

QUALIFICATION PACK – OCCUPATIONAL STANDARD FOR LEATHER SECTOR

What are Occupational Standards(OS)?

- OS describe what individuals need to do, know and understand in order to carry out a particular job role or function
- OS are performance standards that individuals must achieve when carrying out functions in the workplace, together with specifications of the underpinning knowledge and understanding

Introduction

Qualification Pack - Skiving Operator

SECTOR: LEATHER

SUB SECTOR: Footwear

OCCUPATION: Skiving

REFERENCE ID: LSS/Q2401

ALIGNED TO: NCO-2004/8266.26

The Skiving Operation is a critical operation in footwear manufacturing. Skiving is done along the edges of the material, so that it can be folded and pasted with easy and accuracy. This operation greatly influences the appearance of the shoes. A highly skilled operator is required to do skiving as the skill required to skive is high and at the same time the opportunity to injure one while skiving is also high.

Brief Job Description: The Skiving operator must be capable to operate both upper and lower skiving machines and also skillful to perform skiving with accuracy according to the specifications. Skiving operator must also be capable to perform the maintenance of the grinder and the skiving disk knife.

Personal Attributes: The Skiving Operator must possess, concentration, good eye-hand co-ordination, monitoring ability, vision (including near vision, distance vision, color vision, peripheral vision), depth perception, quick response time or reflex, physical fitness, target oriented as well basic estimation and numerical skills.

Qualifications Pack Code	LSS/Q2401		
Job Role	Skiving Operator		
Credits(NSQF)	TBD	Version number	1.0
Sector	Leather	Drafted on	25/07/13
Sub-sector	Footwear	Last reviewed on	31/03/15
Occupation	Skiving	Next review date	31/03/17
NSQC Clearance	18/06/2015		

Job Role	Skiving Operator
Role Description	The Skiving operator must be capable to operate both upper and lower skiving machines and also skillful to perform skiving with accuracy according to the specifications. Skiving operator must also be capable to perform the maintenance of the grinder and the skiving disk knife.
NSQF level	4
Minimum Educational Qualifications*	Class V
Maximum Educational Qualifications*	N/A
Training (Suggested but not mandatory)	On-the-Job-Training
Minimum Job Entry Age	18 years
Experience	Prior experience as helper in footwear manufacturing for a minimum of 2-3 years preferred
Applicable National Occupational Standards (NOS)	Compulsory 1. LSS/N2401 Carry out footwear skiving operation using machine 2. LSS/N2402 Contribute to achieving product quality in footwear skiving operation 3. LSS/N8501 Maintain the work area, tools and machines 4. LSS/N8601 Maintain health, safety and security at workplace 5. LSS/N8701 Comply with industry, regulatory and organizational requirements Optional: N.A.
Performance Criteria	As described in the relevant OS units

Definition

Keywords /Terms	Description
Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Vertical	Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.
Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry.
Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.
Sub-functions	Sub-functions are sub-activities essential to fulfil achieving the objectives of the function.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding; he/she needs to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria	Performance Criteria are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are Occupational Standards which apply uniquely in the Indian context.
Qualifications Pack Code	Qualifications Pack Code is a unique reference code that identifies a qualifications pack.
Qualifications Pack(QP)	Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.
Unit Code	Unit Code is a unique identifier for an Occupational Standard, which is denoted by an 'N'.
Unit Title	Unit Title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to find the required one.
Scope	Scope is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of required performance.
Knowledge and Understanding	Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform up to the required standard.

Acronyms

Keywords /Terms	Description
OS	Occupational Standard(s)
NOS	National Occupational Standard(s)
QP	Qualifications Pack
NSQF	National Skill Qualifications Framework
TBD	To Be Determined

LSS/N2401

Carry out footwear skiving operation using machine

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for footwear skiving operations by using appropriate machineries, tools, equipment and processes.

