ACKNOWLEDGEMENT

The LSSC is grateful to all of those with whom it has had the pleasure to work during this project. Each of the members related to this project has provided extensive personal and professional guidance. LSSC sincerely expresses appreciation for the contribution of the Industry, Trade Experts and all others who contributed in building the curriculum.

Special acknowledgement by LSSC to the following expert members who have contributed immensely in this curriculum.

BACKGROUND

- **Apprenticeship Training Scheme under Apprentice Act 1961**

The Apprentices Act enacted in 1961 with the objective of regulating the program of training of apprentices in the industry by utilizing the facilities available therein for imparting on-the-job training. The Act makes it obligatory for employers in specified industries to engage apprentices in designated trades and in optional trades to impart Apprenticeship Training on the job in industry to school leavers, graduates/ diploma and person having National Trade Certificate (ITI pass-outs) issued by National Council for Vocational Training (NCVT) to develop skilled manpower for the industry. There are five categories of apprentices namely; trade apprentice, graduate, technician, technician (vocational) apprentices and optional trade apprentice.

Qualifications and period of apprenticeship training of trade apprentices and optional trade apprentices vary from trade to trade. The apprenticeship training for trade apprentices and optional trade apprentices consists of basic training followed by practical training. At the end of the training, the apprentices are required to appear in a trade test conducted by NCVT and those successful in the trade tests are awarded the National Apprenticeship Certificate.

- **Changes in Industrial Scenario**

Recently we have seen huge changes in the Indian industry. The Indian Industry registered an impressive growth during the last decade and half. The number of industries in India have increased manifold in the last fifteen years especially in services and manufacturing sectors. It has been realized that India would become a prosperous and a modern state by raising skill levels, including by engaging a larger proportion of apprentices, will be critical to success; as will stronger collaboration between industry and the trainees to ensure the supply of skilled workforce and drive development through employment. Various initiatives to build up an adequate infrastructure for rapid industrialization and improve the industrial scenario in India have been taken.

- **Reformation**

The Apprentices Act, 1961 has been amended and brought into effect from 22nd December 2014 to make it more responsive to industry and youth. Key amendments are as given below:

- Prescription of number of apprentices to be engaged at establishment level instead of trade-wise.
- Establishment can also engage apprentices in optional trades which are not designated, with the discretion of entry level qualification and syllabus.
- Scope has been extended also to non-engineering occupations.
- Establishments have been permitted to outsource basic training in an institute of their choice.
- The burden of compliance on industry has been reduced significantly.

RATIONALE

Need for Apprenticeship in trade for Stitching Operator (Footwear)

1. The greater degree of relevance of the training with latest advancements of the industry will enhance the employability opportunities.
2. Ability to assess leather and other components for stitching footwear that is suitable as per design.
3. Ability to know the procedure of stitching with accurate replica of the design.
4. Ability to operate various stitching machines (Post bed, Flat bed, Cylinder bed, computerized stitching machines, Zigzag machine etc.
5. Ability to check quality of stitched component to ensure that leather is stitched properly to all edges.
6. Ability to do proper usage of tools for quality stitching.
7. Ability to control leather and other wastage as much as possible.
8. Ability to choose correct needles and thread for stitching.
9. Ability to detect product defects to achieve correct design, weight, finish, and dimensions as per design.
10. Ability to deliver complete product on time by reporting problems faced or anticipated well in advance.

JOB ROLE: Description

A Stitching Operator (Footwear) is an important job-role associated with the Footwear sector. With the growing demand for skills, the importance of an operator with specialized knowledge and skills in stitching operations have increased.

The primary responsibility of a Stitching Operator (Footwear) is to perform stitching operations to the upper components of the footwear as per the design instructions given by the designing section. He/ She should be able to stitch the footwear with leather and non-leather components, using maximum accuracy. He/she should be passionate about creating intricate products without compromising on quality.

Stitching Operator (Footwear) should have good hand-eye coordination, motor skills and vision (including near vision, distance vision, colour vision, peripheral vision, depth perception and ability to change focus). He/ She should be inclined towards creativity and interested in mixing materials, textures and threads to create beautiful products.

