

QUALIFICATION PACK – OCCUPATIONAL STANDARD FOR LEATHER SECTOR

What are Occupational Standards(OS)?

- OS describe what individuals need to do, know and understand in order to carry out a particular job role or function
- OS are performance standards that individuals must achieve when carrying out functions in the workplace, together with specifications of the underpinning knowledge and understanding

Introduction

Qualification Pack - Lasting Operator

SECTOR: LEATHER

SUB SECTOR: Footwear

OCCUPATION: Lasting

REFERENCE ID: LSS/Q2701

ALIGNED TO: NCO-2004/8266.32

The Lasting Operation is one among the most important processes of footwear manufacturing operation. This is the process when the upper and the sole are attached and the shoe is completed. The quality and durability of the shoes are determined by this operation. As this is a crucial operation, several skilled operators are required to perform various activities involved in lasting.

Brief Job Description: The Lasting operator would be a multi-skilled operator capable of operating the various machines used in lasting process and also skillful to perform various specialized tasks. Some of the most skillful activities in lasting process will involve fore-part Lasting, Seat Lasting, and Roughing etc.

Personal Attributes: Lasting Operator must possess, concentration, good eye-hand co-ordination, monitoring ability, vision (including near vision, distance vision, color vision, peripheral vision), depth perception, quick response time or reflex, physical fitness, target oriented as well basic estimation and numerical skills.

Qualifications Pack Code	LSS/Q2701		
Job Role	Lasting Operator		
Credits(NSQF)	TBD	Version number	1.0

Job Role	Lasting Operator
Role Description	Lasting operator would be a multi-skilled operator capable to operate various machines used in lasting process and also skillful to perform various specialized tasks. Some of the most skillful activities in lasting process will involve Fore part Lasting, Seat Lasting, Roughing etc.
NSQF level	4
Minimum Educational Qualifications*	Class V
Maximum Educational Qualifications*	N/A
Training (Suggested but not mandatory)	On-the-Job-Training
Minimum Job Entry Age	18 years
Experience	Prior experience as helper in footwear manufacturing for a minimum of 2-3 years preferred
Applicable National Occupational Standards (NOS)	Compulsory LSS/N2701 Carry out lasting operations using machine LSS/N2702 Contribute to achieving product quality in lasting operation LSS/N8501 Maintain the work area, tools and machines LSS/N8601 Maintain health, safety and security at workplace LSS/N8701 Comply with industry, regulatory and organizational requirements Optional: N.A.
Performance Criteria	As described in the relevant OS units

Definition

Keywords /Terms	Description
Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Vertical	Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.
Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry.
Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.
Sub-functions	Sub-functions are sub-activities essential to fulfil achieving the objectives of the function.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding; he/she needs to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria	Performance Criteria are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are Occupational Standards which apply uniquely in the Indian context.
Qualifications Pack Code	Qualifications Pack Code is a unique reference code that identifies a qualifications pack.
Qualifications Pack(QP)	Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.
Unit Code	Unit Code is a unique identifier for an Occupational Standard, which is denoted by an 'N'.
Unit Title	Unit Title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to find the required one.
Scope	Scope is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of required performance.
Knowledge and Understanding	Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform up to the required standard.

Acronyms

Keywords /Terms	Description
OS	Occupational Standard(s)
NOS	National Occupational Standard(s)
QP	Qualifications Pack
NSQF	National Skill Qualifications Framework
TBD	To Be Determined

LSS/N2701

Carry out lasting operations using machine

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for footwear lasting operations by either using appropriate machines, tools, equipment and processes.

