

QUALIFICATION PACK – OCCUPATIONAL STANDARD FOR LEATHER SECTOR

What are Occupational Standards(OS)?

- OS describe what individuals need to do, know and understand in order to carry out a particular job role or function
- OS are performance standards that individuals must achieve when carrying out functions in the workplace, together with specifications of the underpinning knowledge and understanding

Introduction

Qualification Pack - Stitching Operator

SECTOR: LEATHER

SUB SECTOR: Footwear

OCCUPATION: Stitching

REFERENCE ID: LSS/Q2501

ALIGNED TO: NCO-2004/8266.25

A Stitching Operator (Footwear) is an important job-role associated with the Footwear sector. With the growing demand for skills, the importance of an operator with specialized knowledge and skills in stitching operations have increased.

Brief Job Description: The primary responsibility of a Stitching Operator (Footwear) is to perform stitching operations to the upper components of the footwear as per the design instructions given by the designing section. He/ She should be able to stitch the footwear with leather and non-leather components, using maximum accuracy. He/she should be passionate about creating intricate products without compromising on quality.

Personal Attributes: Stitching Operator (Footwear) should have good hand-eye co-ordination, motor skills and vision (including near vision, distance vision, colour vision, peripheral vision, depth perception and ability to change focus). He/ She should be inclined towards creativity and interested in mixing materials, textures and threads to create beautiful products.

Job Role	Stitching Operator
Role Description	The primary responsibility of a Stitching Operator (Footwear) is to perform stitching operations on the upper components of the footwear as per the design instructions given by the designing section. He/ She should be able to stitch the footwear with leather and non-leather components, using maximum accuracy. He/she should be passionate about creating intricate products without compromising on quality.
NSQF level	4
Minimum Educational Qualifications*	Class V
Maximum Educational Qualifications*	N/A
Training (Suggested but not mandatory)	On-the-Job-Training
Minimum Job Entry Age	18 years
Experience	Prior experience as helper in footwear manufacturing for a minimum of 2-3 years preferred
Applicable National Occupational Standards (NOS)	Compulsory LSS/N2501 Carry out stitching operation using different machines LSS/N2502 Contribute to achieving product quality in stitching operation LSS/N8501 Maintain the work area, tools and machines LSS/N8601 Maintain health, safety and security at workplace LSS/N8701 Comply with industry, regulatory and organizational requirements Optional: N.A.
Performance Criteria	As described in the relevant OS units

Definition

Keywords /Terms	Description
Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Vertical	Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.
Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry.
Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.
Sub-functions	Sub-functions are sub-activities essential to fulfil achieving the objectives of the function.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding; he/she needs to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria	Performance Criteria are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are Occupational Standards which apply uniquely in the Indian context.
Qualifications Pack Code	Qualifications Pack Code is a unique reference code that identifies a qualifications pack.
Qualifications Pack(QP)	Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.
Unit Code	Unit Code is a unique identifier for an Occupational Standard, which is denoted by an 'N'.
Unit Title	Unit Title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to find the required one.
Scope	Scope is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of required performance.
Knowledge and Understanding	Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform up to the required standard.

Acronyms

Keywords /Terms	Description
OS	Occupational Standard(s)
NOS	National Occupational Standard(s)
QP	Qualifications Pack
NSQF	National Skill Qualifications Framework
TBD	To Be Determined

LSS/N2501

Carry out stitching operation using different machines

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Ability for carrying out stitching operations for footwear manufacturing processes.