GENERAL INFORMATION

1. Name of the Trade : STITCHING OPERATOR (FOOTWEAR)
2. Duration of Apprenticeship Training : 500Hrs+40Hrs=540 Hrs &
(Basic Training & Practical Training) 960 Hrs
3. Duration of Basic Training : Block-I: 500 Hrs + 40 Hrs Employability &
Entrepreneurship
Total duration of Basic Training : 540 Hrs (Additionally, 20 Hrs Digital
Literacy inputs given in online mode)
4. Duration of Practical Training : Block-II: 960 HRS, i.e. 36 weeks or 9
(On-job Training) months
5. Entry Qualification : Passed 5th class
6. Selection of Apprentices : The apprentices will be selected as per
Apprenticeship Act amended time to time
7. Rebate for ITI passed trainees : N.A.

Note: Industry may impart training as per above time schedule, however this is not fixed. The industry may adjust the duration of training considering the fact that all the components under the syllabus must be covered. However, the flexibility should be given keeping in view that no safety aspect is compromised and duration of industry training to be remain as 1 year

Trainer pre-requisites for job role: **Stitching Operator (Footwear)**

Sr. No.	Area	Details
1	Description	To deliver accredited training service, mapping to the curriculum detailed above, in accordance with the Qualification Pack “LSS/Q2501, Version 1.0”.
2	Personal Attributes	Aptitude for conducting training, and pre/ post work to ensure competent, employable candidates at the end of the training. Strong communication skills, interpersonal skills, ability to work as part of a team; a passion for quality and for developing others; well-organised and focused, eager to learn and keep oneself updated with the latest in the mentioned field.
3	Minimum Educational Qualifications	10 th with 18 months certificate course in Footwear (any) and above
4a	Domain Certification	Certified for Job Role: Stitching Operator (Footwear): Component mapped to QP: “LSS/Q2501, v1.0”. Minimum accepted score as per SSC guidelines is 80% on the SSC prescribed online theory assessment test based on an industry validated question bank.
4b	Platform Certification	Recommended that the Trainer is certified for the Job Role: “Trainer”, mapped to the Qualification Pack: “SSC/1402”. Minimum accepted score for the trainer is 80% as per SSC guidelines.
5	Experience	Minimum 6 years site experience with Stitching Operator (Footwear) Level-4 qualified.

Basic Training: Stitching Operator (Footwear) – LSS/Q2501

MODEL CURRICULUM

This program is aimed at training candidates for the job of a “Stitching Operator (Footwear)”, in the “Leather” Sector/ Industry and aims at building the following key competencies amongst the learner

Program Name	Stitching Operator (Footwear)		
Qualification Pack Name & Reference ID	Stitching Operator (Footwear) LSS/Q2501, V1.0		
Version No.	1.0	Version Update Date	15–06–2016
Pre-requisites to Training	Class V with 2-3 Years prior experience as helper in Footwear manufacturing.		
Training Outcomes	After completing this programme, participants will be able to: • Gain familiarity with the stitching trade: Gain knowledge on over view of leather Industry/ generic skills and avail familiarity with stitching trade. General introduction to trade, leather manufacturing process, and role of a stitcher in leather industry. • Become well versed with environment, health & safety: Well versed with health and safety measures in terms of personal safety and equipment safety relevant to stitching occupation. • Carry out stitching operation using different machines: Effectively identify, select the right sewing machine, needles, threads and bobbins for carrying out stitching operation. • Achieve product quality in stitching operation: Conduct a visual inspection on all aspects of the stitching process. • Maintain the work area, tools and machines: Organise/maintain work areas and activities to ensure tools and machines are maintained as per norms. • Carry out work functions in accordance with legislation and regulations, organizational guidelines and procedures: Follow policies and procedures within the work practices.		