National Occupational Standards

LSS/N2701

Carry out lasting operations using machine

National Occupational Standard

Unit Code	LSS/N2701
Unit Title (Task)	Carry out lasting operations using machine
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills& Abilities required for footwear lasting operations by either using appropriate machines, tools, equipment and processes.
Scope	This unit/task covers the following: • Preparatory Work • Counter Tightening Operation • Toe Moulding Operation • Forepart Lasting Operation • Seat Lasting Operation • Side Lasting Operation • Roughing Operation • Sole Pressing Operation • Delasting Operation • Reporting & Documentation • Sorting & Placing
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Preparatory Work	To be competent, the user/individual on the job must be able to: PC1. Make sure the work area is free from hazards PC2. Obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of job role PC3. Ask questions to obtain more information on tasks when the instructions have are unclear PC4. Select and sort the tools and materials for the work PC5. Setup the equipment and machineries for lasting as per the job requirement PC6. Make sure that tools are safe and clean to use on the material PC7. Agree and review agreed upon work targets with supervisor PC8. Seek feedback from supervisor on work related performance PC9. Update and develop knowledge of the products PC10. Minimize wastage PC11. Produce the required batch of components to match the job card and the company's production targets PC12. Dispose of waste materials safely and return re-useable materials PC13. Work in conformance to legal requirements, organizational policies and procedures PC14. Carry out visual inspection to ensure the products are free from handling defects
Counter Tightening Operation	PC15. Hammer the back portion of the upper and place the counter inside the back portion of the upper PC16. Clamp the Upper onto the machine tightly PC17. Carry out Counter tightening operation by pressing the star button on

National Occupational Standards

LSS/N2701

Carry out lasting operations using machine

	the machine PC18. Ensure no creases are formed on the inside of the upper while performing counter tightening PC19. Remove the upper from the counter tightening machine
Toe Moulding Operation	PC20. Place the toe cap inside of the upper in between vamp and vamp lining PC21. Fix the vamp of the upper into the toe moulding machine PC22. Carryout the toe moulding operation by pressing the start button on the toe moulding machine PC23. Remove the upper from the toe moulding machine
Forepart Lasting Operation	PC24. Select appropriate last according to the size of the upper PC25. Fix the upper on to the last PC26. Adjust the back height of the upper based on the mark on the last by pulling with pincher PC27. Fix the last in the machine for toe lasting operation PC28. Carryout toe lasting operation by pressing the start buttons of the machine with both hand and at the same time pressing the bottom start button of the machine with knee PC29. Remove the lasted upper from the machine
Seat Lasting Operation	PC30. Fix the toe lasted upper in the machine for seat lasting operation PC31. Carryout seat lasting operation by using the machine PC32. Remove the finished part from the machine
Side Lasting Operation	PC33. Apply the adhesive on the insole and the inside of the upper PC34. Pull the sides of the upper and adjust it appropriately with pincher PC35. Hammer the sides of the upper to perform side lasting
Roughing Operation	PC36. Ensure the condition of the grinding wheel or emery paper as per specification PC37. Operate the machine to roughen the finished part of the bottom portion of the lasted upper PC38. Ensure only a thin layer of the finished portion is roughed PC39. Ensure the edges of the lasted upper are roughed carefully
Sole Pressing Operation	PC40. Place the sole on the lasted upper to attach it temporarily PC41. Ensure the sole and the lasted upper is attached appropriately along the edges PC42. Place the temporary attached lasted upper and the sole into the pressing machine PC43. Operate the machine to attach the sole and the upper by pressing the start button on the machine PC44. Remove the sole attached lasted upper
Delasting Operation	PC45. Fix the shoe onto the delasting machine PC46. Carry out delasting operation by operating the delasting machine and Applying pressure on the toe portion of the shoe with hand simultaneously PC47. Remove the shoe from the last
Reporting & Documentation	PC48. Report risks/ problems likely to affect services to the relevant person promptly and accurately