LSS/N2401

Carry out footwear skiving operation using machine

National Occupational Standard

Unit Code	LSS/N2401
Unit Title (Task)	Carry out footwear skiving operation using machine
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for footwear skiving operations by using appropriate machineries, tools, equipment and processes.
Scope	This unit/task covers the following: • Preparatory Work • Skiving Operation • Reporting & Documentation • Sorting & Placing
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Preparatory work	To be competent, the user/individual on the job must be able to: PC1. Make sure the work area is free from hazards PC2. Obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of your job role PC3. Ask questions to obtain more information on tasks when the instructions you have are unclear PC4. Select and sort the tools and materials for the work PC5. Set up the equipment and machineries for lasting as per the job requirement PC6. Make sure that tools are safe and clean to use on the material PC7. Agree and review your agreed upon work targets with your supervisor PC8. Seek feedback from supervisor on work related performance PC9. Minimize wastage PC10. Produce the required batch of components to match the job card and the company's production targets PC11. Dispose of waste materials safely and return re-useable materials PC12. Work in conformance to legal requirements, organizational policies and procedures PC13. Ask questions to obtain more information on tasks when the instructions you have are unclear PC14. Carry out visual inspection to ensure the products are free from handling defects
Skiving operations	PC15. Ensure if the grinder is clean. If not, clean the grinder with grinder cleaner PC16. Ensure if the skiving disk blade is sharp. If not, sharpen the disk blade using the grinder PC17. Adjust the width and thickness as per the specifications to perform skiving of the material PC18. Carryout skiving operation as per the specification PC19. Carry out visual inspection to ensure the accuracy of the skiving machine
Reporting &	PC20. Report risks/ problems likely to affect services to the relevant person

LSS/N2401

Carry out footwear skiving operation using machine

Documentation	promptly and accurately PC21. Complete forms, records and other documentation PC22. Follow company reporting procedures about defective tools and machines which affect work and report risks/ problems likely to affect services to the relevant person promptly and accurately PC23. Report defective machines, tools and/or equipment to the responsible person
Sorting & Placing	PC24. Sort and place work to the next stage of production and minimise the risk of damage PC25. Pass the skived uppers to the next stage in the manufacturing process after validation
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. Responsibilities and line of reporting within the work area KA2. Protocol to obtain more information on work related tasks KA3. Organizational policies and procedures KA4. Work target and review mechanism with your supervisor KA5. Process for offering/ obtaining work related assistance KA6. Protocol and format for reporting work related risks/ problems KA7. Contact person in case of queries on procedure or products KA8. Common hazards in the work area and procedures for dealing with them KA9. Procedures for handling the tools and equipment KA10. Procedures with regard to material re-usage and disposal KA11. Quality standards and the reporting procedures KA12. Documentation required as part of the process
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Procedures to operate the upper skiving and bottom skiving machines KB2. Procedures and concept of the operations followed in the skiving process KB3. Knowledge of the parameter setting in the skiving machines(thickness, width) KB4. The ways by which material can be contaminated or damaged during processing and the effects on quality KB5. Knowledge of the skiving disk blade and procedure to sharpen it KB6. Knowledge of the grinder and its maintenance KB7. Safely performing skiving without getting injured in the process KB8. Knowledge of the leather KB9. Basic units of measurements knowledge
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills The user/ individual on the job needs to know and understand how to: SA1. Write in English/ local language as applicable SA2. Fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company

LSS/N2401

Carry out footwear skiving operation using machine

	Reading Skills
	The user/ individual on the job needs to know and understand how to: SA3. Read English/ local language as applicable SA4. Read and understand manuals, health and safety instructions, memos, reports, job cards etc.
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to: SA5. Listen actively SA6. Communicate effectively with supervisors, managers, etc
B. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to: SB1. Analyse the defects and the procedure for dealing with it SB2. Take appropriate actions in terms of any deviations from the process
	Plan and Organize
	The user/ individual on the job needs to know and understand how to: SB3. Plan and set the targets along with the supervisors and the co workers SB4. Organize tools and equipments to be used SB5. Plan work according to the required schedule and location
	Customer Centricity
	The user/ individual on the job needs to know and understand how to: SB6. Ensure skiving operation is as per customer standards SB7. Evaluate and ensure delivery of products as per customers' specifications
	Problem Solving
	The user/ individual on the job needs to know and understand how to: SB8. Identify possible defects with the products SB9. Review the defects and take appropriate actions to rectify SB10. Report to the authority if problems cannot be rectified
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to: SB11. Diagnose common problems in the machine based on visual inspection
	Critical Thinking
	The user/ individual on the job needs to know and understand how to: SB12. Assess and control the quality standards of the product as per customer standards

LSS/N2402 Contribute to achieving product quality in footwear skiving operation

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of the production while undertaking skiving related activities to ensure products meet specifications.