Sr. No.	Module	Key Learning Outcomes	Equipment Required
1	Overview on Leather Industry and Generic Skills Theory Duration (hh:mm) 12:00 Practical Duration (hh:mm) 10:00 Corresponding NOS Code Core skills/ Generic skills and Professional skills collated from all the NOS of the QP	• Discuss the leather industry, stitching operation in footwear sector and generic skills • Explain importance of leather industry and describe leather manufacturing process • Explain general hazards or risk that can lead to accidents • Follow basic safety, health and hygiene measures • Wear and use PPE for safety • Carry out communication effectively with co-workers in writing as well as orally • Read the documents that are necessary for them to read to carry out operator's task	Chairs, Trainers desk and computer, Student table, Projector, White projector screen, White board, Flip chart display stand, Safety hazard signs, Newspaper, Stationery, PPE set

ASSESSMENT CRITERIA

Assessment Criteria	
Job Role	Stitching Operator (Footwear)
Qualification Pack	LSS/Q2501, V1.0
Sector Skill Council	Leather

Sr. No.	Guidelines for Assessment
1	Criteria for assessment for each qualification pack will be created by the sector skill council. Each performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC
2	The assessment for the theory part will be based on knowledge bank of questions created by the SSC
3	Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training centre (as per assessment criteria below)
4	Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training centre based on these criteria
5	To pass the Qualification Pack, every candidate should score a minimum 50% of aggregate marks to successfully clear the assessment
6	In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

EMPLOYABILITY AND ENTREPRENEURSHIP SKILLS

MODEL CURRICULUM

Program Name	Employability and Entrepreneurship Skills		
Qualification Pack Name & Reference ID	ALL		
Version No.	1.0	Version Update Date	
Pre-requisites to Training	NA		
Training Outcomes	After completing this programme, participants will be able to: • Identify personal strengths and value systems: safe work habits, achievement motivation, time management, anger management, stress management. • Recall important tenets of digital literacy: fundamentals of computer terminology, parts of a computer and a keyboard, main applications of MS Office. • Discuss the essentials of matters pertaining to money: saving money, bank accounts, types of costs, investment options, insurance products, taxes. • Prepare for employment and self-employment: preparing for an interview, effective resume writing, basic workplace terminology. • Illustrate the basics of entrepreneurship and identify new business opportunities: effective leadership, effective speaking, effective listening, problem solving, business opportunities, types of entrepreneurs, entrepreneurial process and ecosystem, resilient entrepreneurs		

Sr. No.	Module	Key Learning Outcomes	Equipment Required
1	Introduction Theory Duration (hh:mm) 00:30 Practical Duration (hh:mm) 00:00	• Recognize the importance of general discipline in the class room (dos and don'ts) • List expectations from the program • Outline the objectives of the program	Laptop, white board, marker, projector
2	Personal Strengths and Value Systems Theory Duration (hh:mm) 04:00 Practical Duration (hh:mm) 04:00	• Identify common health issues and tips to prevent them • Discuss critical safety habits to be followed by employees • Understand motivation with the help of Maslow's Hierarchy of Needs • List the characteristics of entrepreneurs with achievement motivation • Discuss how to maintain a positive attitude • Discuss the role of attitude in self- analysis • List your strengths and weaknesses	Workbook exercises on health standards, Laptop, activity on strengths and weaknesses, white board, marker, projector

Sr. No.	Module	Key Learning Outcomes	Equipment Required
		- Describe the importance of honesty in entrepreneurs - List the characteristics of highly creative and innovative people - Discuss the benefits of time management - List the traits of effective time managers - Apply effective time management techniques - Apply tips for anger management and stress management	
3	Digital Literacy: A Recap Theory Duration (hh:mm) 01:00 Practical Duration (hh:mm) 03:00	- Identify the basic parts of a computer and keyboard - Recall basic computer terminology - Identify the functions of basic computer keys - Discuss the main applications of MS Office - Discuss the benefits of Microsoft Outlook - Identify the different types of e-commerce - Explain the benefits of e-commerce for retailers and customers - Discuss how the Digital India campaign will help boost e-commerce in India - Describe how you will sell a product or service on an e-commerce platform - Elaborate on the need for digital transactions - Identify the modes of digital transactions - Explain the uses of digital transactions	Laptop, white board, marker, projector, CPU, Monitor, keyboard, mouse, MS Office software, E-Wallet soft wares such as PayTM, SBI buddy etc.
4	Money Matters Theory Duration (hh:mm) 06:00 Practical Duration (hh:mm) 02:00	- Recognize the importance and benefits of saving money - Discuss the main types of bank accounts - Illustrate the process of opening a bank account - Differentiate between fixed and variable costs - Describe the main types of investment options - Identify the different types of insurance products and types of taxes - Discuss the uses of online banking - Describe the main types of electronic funds transfers	Laptop, white board, marker, projector, Passport, Driving License, Voter ID card, PAN card, Aadhaar card, sample KYC document, bank opening form (can be downloaded from the Internet)
5	Preparing for Employment and Self-Employment Theory Duration (hh:mm) 02:00 Practical Duration (hh:mm) 04:00	- Follow the steps to prepare for an interview - Create an effective Resume - Identify the most frequently asked interview questions - Discuss how to answer the most frequently asked interview questions - Identify basic workplace terminology	Laptop, white board, marker, projector, sample CVs, Mock interviews, role plays, role play briefs, FAQs, quiz on basic workplace technologies
6	Entrepreneurship Theory Duration (hh:mm) 04:30	- Discuss the concept and significance of entrepreneurship and the characteristics of an entrepreneur - List the qualities of an effective leader and the benefits of effective leadership	Laptop, white board, marker, projector, SWOT activity: pen and paper individual