National Occupational Standards

LSS/N2701

Carry out lasting operations using machine

	PC49. Report defects in the tools and equipment that one do not have the authority to repair
Sorting & Placing	PC50. Carry out closedown procedures on completion of work PC51. Sort and place work to assist the next stage of production and minimize the risk of damage
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. Details of the various job roles and responsibilities KA2. Responsibilities and line of reporting within the work area KA3. Protocol to obtain more information on work related tasks KA4. Organizational policies and procedures KA5. Work target and review mechanism with supervisor KA6. Protocol and format for reporting work related risks/ problems KA7. Contact person in case of queries on procedure or products KA8. Common hazards in the work area and procedures for dealing with them KA9. Procedures for handling the tools and equipment KA10. Procedures with regard to material re-usage and disposal KA11. Quality standards and the reporting procedures KA12. Documentation required as part of the process
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Procedures of operation of the machines used in lasting process KB2. Procedures and concept of the operations followed in the lasting Process KB3. Knowledge of the parameter setting in the lasting machines(Temp, Timing Pressure) KB4. Procedure of appropriately placing the toe caps inside the upper KB5. The ways by which material can be contaminated or damaged during processing and the effects on quality KB6. Appropriate Knowledge of Lasts & Shape of the shoes KB7. Knowledge of adhesive and application of adhesive KB8. Knowledge of pulling and attaching the sides of the shoes KB9. Knowledge of using basic tools and equipments such as hammer, pincher, etc KB10. Knowledge of the feather edge of the shoes KB11. Appropriate Knowledge of bottom Shape of the shoes KB12. Knowledge of grain layer of the leather KB13. Appropriate knowledge of the shoes KB14. Knowledge of the functioning of hinged type last
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills The user/ individual on the job needs to know and understand how to: SA1. Write in English/local language as applicable SA2. Fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company

National Occupational Standards

LSS/N2701

Carry out lasting operations using machine

	Reading Skills
	The user/ individual on the job needs to know and understand how to: SA3. Read and comprehend basic English/local language as applicable SA4. Read and understand manuals, health and safety instructions, memos, reports, job cards etc
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to: SA5. Listen actively SA6. Communicate effectively with supervisors, managers, etc
B. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to: SB1. Analyse the defects and the procedure for dealing with it SB2. Take appropriate actions in terms of any deviations from the process
	Plan and Organize
	The user/ individual on the job needs to know and understand how to: SB3. Plan and set the targets along with the supervisors and the co workers SB4. Organize tools and equipments to be used SB5. Plan work according to the required schedule and location
	Customer Centricity
	The user/ individual on the job needs to know and understand how to: SB6. Ensure lasting operation is as per customer standards SB7. Evaluate and ensure delivery of products as per customers' specifications
	Problem Solving
	The user/ individual on the job needs to know and understand how to: SB8. Identify possible defects with the products SB9. Review the defects and take appropriate actions to rectify SB10. Report to the authority if problems cannot be rectified
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to: SB11. Diagnose common problems in the machine based on visual inspection
	Critical Thinking
	The user/ individual on the job needs to know and understand how to: SB12. Assess and control the quality standards of the product as per customer standards

LSS/N2702 Contribute to achieving product quality in lasting operation

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of the production while undertaking lasting related activities to ensure products meet specifications.

LSS/N2702 Contribute to achieving product quality in lasting operation

Unit Code	LSS/N2702
Unit Title (Task)	Contribute to achieving product quality in lasting operation
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of the production while undertaking lasting related activities to ensure products meet specifications.
Scope	This unit/task covers the following: • Inspection • Reporting and Documentation
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Inspection	To be competent, the user/individual on the job must be able to: PC1. Set up and test machines to ensure correct operation PC2. Operate the machine in accordance with machine and workplace standards PC3. Ensure the last and upper is placed appropriately in the machines PC4. Ensure creases do not appear on the inside of the back portion of the upper while counter tightening PC5. Ensure the shape of the shoe is retained during toe moulding operation PC6. Ensure pleats do not appear in the seat portion of the lasted upper after seat lasting process PC7. Selection of appropriate lasts as per the sizes PC8. Ensuring the quality of the lasting as per the specifications and the standards PC9. Roughing as per the specifications and ensure the upper of shoe is free from roughing damages PC10. Check the performance of the machine for signs of faulty operations and take action in accordance with workplace procedures PC11. Ensure materials and component parts meet specifications PC12. Maintain the required productivity and quality levels PC13. Carry out quality checks at agreed intervals and in the approved way
Reporting & Documentation	PC14. Identify faults in materials and products PC15. Identify causes of faults and take action to rectify the same to maintain product quality PC16. Report and replace faulty materials and component parts which do not meet specification PC17. Report faults outside personal responsibility to the appropriate person PC18. Follow reporting procedures where the cause of faults cannot be identified PC19. Follow reporting procedures where the cause of faults cannot be identified PC20. Identify process problems that effect product quality and report them promptly to appropriate people PC21. Identify faults in finished products and trace their causes