LSS/N2402 Contribute to achieving product quality in footwear skiving operation

Unit Code	LSS/N2402
Unit Title (Task)	Contribute to achieving product quality in footwear skiving operation
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of the production while undertaking skiving related activities to ensure products meet specifications.
Scope	This unit/task covers the following: Contribute to achieving the product quality
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Contribute to achieving the product quality	To be competent, the user/individual on the job must be able to: PC1. Set up and test skiving machines to ensure correct operation PC2. Operate the machine in accordance with machine and workplace standards PC3. Ensure the skiving is done accurately according to the specifications PC4. Ensure the optimum condition of the disk knife PC5. Ensure skiving is uniform even along the curvy edges PC6. Check the performance of the machine for signs of faulty operations and take action in accordance with workplace procedures PC7. Ensure materials and component parts meet specifications PC8. Report and replace faulty materials and component parts which donot meet specification PC9. Report faults outside personal responsibility to the appropriate person PC10. Identify faults in materials and products PC11. Identify causes of faults to maintain product quality PC12. Follow reporting procedures where the cause of faults cannot be identified PC13. Maintain the required productivity and quality levels PC14. Carry out quality checks at agreed intervals and in the approved way PC15. Identify process problems that effect product quality and report them promptly to appropriate people PC16. Identify faults in finished products and trace their causes
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. Types of problems with quality and how to report them to appropriate people KA2. Consequences of not rectifying problems KA3. Safe working practices and organizational procedures KA4. Limits of personal responsibility KA5. The lines of communication, authority and reporting procedures KA6. The organization's rules and guidelines (including timekeeping) KA7. The company's quality standards KA8. Equipment operating procedures / manufacturer's instructions
B. Technical	The user/individual on the job needs to know and understand:

LSS/N2402 Contribute to achieving product quality in footwear skiving operation

Knowledge	KB1. The different types of faults likely to be found in the skiving process and methods to put them right KB2. The different techniques and methods used to detect faults in the skiving process KB3. The inspection methods that can be used KB4. Importance of product checks KB5. The acceptable solutions for particular faults KB6. The consequences of not rectifying problems KB7. The types of adjustments suitable for specific types of faults KB8. Responsibilities at work during production KB9. Company's quality and production targets and the effect of not meeting these on self and/or the team KB10. Allowed tolerances KB11. Difference between correctable and non-correctable faults KB12. Manufacturer's instructions
Skills (S)

Maintain the work area, tools and machines

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to organise/ maintain work areas and activities to ensure tools and machines are maintained as per norms.

LSS/N8501

Maintain the work area, tools and machines

National Occupational Standard

Unit Code	LSS/N8501
Unit Title (Task)	Maintain the work area, tools and machines
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to organise/ maintain work areas and activities to ensure tools and machines are maintained as per norms.
Scope	This unit/task covers the following: Maintenance of the work area, tools and machines
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Maintenance of work area, tools and machines	To be competent, the user/individual on the job must be able to: PC1. Handle materials, machinery, equipment and tools safely and correctly PC2. Use correct lifting and handling procedures PC3. Use materials to minimize waste PC4. Prepare and organize work PC5. Maintain a clean and hazard free working area PC6. Deal with work interruptions PC7. Move around the workplace with care PC8. Maintain tools and equipment PC9. Carry out running maintenance within agreed schedules PC10. Carry out maintenance and/or cleaning outside responsibility PC11. Report unsafe equipment and other dangerous occurrences PC12. Ensure that the correct machine guards are in place PC13. Work in a comfortable position with the correct posture PC14. Use cleaning equipment and methods appropriate for the work to be carried out PC15. Dispose of waste safely in the designated location PC16. Store cleaning equipment safely after use PC17. Complete and store accurate records and documentation PC18. Maintain proper lighting, ventilation to make sure general comfort is there while working PC19. Give inputs and assist in completing documentation PC20. Report the need for maintenance and/or cleaning outside your area of responsibility PC21. Ensure safe and correct handling of materials, equipment and tools PC22. Maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration
Knowledge and Understanding (K)	
C. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: Personal hygiene and duty of care KA1. Safe working practices and organizational procedures KA2. Limits of one's own responsibility KA3. Ways of resolving with problems within the work area KA4. The production process and the specific work activities that relate to the

LSS/N8501

Maintain the work area, tools and machines

	whole process KA5. The lines of communication, authority and reporting procedures KA6. The organization's rules, codes and guidelines (including timekeeping) KA7. The companies quality standards KA8. The types of records kept, how are they completed and the importance of keeping them accurate KA9. The importance of complying with written instructions KA10. Equipment operating procedures / manufacturer's instructions KA11. Statutory responsibilities under Health, Safety and Environmental legislation and regulations KA12. The quality standards and processes followed by the organization relevant to your role KA13. Documentation required for reporting
D. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Work instructions and specifications and interpret them accurately KB2. Method to make use of the information detailed in specifications and instructions KB3. Relation between work role and the overall manufacturing process KB4. The importance of good time keeping and attendance KB5. The importance of minimized production costs KB6. The importance of taking action when problems are identified KB7. Different ways of minimizing waste KB8. The importance of running maintenance and regular cleaning KB9. Effects of contamination on products i.e. Machine oil, dirt KB10. Common faults with equipment and the method to rectify KB11. Maintenance procedures and manufacturer's instructions KB12. Hazards likely to be encountered when conducting routine maintenance KB13. Different types of cleaning equipment and substances and their use KB14. Safe working practices for cleaning and the method of carrying them out KB15. The production process and the specific work activities that relate to the whole process
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to: SA1. Write and document appropriate technical forms, job cards, inspection sheets as required format of the company
	Reading Skills
	The user/ individual on the job needs to know and understand how to: SA2. Read and comprehend basic English to read and interpret indicators in the machine and operating manuals, job cards, visual cards SA3. Read and understand manuals, health and safety instructions, memos, reports, job cards etc
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to: SA4. Speak and communicate effectively to peers and supervisors