Sr. No.	Module	Key Learning Outcomes	Equipment Required
	Practical Duration (hh:mm) 09:00	- List the traits of an effective team - Apply techniques of effective listening - Apply techniques of effective speaking - Solve problems by identifying important problem-solving traits - Discuss how to identify new business opportunities within your business - Describe the different types of entrepreneurs - State the characteristics of entrepreneurs - Recall entrepreneur success stories - Follow the entrepreneurial process and explain the entrepreneurship ecosystem - Recognize the purpose of the Make in India campaign - Identify key schemes to promote entrepreneurs - Define the relationship between entrepreneurship and risk appetite and entrepreneurship and resilience - Discuss the characteristics of a resilient entrepreneur - Identify techniques of dealing effectively with failure	exercise, charts, colored pens, Group Activity: poster making on entrepreneurship ecosystem. Activity: SMART Goal writing
	Total Duration Theory Duration 18:00 Practical Duration 22:00	Unique Equipment Required: Laptop, white board, marker, projector.	

Grand Total Course Duration: **40 Hours, 0 Minutes**

(This syllabus/ curriculum has been approved by **National Skill Development Corporation**)

PRACTICAL TRAINING (ON-JOB TRAINING)
(BLOCK II)

DURATION: 960 Hours

GENERAL INFORMATION

1. **Name of the Trade** : Stitching Operator (Footwear)
2. **Duration of On-Job Training** : 960 hours
3. **Batch size** : 30 (recommended)
4. **Examination** : i) The internal assessment will be held on completion of the block
ii) Leather Sector Skills Council (LSSC) will conduct exam at the end of Apprenticeship training
5. **Instructor Qualification** :
6. **Infrastructure for On-Job Training** : As per Tools & Equipment required for On-Job Training

Trainer Prerequisites for Job role: “Stitching Operator (Footwear)”

Sr. No.	Area	Details
1	Description	To deliver accredited training service, mapping to the curriculum detailed above, in accordance with the Qualification Pack “LSS/Q2501, Version 1.0”.
2	Personal Attributes	Aptitude for conducting training, and pre/ post work to ensure competent, employable candidates at the end of the training. Strong communication skills, interpersonal skills, ability to work as part of a team; a passion for quality and for developing others; well-organised and focused, eager to learn and keep oneself updated with the latest in the mentioned field.
3	Minimum Educational Qualifications	10th with 18 months certificate course in Footwear (any) and above
4a	Domain Certification	Certified for Job Role: “ <u>Stitching Operator (Footwear)</u> ”, mapped to QP: “ <u>LSS/Q2501, Version 1.0</u> ”. The minimum accepted score should be as per the decision of the respective SSC guidelines.
4b	Platform Certification	Recommended that the Trainer is certified for the Job Role: “Trainer”, mapped to the Qualification Pack: “SSC/1402”. Minimum accepted score for the trainer is 80% as per SSC guidelines.
5	Experience	Minimum 6 years site experience with Stitching Operator (Footwear) Level-4 qualified