LSS/N2702 Contribute to achieving product quality in lasting operation

Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. Types of problems with quality and how to report them to appropriate people KA2. Consequences of not rectifying problems KA3. Safe working practices and organizational procedures KA4. Limits of personal responsibility KA5. The lines of communication, authority and reporting procedures KA6. The organization's rules and guidelines (including timekeeping) KA7. The companies quality standards KA8. Equipment operating procedures / manufacturer's instructions
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. The different types of faults likely to be found in the lasting process and method to put them right KB2. The different techniques and methods used to detect faults in the lasting process KB3. The inspection methods that can be used KB4. Importance of product checks KB5. The acceptable solutions for particular faults KB6. The consequences of not rectifying problems KB7. The types of adjustments suitable for specific types of faults KB8. Responsibilities at work during production KB9. Company's quality and production targets and the effect of not meeting these on self and/or the team KB10. Allowed tolerances KB11. Difference between correctable and non-correctable faults KB12. Manufacturer's instructions
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to: SA1. Write in English/local language as applicable SA2. Fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company
	Reading Skills
	The user/ individual on the job needs to know and understand how to: SA3. Read and comprehend basic English/local language as applicable SA4. Read and understand manuals, health and safety instructions, memos, reports, job cards etc

LSS/N8501

Maintain the work area, tools and machines

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to organise/ maintain work areas and activities to ensure tools and machines are maintained as per norms.

LSS/N8501

Maintain the work area, tools and machines

Unit Code	LSS/N8501
Unit Title (Task)	Maintain the work area, tools and machines
Description	This standard is for those who organize and maintain their work areas and activities to make sure that agreed production targets and instructions are met.
Scope	This unit/task covers the following: Maintenance of work area, tools and machines
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Maintenance of work area, tools and machines	To be competent, the user/individual on the job must be able to: PC1. Handle materials, machinery, equipment and tools safely and correctly PC2. Use correct lifting and handling procedures PC3. Use materials to minimize waste PC4. Prepare and organize work PC5. Maintain a clean and hazard free working area PC6. Deal with work interruptions PC7. Move around the workplace with care PC8. Maintain tools and equipment PC9. Carry out running maintenance within agreed schedules PC10. Carry out maintenance and/or cleaning outside responsibility PC11. Report unsafe equipment and other dangerous occurrences PC12. Ensure that the correct machine guards are in place PC13. Work in a comfortable position with the correct posture PC14. Use cleaning equipment and methods appropriate for the work to be carried out PC15. Dispose of waste safely in the designated location PC16. Store cleaning equipment safely after use PC17. Complete and store accurate records and documentation PC18. Maintain proper lighting, ventilation to make sure general comfort is there while working PC19. Give inputs and assist in completing documentation PC20. Report the need for maintenance and/or cleaning outside your area of responsibility PC21. Ensure safe and correct handling of materials, equipment and tools PC22. Maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. Personal hygiene and duty of care KA2. Safe working practices and organizational procedures KA3. Limits of one's own responsibility KA4. Ways of resolving with problems within the work area KA5. The production process and the specific work activities that relate to the whole process KA6. The lines of communication, authority and reporting procedures