National Occupational Standards

LSS/N2501

Carry out stitching operation using different machines

National Occupational Standard

Unit Code	LSS/N2501
Unit Title (Task)	Carry out stitching operation using different machines
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Ability for carrying out stitching operations for footwear manufacturing processes.
Scope	This unit/task covers the following: • Carry out supporting operations within footwear • Stitching operations • Reporting & Documentation • Sorting & Placing
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Carry out supporting operations within footwear	To be competent, the user/individual on the job must be able to: PC1. Follow the instructions on the work ticket/ job card PC2. Make sure that the work area is free from hazards PC3. Ensure the materials used meet the specification matching • within a product • between a pair of products where applicable PC4. Agree and review agreed upon work targets with the supervisor PC5. Sort out the material and threads as per the specifications in the job card PC6. Select the right sewing machine, threads and bobbins for the materials as per the specifications in the job card PC7. Check the equipment prior to making the stitching, including: • Correct controls • Correct attachments • Changing needles • Changing threads • Changing awls • Correct Timing PC8. Set machine controls for the materials being stitched PC9. Perform a test run to ensure machine is operating correctly
Stitching operations	PC10. Adjust machine controls where necessary PC11. Operate machines safely and in accordance with guidelines PC12. Estimate the expected length of time for the process PC13. Optimize the positioning and layout of materials to ensure a smooth and rapid throughput PC14. Adjust the tension and stitch length PC15. Check the upper components and conduct shade wise pairing PC16. Stitch the correct materials in the right sequence as required by the production specification PC17. Perform back joining/quarter back joining using zigzag machine/flat bed machine PC18. Perform seam rubbing by machine if back joining done by flat bed

National Occupational Standards

LSS/N2501

Carry out stitching operation using different machines

	machine PC19. Attach vamp with tongue using flat bed machine PC20. Apply adhesives on the components PC21. Fold the components by hand/machine PC22. Join upper and lining using flat/post bed machine PC23. Join quarter with vamp using post bed machine PC24. Perform edge trimming operation by machine/hand PC25. Perform eyeleting by machine/hand PC26. Perform eyelet punching, eyelet putting and eyelet setting by hand PC27. Do lacing on the uppers PC28. Visual inspection as per specifications in the job card PC29. Respond accordingly where stitched items do not meet production specification PC30. Carry out basic maintenance of machinery and keep them clean after use
Reporting & Documentation	PC31. Report risks/ problems likely to affect services to the relevant person promptly and accurately PC32. Complete forms, records and other documentation PC33. Follow company reporting procedures about defective tools and machines which affect work and report risks/ problems likely to affect services to the relevant person promptly and accurately PC34. Report defective machines, tools and/or equipment to the responsible person
Sorting & Placing	PC35. Sort and place work to the next stage of production and minimise the risk of damage PC36. Pass the stitched item to the next stage in the manufacturing process after validation
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. The organisation's procedures and guidelines related to footwear manufacturing processes KA2. Common hazards in the work area and workplace procedures to deal with them KA3. Work target and review mechanism with the supervisor for obtaining/giving feedback related to performance KA4. Process for offering/ obtaining work related assistance in case of queries on procedure or products KA5. The different components of footwear KA6. Complete sequential processes for manufacturing footwear KA7. Storage and assembly areas for different processes KA8. Method of handling and operating related machines KA9. Documentation related to the manufacturing processes and protocol for recording KA10. Location and process for storage and disposal of waste
B. Technical	The user/individual on the job needs to know and understand:

National Occupational Standards

LSS/N2501

Carry out stitching operation using different machines

Knowledge	KB1. The various stitching machines to be used for different materials and threads KB2. The different varieties of threads (numbers of the thread) available and its characteristics with different kinds of materials KB3. The different types of needles and their numbers KB4. The mechanics of stitching machines and other equipments and basic repairing and maintenance KB5. Potential faults in the various processes and methods to avoid them KB6. The importance of accuracy in stitching processes KB7. Attachment of needle to the sewing machine KB8. The proper knowledge and placing of eyeletting by hand KB9. Usage, application and storage of temporary adhesives KB10. Maintenance, adjustment and replacement of worn parts on the machines required for different types of attachment KB11. The manufacturer's instructions for setting up, adjusting and operating the equipment KB12. Process for obtaining replacements for worn, faulty or defective tools KB13. Common faults in tools and equipment and implications of working with faulty equipments KB14. Common errors in processes and how to avoid them KB15. Styles/ design of the products currently being produced
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills The user/ individual on the job needs to know and understand how to: SA1. Write in English/ local language as applicable SA2. Fill up appropriate technical forms, process charts, activity logs in the prescribed format of the company Reading Skills The user/ individual on the job needs to know and understand how to: SA3. Read English/ local language as applicable SA4. Read and understand manuals, health and safety instructions, memos, reports, job cards etc Oral Communication (Listening and Speaking Skills) The user/ individual on the job needs to know and understand how to: SA5. Listen actively SA6. Communicate effectively with supervisors, managers, etc
B. Professional Skills	Decision Making The user/ individual on the job needs to know and understand how to: SB1. Analyse the defects and the procedure for dealing with it SB2. Take appropriate actions in terms of any deviations from the process Plan and Organize The user/ individual on the job needs to know and understand how to: SB3. Plan and set the targets along with the supervisors and the co workers SB4. Organize tools and equipments to be used SB5. Plan for placing the different components in an organized manner on a

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of production while undertaking stitching activities to ensure products meet specifications.

LSS/N2502 Contribute to achieving product quality in stitching operation

National Occupational Standard

Unit Code	LSS/N2502
Unit Title (Task)	Contribute to achieving product quality in stitching operation
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to monitor the quality of production while undertaking stitching activities to ensure products meet specifications.
Scope	This unit/task covers the following: • Inspection • Reporting & Documentation • Sorting and Placing
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Inspection	To be competent, the user/individual on the job must be able to: PC1. Ensure materials and component parts meet specifications PC2. Ensure that the quality and appearance of the uppers are not affected during materials movement PC3. Ensure the quality of the product meets specification during production PC4. Maintain the required productivity and quality levels PC5. Carry out quality checks at agreed intervals and in the approved way PC6. Count and verify the number of uppers are as per job card at the start and end of every stage in the stitching processes PC7. Check the upper components are paired shade wise as per the specifications in the job card PC8. Check that the stitching is done properly as per the design specifications and no damage happens to the appearance and quality PC9. Check that no spillage of adhesives appear on the uppers PC10. Check that the folding is done properly PC11. Check the edge trimming, putting of eyelets and lacing are done correctly PC12. Conduct a visual inspection on all aspects of the stitching process PC13. Maintain the continuity of production with minimum interruptions and downtime PC14. Ensure minimum of wastage and their proper disposal
Reporting & Documentation	PC15. Identify causes of faults and take action to rectify the same to maintain product quality PC16. Follow reporting procedures where the cause of faults cannot be identified
Sorting & Placing	PC17. Pass the stitched uppers with support of the assistant operator for next process PC18. Leave work area safe and secure when work is complete
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company /	The user/individual on the job needs to know and understand: KA1. The companies quality standards KA2. The importance of complying with written instructions KA3. Types of problems with quality and how to report them to

LSS/N8501

Maintain the work area, tools and machines

Unit Code	LSS/N8501
Unit Title (Task)	Maintain the work area, tools and machines
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to organise/ maintain work areas and activities to ensure tools and machines are maintained as per norms.
Scope	This unit/task covers the following: Maintenance of the work area, tools and machines
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Maintenance of work area, tools and machines	To be competent, the user/individual on the job must be able to: PC1. Handle materials, machinery, equipment and tools safely and correctly PC2. Use correct lifting and handling procedures PC3. Use materials to minimize waste PC4. Prepare and organize work PC5. Maintain a clean and hazard free working area PC6. Deal with work interruptions PC7. Move around the workplace with care PC8. Maintain tools and equipment PC9. Carry out running maintenance within agreed schedules PC10. Carry out maintenance and/or cleaning outside responsibility PC11. Report unsafe equipment and other dangerous occurrences PC12. Ensure that the correct machine guards are in place PC13. Work in a comfortable position with the correct posture PC14. Use cleaning equipment and methods appropriate for the work to be carried out PC15. Dispose of waste safely in the designated location PC16. Store cleaning equipment safely after use PC17. Complete and store accurate records and documentation PC18. Maintain proper lighting, ventilation to make sure general comfort is there while working PC19. Give inputs and assist in completing documentation PC20. Report the need for maintenance and/or cleaning outside your area of responsibility PC21. Ensure safe and correct handling of materials, equipment and tools PC22. Maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration
Knowledge and Understanding (K)	
C. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: Personal hygiene and duty of care KA1. Safe working practices and organizational procedures KA2. Limits of one's own responsibility KA3. Ways of resolving with problems within the work area KA4. The production process and the specific work activities that relate to the whole process