BROAD SKILL COMPONENT

BROAD SKILL COMPONENT TO BE COVERED DURING ON-JOB TRAINING

BLOCK – II

1. Develop reading and writing skills to understand the specifications for different operations and methods of Stitching operation (Footwear).
2. Learn to carry out the Pre operational checks and standard operating procedures to perform Stitching operations.
3. Understand different Stitching operational methods/machines-Flat bed, Post bed, Cylinder arm and Zigzag (Stitches without pasting).
4. Understand different types of threads and needle used in manufacturing of Footwear to achieve correct Quality and Productivity.
5. Spot difficulties with respect to practicality of different Stitching methods to achieve correct quality for each style as per the sample and specifications.
6. Develop the new skill of Stitching Leather and Non Leather material (computer aided machines)
7. Learn to understand the function of different parts in Stitching Machine.
8. Understand the basic units of measurements with respect to the Stitching operations.
9. Develop visual Inspection skill to ensure the accuracy of Stitching operations as per the specifications and sample.
10. Learn to understand the different types of Leather/ Non Leather materials and their properties with respect to Stretching/Shrinkage while doing Stitching operations.
11. Learn to use and maintain the different Stitching machine and their parts.
12. Learn to read the Job card and also to identify the different components for performing Stitching operations.
13. Able to deduct product/manufacturing defects and control manufacturing losses and ensure quality in each and every stage of stitching operations as per sample and specifications.
14. To understand and comply with Health, safety, security, legal, regulatory and ethical requirements at the work place.
15. To learn the reporting and documentation methods of stitching operations for the day.

Stitching Operation (Footwear) – LSS/Q2501

ASSESSMENT CRITERIA

Assessment Criteria	
Job Role	Stitching Operator (Footwear)
Qualification Pack	LSS/Q2501, V1.0
Sector Skill Council	Leather

Sr. No.	Guidelines for Assessment
1	Criteria for assessment for each qualification pack will be created by the sector skill council. Each performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC
2	The assessment for the theory part will be based on knowledge bank of questions created by the SSC
3	Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training centre (as per assessment criteria below)
4	Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training centre based on these criteria
5	To pass the Qualification Pack, every candidate should score a minimum 50% of aggregate marks to successfully clear the assessment
6	In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

FURTHER LEARNING PATHWAYS

After completion of the apprenticeship training the candidates have wide career choices available with them in the Leather industry. A candidate after completing apprenticeship can be skilled horizontally in various segments like; stitching footwear etc. and vertically, they can go to higher levels in plant hierarchy.

Employment opportunities:

Apart from above mentioned avenues, the apprentice can always aspire to be one of the following as stated below:

- 1) **Footwear manufacturing units in India:** The apprentice may be employed with the biggest player of the trades and be a part of their manufacturing set and deliver quality work.
- 2) **Footwear manufacturing set up/ Retail Unit:** The apprentice may be encouraged to set up their own manufacturing unit, which they may also channelize into owning a retail unit and be able to sell their merchandise directly to the consumers.
- 3) **Education and Training:** They may also take up the role of the instructor in this field where they can impart their manufacturing knowledge to the aspiring students.

INFRASTRUCTURE FOR ON-JOB TRAINING

TRADE: STITCHING OPERATOR (FOOTWEAR)

For a Batch of 30 APPRENTICES

Actual training will depend on the existing facilities available in the establishments. However, the industry should ensure that the broad skills defined against On-Job Training part (i.e. 9 months) are imparted. In case of any short fall the concern industry may impart the training in cluster mode/ any other industry/ at any set up.

GUIDELINES FOR INSTRUCTORS AND PAPER SETTERS

Due care to be taken for proper & inclusive training delivery in the batch.

1. Some of the following method of delivery may be adopted:
 - a. LECTURE
 - b. LESSON
 - c. DEMONSTRATION
 - d. PRACTICE
 - e. GROUP DISCUSSION
 - f. DISCUSSION WITH PEER GROUP
 - g. PROJECT WORK
 - h. STORE VISIT
2. Maximum utilization of latest form of training viz., audio visual aids, integration of IT, etc. may be adopted.
3. The total hours to be devoted against each topic may be decided with due diligence to safety & with prioritizing transfer of required skills.