LSS/N8501

Maintain the work area, tools and machines

	KA7. The organization's rules, codes and guidelines (including timekeeping) KA8. The companies quality standards KA9. The types of records kept, how are they completed and the importance of keeping them accurate KA10. The importance of complying with written instructions KA11. Equipment operating procedures / manufacturer's instructions KA12. Statutory responsibilities under Health, Safety and Environmental legislation and regulations KA13. The quality standards and processes followed by the organization relevant to your role KA14. Documentation required for reporting
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Work instructions and specifications and interpret them accurately KB2. Method to make use of the information detailed in specifications and instructions KB3. Relation between work role and the overall manufacturing process KB4. The importance of good time keeping and attendance KB5. The importance of minimized production costs KB6. The importance of taking action when problems are identified KB7. Different ways of minimizing waste KB8. The importance of running maintenance and regular cleaning KB9. Effects of contamination on products i.e. Machine oil, dirt KB10. Common faults with equipment and the method to rectify KB11. Maintenance procedures and manufacturer's instructions KB12. Hazards likely to be encountered when conducting routine maintenance KB13. Different types of cleaning equipment and substances and their use KB14. Safe working practices for cleaning and the method of carrying them out KB15. The production process and the specific work activities that relate to the whole process
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to: SA1. Write and document appropriate technical forms, job cards, inspection sheets as required format of the company
	Reading Skills
	The user/ individual on the job needs to know and understand how to: SA2. Read and comprehend basic English to read and interpret indicators in the machine and operating manuals, job cards, visual cards SA3. Read and understand manuals, health and safety instructions, memos, reports, job cards etc
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to: SA4. Speak and communicate effectively to peers and supervisors SA5. Give clear instructions to co-workers, subordinates others SA6. Use correct technical term while interacting with supervisor

LSS/N8501

Maintain the work area, tools and machines

B. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to:
	SB1. Take appropriate decisions regarding to responsibilities
	SB2. Assess for any damage/faulty component in the concerned machinery and take action accordingly
	SB3. Evaluate the decision and conduct basic trouble shooting
	Plan and Organize
	The user/ individual on the job needs to know and understand how to:
	SB4. Plan and manage work routine based on company procedure
	SB5. Work with supervisors/ team mates to carry out work related tasks
	SB6. Plan for cleaning and lubricating the concerned machinery daily
	SB7. Plan for cleaning the concerned tools and workplace daily before and after operations
	Customer Centricity
	The user/ individual on the job needs to know and understand how to:
	SB8. Ensure and follow organizational procedures pertaining to health and safety are followed
	Problem Solving
	The user/ individual on the job needs to know and understand how to:
	SB9. Solve operational role related issues
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB10. Diagnose common problems in the machine based on visual inspection, sound, temperature etc
	Critical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB11. Analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N8601

Maintain health, safety and security at workplace

National Occupational Standard

Unit Code	LSS/N8601
Unit Title (Task)	Maintain health, safety and security at workplace
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimize risk to self and others.
Scope	This unit/task covers the following: Compliance with health, safety and security requirements at work
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Compliance with health, safety and security requirements at work	To be competent, the user/individual on the job must be able to: PC1. Comply with health and safety related instructions applicable to the workplace PC2. Use and maintain personal protective equipment as per protocol PC3. Carry out own activities in line with approved guidelines and procedures PC4. Maintain a healthy lifestyle and guard against dependency on intoxicants PC5. Follow environment management system related procedures PC6. Identify and correct (if possible) malfunctions in machinery and equipment PC7. Report any service malfunctions that cannot be rectified PC8. Store materials and equipment in line with manufacturer's and organizational requirements PC9. Safely handle and move waste and debris PC10. Minimize health and safety risks to self and others due to own actions PC11. Seek clarifications, from supervisors or other authorized personnel in case of perceived risks PC12. Monitor the workplace and work processes for potential risks and threats PC13. Carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned PC14. Report hazards and potential risks/ threats to supervisors or other authorized personnel PC15. Participate in mock drills/ evacuation procedures organized at the workplace PC16. Undertake first aid, fire-fighting and emergency response training, if asked to do so PC17. Take action based on instructions in the event of fire, emergencies or accidents PC18. Follow organization procedures for shutdown and evacuation when required
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the	The user/individual on the job needs to know and understand: KA1. Health and safety related practices applicable at the workplace KA2. Potential hazards, risks and threats based on nature of operations

LSS/N8701 Comply with industry, regulatory and organizational requirements

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for complying with industry, regulatory and organizational requirements at the workplace.