LSS/N8501

Maintain the work area, tools and machines

	KA5. The lines of communication, authority and reporting procedures KA6. The organization's rules, codes and guidelines (including timekeeping) KA7. The companies quality standards KA8. The types of records kept, how are they completed and the importance of keeping them accurate KA9. The importance of complying with written instructions KA10. Equipment operating procedures / manufacturer's instructions KA11. Statutory responsibilities under Health, Safety and Environmental legislation and regulations KA12. The quality standards and processes followed by the organization relevant to your role KA13. Documentation required for reporting
D. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Work instructions and specifications and interpret them accurately KB2. Method to make use of the information detailed in specifications and instructions KB3. Relation between work role and the overall manufacturing process KB4. The importance of good time keeping and attendance KB5. The importance of minimized production costs KB6. The importance of taking action when problems are identified KB7. Different ways of minimizing waste KB8. The importance of running maintenance and regular cleaning KB9. Effects of contamination on products i.e. Machine oil, dirt KB10. Common faults with equipment and the method to rectify KB11. Maintenance procedures and manufacturer's instructions KB12. Hazards likely to be encountered when conducting routine maintenance KB13. Different types of cleaning equipment and substances and their use KB14. Safe working practices for cleaning and the method of carrying them out KB15. The production process and the specific work activities that relate to the whole process
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to: SA1. Write and document appropriate technical forms, job cards, inspection sheets as required format of the company
	Reading Skills
	The user/ individual on the job needs to know and understand how to: SA2. Read and comprehend basic English to read and interpret indicators in the machine and operating manuals, job cards, visual cards SA3. Read and understand manuals, health and safety instructions, memos, reports, job cards etc
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to: SA4. Speak and communicate effectively to peers and supervisors SA5. Give clear instructions to co-workers, subordinates others

LSS/N8501

Maintain the work area, tools and machines

	SA6. Use correct technical term while interacting with supervisor
B. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to:
	SB1. Take appropriate decisions regarding to responsibilities
	SB2. Assess for any damage/faulty component in the concerned machinery and take action accordingly
	SB3. Evaluate the decision and conduct basic trouble shooting
	Plan and Organize
	The user/ individual on the job needs to know and understand how to:
	SB4. Plan and manage work routine based on company procedure
	SB5. Work with supervisors/ team mates to carry out work related tasks
	SB6. Plan for cleaning and lubricating the concerned machinery daily
	SB7. Plan for cleaning the concerned tools and workplace daily before and after operations
	Customer Centricity
	The user/ individual on the job needs to know and understand how to:
	SB8. Ensure and follow organizational procedures pertaining to health and safety are followed
	Problem Solving
	The user/ individual on the job needs to know and understand how to:
	SB9. Solve operational role related issues
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB10. Diagnose common problems in the machine based on visual inspection, sound, temperature etc.
	Critical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB11. Analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N8701

Comply with industry, regulatory and organizational requirements

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for complying with industry, regulatory and organizational requirements at the workplace.