LSS/N8501

Maintain the work area, tools and machines

	SA5. Give clear instructions to co-workers, subordinates others SA6. Use correct technical term while interacting with supervisor
B. Professional Skills	Decision Making The user/ individual on the job needs to know and understand how to: SB1. Take appropriate decisions regarding to responsibilities SB2. Assess for any damage/faulty component in the concerned machinery and take action accordingly SB3. Evaluate the decision and conduct basic trouble shooting
	Plan and Organize The user/ individual on the job needs to know and understand how to: SB4. Plan and manage work routine based on company procedure SB5. Work with supervisors/ team mates to carry out work related tasks SB6. Plan for cleaning and lubricating the concerned machinery daily SB7. Plan for cleaning the concerned tools and workplace daily before and after operations
	Customer Centricity The user/ individual on the job needs to know and understand how to: SB8. Ensure and follow organizational procedures pertaining to health and safety are followed
	Problem Solving The user/ individual on the job needs to know and understand how to: SB9. Solve operational role related issues
	Analytical Thinking The user/ individual on the job needs to know and understand how to: SB10. Diagnose common problems in the machine based on visual inspection, sound, temperature etc.
	Critical Thinking The user/ individual on the job needs to know and understand how to: SB11. Analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for complying with industry, regulatory and organizational requirements at the workplace.

LSS/N8701
Comply with industry, regulatory and organizational requirements

National Occupational Standard

Unit Code	LSS/N8701
Unit Title (Task)	Comply with industry, regulatory and organizational requirements
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for complying with industry, regulatory and organizational requirements at the workplace.
Scope	This unit/task covers the following: Compliance with industry, regulatory and organizational requirements
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Compliance with industry, regulatory and organizational requirements	To be competent, the user/individual on the job must be able to: PC1. Carry out work functions in accordance with legislation and regulations, organizational guidelines and procedures PC2. Seek and obtain clarifications on policies and procedures, from the supervisor or other authorized personnel PC3. Apply and follow these policies and procedures within the work practices PC4. Provide support to the supervisor and team members in enforcing these considerations PC5. Identify and report any possible deviation to these requirements
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. The importance of having an ethical and value-based approach to governance KA2. Benefits to the company and oneself due to practice of these procedures KA3. Specific to the industry/sector, know and understand: - Legal, regulatory and ethical requirements - Procedures to follow if someone does not meet the requirements KA4. Customer specific requirements mandated as a part of the work process
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Country / customer specific regulations for the sector and their importance KB2. Reporting procedure in case of deviations KB3. Limits of personal responsibility
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to: SA1. Write and document appropriate technical forms, job cards, inspection sheets as required format of the company
	Reading Skills
	The user/ individual on the job needs to know and understand how to: SA2. Read and comprehend the organizational documents pertaining to rules and procedures

LSS/N8701

Comply with industry, regulatory and organizational requirements

	SA3. Read and comprehend basic English to read and interpret indicators in the machine and operating manuals, job cards, visual cards, etc
	SA4. Read in the local language as applicable
	SA5. Read and understand manuals, health and safety instructions, memos, reports, job cards etc
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to:
	SA6. Positively influence the team members into following procedures
B. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to:
	SB1. Take appropriate decisions related to responsibilities
	Plan and Organize
	The user/ individual on the job needs to know and understand how to:
	SB2. Plan and manage work routine based on company procedure
	Customer Centricity
	The user/ individual on the job needs to know and understand how to:
	SB3. Ensure and follow organizational procedures and policies
	Problem Solving

CRITERIA FOR ASSESSMENT OF TRAINEES

Job Role Skiving Operator(Footwear)

Qualification Pack Code LSS/Q2401

Sector Skill Council Leather

Guidelines for Assessment:

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below)
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on these criteria
5. To pass the Qualification Pack, every trainee should score a minimum of 50% aggregate
6. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

NOS	PC	Marks Allocation			
		Total Mark	Out Of	Theory	Skills Practical
1. LSS/N2401Carry out skiving footwear operations using machine	PC1. Make sure the work area is free from hazards	100	5	0	5