LSS/N8701 Comply with industry, regulatory and organizational requirements

National Occupational Standard

Unit Code	LSS/N8701
Unit Title (Task)	Comply with industry, regulatory and organizational requirements
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for complying with industry, regulatory and organizational requirements at the workplace.
Scope	This unit/task covers the following: Compliance with industry, regulatory and organizational requirements
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Compliance with industry, regulatory and organizational requirements	To be competent, the user/individual on the job must be able to: PC1. Carry out work functions in accordance with legislation and regulations, organizational guidelines and procedures PC2. Seek and obtain clarifications on policies and procedures, from the supervisor or other authorized personnel PC3. Apply and follow these policies and procedures within the work practices PC4. Provide support to the supervisor and team members in enforcing these considerations PC5. Identify and report any possible deviation to these requirements
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. The importance of having an ethical and value-based approach to governance KA2. Benefits to the company and oneself due to practice of these procedures KA3. Specific to the industry/sector, know and understand: - Legal, regulatory and ethical requirements - Procedures to follow if someone does not meet the requirements KA4. Customer specific requirements mandated as a part of the work process
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Country / customer specific regulations for the sector and their importance KB2. Reporting procedure in case of deviations KB3. Limits of personal responsibility
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to: SA1. Write and document appropriate technical forms, job cards, inspection sheets as required format of the company
	Reading Skills
	The user/ individual on the job needs to know and understand how to: SA2. Read and comprehend the organizational documents pertaining to rules and procedures SA3. Read and comprehend basic English to read and interpret indicators in the machine and operating manuals, job cards, visual cards, etc

LSS/N8701 Comply with industry, regulatory and organizational requirements

	SA4. Read in the local language as applicable
	SA5. Read and understand manuals, health and safety instructions, memos, reports, job cards etc
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to:
	SA6. Positively influence the team members into following procedures
B. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to:
	SB1. Take appropriate decisions related to responsibilities
	Plan and Organize
	The user/ individual on the job needs to know and understand how to:
	SB2. Plan and manage work routine based on company procedure
	Customer Centricity
	The user/ individual on the job needs to know and understand how to:
	SB3. Ensure and follow organizational procedures and policies
	Problem Solving
	The user/ individual on the job needs to know and understand how to:
	SB4. Evaluate and seek and obtain clarification from the superiors
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB5. Apply balanced judgement to different situations
	Critical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB6. Analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N8701 Comply with industry, regulatory and organizational requirements

CRITERIA FOR ASSESSMENT OF TRAINEES

Job Role Lasting Operator(Footwear)

Qualification Pack Code LSS/Q2701

Sector Skill Council Leather

Guidelines for Assessment:

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below)
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on these criteria
5. To pass the Qualification Pack, every trainee should score a minimum of 50% aggregate
6. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

NOS	Performance CRITERIA	Marks Allocation			
		Total Mark	Out Of	Theory	Skills Practical
1. LSS/N2701- Carry out lasting operations using machine	PC1. Make sure the work area is free from hazards	100	1	0	1
	PC2. Obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of job role		2	0	2
	PC3. Ask questions to obtain more information on tasks when the instructions have are unclear		1	0	1
	PC4. Select and sort the tools and materials for the work		1	0	1
	PC5. Setup the equipment and machineries for lasting as per the job requirement		1	0	1
	PC6. Make sure that tools are safe and clean to use on the material		1	0	1
	PC7. Agree and review agreed upon work targets with supervisor		1	0	1
	PC8. Seek feedback from supervisor on work related performance		1	0	1