LSS/N8701

Comply with industry, regulatory and organizational requirements

Unit Code	LSS/N8701
Unit Title (Task)	Comply with industry, regulatory and organizational requirements
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for complying with industry, regulatory and organizational requirements at the workplace.
Scope	This unit/task covers the following: Compliance with industry, regulatory and organizational requirements
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Compliance with industry, regulatory and organizational requirements	To be competent, the user/individual on the job must be able to: PC1. Carry out work functions in accordance with legislation and regulations, organizational guidelines and procedures PC2. Seek and obtain clarifications on policies and procedures, from the supervisor or other authorized personnel PC3. Apply and follow these policies and procedures within the work practices PC4. Provide support to the supervisor and team members in enforcing these considerations PC5. Identify and report any possible deviation to these requirements
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. The importance of having an ethical and value-based approach to governance KA2. Benefits to the company and oneself due to practice of these procedures KA3. Specific to the industry/sector, know and understand: - Legal, regulatory and ethical requirements - Procedures to follow if someone does not meet the requirements KA4. Customer specific requirements mandated as a part of the work process
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Country / customer specific regulations for the sector and their importance KB2. Reporting procedure in case of deviations KB3. Limits of personal responsibility
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to:
	SA1. Write and document appropriate technical forms, job cards, inspection sheets as required format of the company
	Reading Skills
	The user/ individual on the job needs to know and understand how to:
	SA2. Read and comprehend the organizational documents pertaining to rules and procedures
	SA3. Read and comprehend basic English to read and interpret indicators in

LSS/N8701

Comply with industry, regulatory and organizational requirements

	the machine and operating manuals, job cards, visual cards, etc
	SA4. Read in the local language as applicable
	SA5. Read and understand manuals, health and safety instructions, memos, reports, job cards etc
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to:
	SA6. Positively influence the team members into following procedures
B. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to:
	SB1. Take appropriate decisions related to responsibilities
	Plan and Organize
	The user/ individual on the job needs to know and understand how to:
	SB2. Plan and manage work routine based on company procedure
	Customer Centricity
	The user/ individual on the job needs to know and understand how to:
	SB3. Ensure and follow organizational procedures and policies
	Problem Solving
	The user/ individual on the job needs to know and understand how to:
	SB4. Evaluate and seek and obtain clarification from the superiors
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB5. Apply balanced judgement to different situations
	Critical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB6. Analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N8701

Comply with industry, regulatory and organizational requirements

NOS Version Control

NOS Code	LSS/N8701		
Credits (NSQF)	TBD	Version number	1.0
Sector	Leather	Drafted on	25/07/13
Industry Sub-sector	Footwear	Last reviewed on	31/03/15
Occupation	Stitching	Next review date	18/06/2015

CRITERIA FOR ASSESSMENT OF TRAINEES

Job Role Stitching Operator (Footwear)

Qualification Pack Code LSS/Q2501

Sector Skill Council Leather

Guidelines for Assessment:

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below)
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on these criteria
5. To pass the Qualification Pack, every trainee should score a minimum of 50% aggregate
6. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

NOS	Performance CRITERIA	Marks Allocation			
		Total Mark	Out Of	Theory	Skills Practical
1. LSS/N2501- Carry out stitching operation using different machines	PC1. Follow the instructions on the work ticket/ job card	100	2	0	2
	PC2. Make sure that the work area is free from hazards		2	0	2
	PC3. Ensure the materials used meet the specification matching • within a product • between a pair of products where applicable		2	0	2
	PC4. Agree and review agreed upon work targets with the supervisor		2	0	2
	PC5. Sort out the material and threads as per the specifications in the job card		7	5	2
	PC6. Select the right sewing machine, threads and bobbins for the materials as per the specifications in the job card		2	0	2

