC4. Carry out quality checks at agreed intervals and in the approved way		6	5	1
	PC5. Count and verify the number of uppers are as per job card at the start and end of every stage in the processes		2	0	2
	PC6. Sort the components as per the job card after designing, clicking and skiving before passing it to the next stage of production		2	0	2
	PC7. Ensure that the quality and appearance of the uppers are not		6	5	1

	affected during materials movement				
	PC8. Report and replace faulty materials and component parts which do not meet specification with the operator's approval		6	5	1
	PC9. Maintain the continuity of production with minimum interruptions and downtime		6	5	1
	PC10. Identify faults and irregularities in equipment and machinery and report to your superior		6	5	1
	PC11. Ensure minimum of wastage and their proper disposal		2	0	2
		Total	50	35	15
3. LSS/N8501 Maintain the work area, tools and machines	PC1. Handle materials, machinery, equipment and tools safely and correctly	50	2	0	2
	PC2. Use correct lifting and handling procedures		2	0	2
	PC3. Use materials to minimize waste		3	0	3
	PC4. Prepare and organize work		2	0	2
	PC5. Maintain a clean and hazard free working area		3	0	3
	PC6. Deal with work interruptions		2	0	2
	PC7. Move around the workplace with care		3	0	3
	PC8. Maintain tools and equipment		3	0	3
	PC9. Carry out running maintenance within agreed schedules		4	2	2
	PC10. Carry out maintenance and/or cleaning outside responsibility		2	1	1
	PC11. Report unsafe equipment and other dangerous occurrences		3	2	1
	PC12. Ensure that the correct machine guards are in place		1	0	1
	PC13. Work in a comfortable position with the correct posture		2	1	1
	PC14. Use cleaning equipment and methods appropriate for the work to be carried out		3	2	1
	PC15. Dispose of waste safely in the designated location		3	2	1
	PC16. Store cleaning equipment safely after use		2	1	1
	PC17. Complete and store accurate		2	1	1

	records and documentation				
	PC18. Maintain proper lighting, ventilation to make sure general comfort is there while working		2	1	1
	PC19. Give inputs and assist in completing documentation		1	0	1
	PC20. Report the need for maintenance and/or cleaning outside your area of responsibility		1	0	1
	PC21. Ensure safe and correct handling of materials, equipment and tools		2	1	1
	PC22. Maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration		2	1	1
		Total	50	15	35
4. LSS/N8601 Maintain health, safety and security at workplace	PC1. Comply with health and safety related instructions applicable to the workplace		6	5	1
	PC2. Use and maintain personal protective equipment as per protocol		1	0	1
	PC3. Carry out own activities in line with approved guidelines and procedures		0.5	0	0.5
	PC4. Maintain a healthy lifestyle and guard against dependency on intoxicants		0.5	0	0.5
	PC5. Follow environment management system related procedures		6	5	1
	PC6. Identify and correct (if possible) malfunctions in machinery and equipment		1	0	1
	PC7. Report any service malfunctions that cannot be rectified		0.5	0	0.5
	PC8. Store materials and equipment in line with manufacturer's and organizational requirements		1	0	1
	PC9. Safely handle and move waste and debris		1	0	1
	PC10. Minimize health and safety risks to self and others due to own actions		1	0	1
	PC11. Seek clarifications, from supervisors or other authorized personnel in case of perceived risks		1	0	1
	PC12. Monitor the workplace and work processes for potential risks and threats		0.5	0	0.5
	PC13. Carry out periodic walk-through		1	0	1

	to keep work area free from hazards and obstructions, if assigned				
	PC14. Report hazards and potential risks/ threats to supervisors or other authorized personnel		1	0	1
	PC15. Participate in mock drills/ evacuation procedures organized at the workplace		0.5	0	0.5
	PC16. Undertake first aid, fire-fighting and emergency response training, if asked to do so		1	0	1
	PC17. Take action based on instructions in the event of fire, emergencies or accidents		1	0	1
	PC18. Follow organization procedures for shutdown and evacuation when required		0.5	0	0.5
		Total	25	10	15
5. LSS/N8701- Comply with industry, regulatory and organizational requirements	PC1. Carry out work functions in accordance with legislation and regulations, organizational guidelines and procedures	25	8	5	3
	PC2. Seek and obtain clarifications on policies and procedures, from the supervisor or other authorized personnel		7	5	2
	PC3. Apply and follow these policies and procedures within the work practices		4	0	4
	PC4. Provide support to the supervisor and team members in enforcing these considerations		4	0	4
	PC5. Identify and report any possible deviation to these requirements		2	0	2
		Total	25	10	15