PC9. Update and develop knowledge of the products	1	0	1
PC10. Minimize wastage	1	0	1
PC11. Produce the required batch of components to match the job card and the company's production targets	2	0	2
PC12. Dispose of waste materials safely and return re-useable materials	1	0	1
PC13. Work in conformance to legal requirements, organizational policies and procedures	1	0	1
PC14. Carry out visual inspection to ensure the products are free from handling defects	1	0	1
PC15. Hammer the back portion of the upper and place the counter inside the back portion of the upper	2	0	2
PC16. Clamp the Upper onto the machine tightly	1	0	1
PC17. Carry out Counter tightening operation by pressing the star button on the machine	1	0	1
PC18. Ensure no creases are formed on the inside of the upper while performing counter tightening	2	0	2
PC19. Remove the upper from the counter tightening machine	7	5	2
PC20. Place the toe cap inside of the upper in between vamp and vamp lining	2	0	2
PC21. Fix the vamp of the upper into the toe moulding machine	1	0	1
PC22. Carryout the toe moulding operation by pressing the start button on the toe moulding machine	2	0	2
PC23. Remove the upper from the toe moulding machine	1	0	1
PC24. Select appropriate last according to the size of the upper	2	0	2
PC25. Fix the upper on to the last	2	0	2
PC26. Adjust the back height of the upper based on the mark on the last by pulling with pincher	1	0	1
PC27. Fix the last in the machine for toe lasting operation	1	0	1
PC28. Carryout toe lasting operation by pressing the start buttons of the machine with both hand and at the same time pressing the bottom start button of the machine with knee	12	10	2
PC29. Remove the lasted upper from the machine	1	0	1
PC30. Fix the toe lasted upper in the machine for seat lasting operation	1	0	1
PC31. Carryout seat lasting operation by using the machine	2	0	2

	PC32. Remove the finished part from the machine		2	0	2
	PC33. Apply the adhesive on the insole and the inside of the upper		1	0	1
	PC34. Pull the sides of the upper and adjust it appropriately with pincher		2	0	2
	PC35. Hammer the sides of the upper to perform side lasting		1	0	1
	PC36. Ensure the condition of the grinding wheel or emery paper as per specification		1	0	1
	PC37. Operate the machine to roughen the finished part of the bottom portion of the lasted upper		1	0	1
	PC38. Ensure only a thin layer of the finished portion is roughed		1	0	1
	PC39. Ensure the edges of the lasted upper are roughed carefully		2	0	2
	PC40. Place the sole on the lasted upper to attach it temporarily		7	5	2
	PC41. Ensure the sole and the lasted upper is attached appropriately along the edges		2	0	2
	PC42. Place the temporary attached lasted upper and the sole into the pressing machine		1	0	1
	PC43. Operate the machine to attach the sole and the upper by pressing the start button on the machine		2	0	2
	PC44. Remove the sole attached lasted upper		7	5	2
	PC45. Fix the shoe onto the delasting machine		1	0	1
	PC46. Carry out delasting operation by operating the delasting machine and Applying pressure on the toe portion of the shoe with hand simultaneously		2	0	2
	PC47. Remove the shoe from the last		1	0	1
	PC48. Report risks/ problems likely to affect services to the relevant person promptly and accurately		1	0	1
	PC49. Report defects in the tools and equipment that one do not have the authority to repair		6	5	1
	PC50. Carry out closedown procedures on completion of work		1	0	1
	PC51. Sort and place work to assist the next stage of production and minimize the risk of damage		1	0	1
			100	30	70
2. LSS/N2702- Contribute to achieving product quality in lasting operation	PC1. Set up and test machines to ensure correct operation	50	1	0	1