	PC7. Check the equipment prior to making the stitching, including: • Correct controls • Correct attachments • Changing needles • Changing threads • Changing awls • Correct Timing		2	0	2
	PC8. Set machine controls for the materials being stitched		2	0	2
	PC9. Perform a test run to ensure machine is operating correctly		7	5	2
	PC10. Adjust machine controls where necessary		2	0	2
	PC11. Operate machines safely and in accordance with guidelines		12	10	2
	PC12. Estimate the expected length of time for the process		2	0	2
	PC13. Optimize the positioning and layout of materials to ensure a smooth and rapid throughput		2	0	2
	PC14. Adjust the tension and stitch length		2	0	2
	PC15. Check the upper components and conduct shade wise pairing		2	0	2
	PC16. Stitch the correct materials in the right sequence as required by the production specification		2	0	2
	PC17. Perform back joining/quarter back joining using zigzag machine/flat bed machine		2	0	2
	PC18. Perform seam rubbing by machine if back joining done by flat bed machine		2	0	2
	PC1. Check the upper components and conduct shade wise pairing		2	0	2
	PC19. Attach vamp with tongue using flat bed machine		2	0	2
	PC20. Apply adhesives on the components		1	0	1
	PC21. Fold the components by hand/machine		2	0	2
	PC22. Join upper and lining using flat/post bed machine		2	0	2
	PC23. Join quarter with vamp using post bed machine		1	0	1
	PC24. Perform edge trimming operation by machine/hand		7	5	2
	PC25. Perform eyeleting by machine/hand		2	0	2
	PC26. Perform eyelet punching, eyelet putting and eyelet setting by hand		2	0	2
	PC27. Do lacing on the uppers		1	0	1

	PC28. Visual inspection as per specifications in the job card		1	0	1
	PC29. Respond accordingly where stitched items do not meet production specification		1	0	1
	PC30. Carry out basic maintenance of machinery and keep them clean after use		1	0	1
	PC31. Report risks/ problems likely to affect services to the relevant person promptly and accurately		2	0	2
	PC32. Complete forms, records and other documentation		2	0	2
	PC33. Follow company reporting procedures about defective tools and machines which affect work and report risks/ problems likely to affect services to the relevant person promptly and accurately		7	5	2
	PC34. Report defective machines, tools and/or equipment to the responsible person		2	0	2
	PC35. Sort and place work to the next stage of production and minimise the risk of damage		3	0	3
	PC36. Pass the stitched item to the next stage in the manufacturing process after validation		3	0	3
	Total		100	30	70
2. LSS/N2502- Contribute to achieving product quality in stitching operation	PC1. Ensure materials and component parts meet specifications	50	1	0	1
	PC2. Ensure that the quality and appearance of the uppers are not affected during materials movement		6	5	1
	PC3. Ensure the quality of the product meets specification during production		11	10	1
	PC4. Maintain the required productivity and quality levels		1	0	1
	PC5. Carry out quality checks at agreed intervals and in the approved way		1	0	1
	PC6. Count and verify the number of uppers are as per job card at the start and end of every stage in the stitching processes		11	10	1
	PC7. Check the upper components are paired shade wise as per the specifications in the job card		1	0	1
	PC8. Check that the stitching is done properly		0.5	0	0.5

	as per the design specifications and no damage happens to the appearance and quality				
	PC9. Check that no spillage of adhesives appear on the uppers		0.5	0	0.5
	PC10. Check that the folding is done properly		1	0	1
	PC11. Check the edge trimming, putting of eyelets and lacing are done correctly		0.5	0	0.5
	PC12. Conduct a visual inspection on all aspects of the stitching process		0.5	0	0.5
	PC13. Maintain the continuity of production with minimum interruptions and downtime		1	0	1
	PC14. Ensure minimum of wastage and their proper disposal		7	6	1
	PC15. Identify causes of faults and take action to rectify the same to maintain product quality		2.5	2	0.5
	PC16. Follow reporting procedures where the cause of faults cannot be identified		1	0	1
	PC17. Pass the stitched uppers with support of the assistant operator for next process		2.5	2	0.5
	PC18. Leave work area safe and secure when work is complete		1	0	1
	Total		50	35	15
3. LSS/N8501- Maintain the work area, tools and machines	PC1. Handle materials, machinery, equipment and tools safely and correctly	50	2	0	2
	PC2. Use correct lifting and handling procedures		2	0	2
	PC3. Use materials to minimize waste		3	0	3
	PC4. Prepare and organize work		2	0	2
	PC5. Maintain a clean and hazard free working area		3	0	3
	PC6. Deal with work interruptions		2	0	2
	PC7. Move around the workplace with care		3	0	3
	PC8. Maintain tools and equipment		3	0	3
	PC9. Carry out running maintenance within agreed schedules		4	2	2
	PC10. Carry out maintenance and/or cleaning outside responsibility		2	1	1
	PC11. Report unsafe equipment and other dangerous occurrences		3	2	1
	PC12. Ensure that the correct machine guards are in place		1	0	1
	PC13. Work in a comfortable position with the correct posture		2	1	1

	PC14. Use cleaning equipment and methods appropriate for the work to be carried out		3	2	1
	PC15. Dispose of waste safely in the designated location		3	2	1
	PC16. Store cleaning equipment safely after use		2	1	1
	PC17. Complete and store accurate records and documentation		2	1	1
	PC18. Maintain proper lighting, ventilation to make sure general comfort is there while working		2	1	1
	PC19. Give inputs and assist in completing documentation		1	0	1
	PC20. Report the need for maintenance and/or cleaning outside your area of responsibility		1	0	1
	PC21. Ensure safe and correct handling of materials, equipment and tools		2	1	1
	PC22. Maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration		2	1	1
	Total		50	15	35
4. LSS/N8601- Maintain health, safety and security at workplace	PC1. Comply with health and safety related instructions applicable to the workplace		1	0	1
	PC2. Use and maintain personal protective equipment as per protocol		1	0	1
	PC3. Carry out own activities in line with approved guidelines and procedures		1	0	1
	PC4. Maintain a healthy lifestyle and guard against dependency on intoxicants		0.5	0	0.5
	PC5. Follow environment management system related procedures		6	5	1
	PC6. Identify and correct (if possible) malfunctions in machinery and equipment	25	1	0	1
	PC7. Report any service malfunctions that cannot be rectified		1	0	1
	PC8. Store materials and equipment in line with manufacturer's and organizational requirements		0.5	0	0.5
	PC9. Safely handle and move waste and debris		1	0	1
	PC10. Minimize health and safety risks to self and others due to own actions		1	0	1
	PC11. Seek clarifications, from supervisors or other authorized personnel in case of perceived risks		1	0	1

	PC12. Monitor the workplace and work processes for potential risks and threats		1	0	1
	PC13. Carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned		0.5	0	0.5
	PC14. Report hazards and potential risks/ threats to supervisors or other authorized personnel		5.5	5	0.5
	PC15. Participate in mock drills/ evacuation procedures organized at the workplace		0.5	0	0.5
	PC16. Undertake first aid, fire-fighting and emergency response training, if asked to do so		1	0	1
	PC17. Take action based on instructions in the event of fire, emergencies or accidents		0.5	0	0.5
	PC18. Follow organization procedures for shutdown and evacuation when required		1	0	1
	Total		25	10	15
5. LSS/N8701- Comply with industry, regulatory and organizational requirements	PC1. Carry out work functions in accordance with legislation and regulations, organizational guidelines and procedures	25	10	5	5
	PC2. Seek and obtain clarifications on policies and procedures, from the supervisor or other authorized personnel		3	0	3
	PC3. Apply and follow these policies and procedures within the work practices		2	0	2
	PC4. Provide support to the supervisor and team members in enforcing these considerations		7	5	2
	PC5. Identify and report any possible deviation to these requirements		3	0	3
	Total		25	10	15