	PC2. Operate the machine in accordance with machine and workplace standards		1	0	1
	PC3. Ensure the last and upper is placed appropriately in the machines		5.5	5	0.5
	PC4. Ensure creases do not appear on the inside of the back portion of the upper while counter tightening		0.5	0	0.5
	PC5. Ensure the shape of the shoe is retained during toe moulding operation		0.5	0	0.5
	PC6. Ensure pleats do not appear in the seat portion of the lasted upper after seat lasting process		1	0	1
	PC7. Selection of appropriate lasts as per the sizes		0.5	0	0.5
	PC8. Ensuring the quality of the lasting as per the specifications and the standards		6	5	1
	PC9. Roughing as per the specifications and ensure the upper of shoe is free from roughing damages		0.5	0	0.5
	PC10. Check the performance of the machine for signs of faulty operations and take action in accordance with workplace procedures		11	10	1
	PC11. Ensure materials and component parts meet specifications		0.5	0	0.5
	PC12. Maintain the required productivity and quality levels		1	0	1
	PC13. Carry out quality checks at agreed intervals and in the approved w		1	0	1
	PC14. Identify faults in materials and products		0.5	0	0.5
	PC15. Identify causes of faults and take action to rectify the same to maintain product quality		6	5	1
	PC16. Report and replace faulty materials and component parts which do not meet specification		0.5	0	0.5
	PC17. Report faults outside personal responsibility to the appropriate person		1	0	1
	PC18. Follow reporting procedures where the cause of faults cannot be identified		0.5	0	0.5
	PC19. Follow reporting procedures where the cause of faults cannot be identified		0.5	0	0.5
	PC20. Identify process problems that effect product quality and report them promptly to appropriate people		5.5	5	0.5
	PC21. Identify faults in finished products and trace their causes		5.5	5	0.5
		Total	50	35	15
3. LSS/N8501- Maintain the work area, tools and	PC1. Handle materials, machinery, equipment and tools safely and correctly	50	2	0	2

machines				
	PC2. Use correct lifting and handling procedures	2	0	2
	PC3. Use materials to minimize waste	3	0	3
	PC4. Prepare and organize work	2	0	2
	PC5. Maintain a clean and hazard free working area	3	0	3
	PC6. Deal with work interruptions	2	0	2
	PC7. Move around the workplace with care	3	0	3
	PC8. Maintain tools and equipment	3	0	3
	PC9. Carry out running maintenance within agreed schedules	4	2	2
	PC10. Carry out maintenance and/or cleaning outside responsibility	2	1	1
	PC11. Report unsafe equipment and other dangerous occurrences	3	2	1
	PC12. Ensure that the correct machine guards are in place	1	0	1
	PC13. Work in a comfortable position with the correct posture	2	1	1
	PC14. Use cleaning equipment and methods appropriate for the work to be carried out	3	2	1
	PC15. Dispose of waste safely in the designated location	3	2	1
	PC16. Store cleaning equipment safely after use	2	1	1
	PC17. Complete and store accurate records and documentation	2	1	1
	PC18. Maintain proper lighting, ventilation to make sure general comfort is there while working	2	1	1
	PC19. Give inputs and assist in completing documentation	1	0	1
	PC20. Report the need for maintenance and/or cleaning outside your area of responsibility	1	0	1
	PC21. Ensure safe and correct handling of materials, equipment and tools	2	1	1
	PC22. Maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration	2	1	1
	Total	50	15	35
4. LSS/N8601 - Maintain health, safety and security at workplace	PC1. Comply with health and safety related instructions applicable to the workplace	1	0	1
	PC2. Use and maintain personal protective	1	0	1
	25			

	equipment as per protocol			
	PC3. Carry out own activities in line with approved guidelines and procedures	1	0	1
	PC4. Maintain a healthy lifestyle and guard against dependency on intoxicants	1	0	1
	PC5. Follow environment management system related procedures	6	5	1
	PC6. Identify and correct (if possible) malfunctions in machinery and equipment	0.5	0	0.5
	PC7. Report any service malfunctions that cannot be rectified	1	0	1
	PC8. Store materials and equipment in line with manufacturer's and organizational requirements	1	0	1
	PC9. Safely handle and move waste and debris	0.5	0	0.5
