

QUALIFICATION PACK – OCCUPATIONAL STANDARD FOR LEATHER SECTOR

What are Occupational Standards(OS)?

- OS describe what individuals need to do, know and understand in order to carry out a particular job role or function
- OS are performance standards that individuals must achieve when carrying out functions in the workplace, together with specifications of the underpinning knowledge and understanding

Introduction

Qualification Pack - CAD/CAM Operator - Goods

SECTOR:	LEATHER
SUB SECTOR:	Leather Goods and Garments
OCCUPATION:	Designing (Goods)
REFERENCE ID:	LSS/Q5101
ALIGNED TO:	NCO-2004/NIL

CAD/CAM software is graphics software to generate design drawings. Computer Aided Design (CAD) helps to draw the design while Computer Aided Manufacturing (CAM) system automatically produces finished designs by using computer controlled production machines.

Brief Job Description: Computer Aided Design/Computer Aided Manufacturing (CAD/CAM) operator uses computer hardware and graphics software to generate design drawings. CAD equipment enables operators to quickly design and produce very accurate and realistic images of leather goods to be manufactured. Computer Aided Manufacturing (CAM) system automatically produces finished designs by using computer controlled production machines.

Personal Attributes: CAD/CAM operator must possess the technical acumen, good hand eye coordination, eye for detail, higher secondary level of math, computer skills, knowledge of the garment making process and the knowledge and skill to use the CAD/CAM software.

Qualifications Pack Code	LSS/Q5101		
Job Role	CAD/CAM Operator - Goods		
Credits(NSQF)	TBD	Version number	1.0

Job Role	CAD/CAM Operator - Goods
Role Description	Computer Aided Design/Computer Aided Manufacturing (CAD/CAM) operator uses computer hardware and graphics software to generate design drawings. CAD equipment enables operators to quickly design and produce very accurate and realistic images of leather goods to be manufactured. Computer Aided Manufacturing (CAM) system automatically produces finished designs by using computer controlled production machines.
NSQF level	4
Minimum Educational Qualifications*	CAD/CAM Certification
Maximum Educational Qualifications*	N/A
Training (Suggested but not mandatory)	Diploma certification in CAD/CAM
Minimum Job Entry Age	18 years
Experience	N/A
Applicable National Occupational Standards (NOS)	Compulsory 1. LSS/N5101 Operate the CAD/CAM software to design leather goods 2. LSS/N8501 Maintain the work area, tools and machines 3. LSS/N8601 Maintain health, safety and security at workplace 4. LSS/N8701 Comply with industry, regulatory and organizational requirements Optional: N.A.
Performance Criteria	As described in the relevant OS units

Definition

Keywords /Terms	Description
Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Vertical	Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.
Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry.
Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.
Sub-functions	Sub-functions are sub-activities essential to fulfil achieving the objectives of the function.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding; he/she needs to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria	Performance Criteria are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are Occupational Standards which apply uniquely in the Indian context.
Qualifications Pack Code	Qualifications Pack Code is a unique reference code that identifies a qualifications pack.
Qualifications Pack(QP)	Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.
Unit Code	Unit Code is a unique identifier for an Occupational Standard, which is denoted by an 'N'.
Unit Title	Unit Title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to find the required one.
Scope	Scope is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of required performance.
Knowledge and Understanding	Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform up to the required standard.

Acronyms

Keywords /Terms	Description
OS	Occupational Standard(s)
NOS	National Occupational Standard(s)
QP	Qualifications Pack
NSQF	National Skill Qualifications Framework
TBD	To Be Determined

LSS/N5101

Operate the CAD/CAM software to design leather goods

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities for operating the CAD/CAM software in order to create patterns for the leather goods.

LSS/N5101
Operate the CAD/CAM software to design leather goods

Unit Code	LSS/N5101
Unit Title (Task)	Operate the CAD/CAM software to design leather goods
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities for operating the CAD/CAM software in order to create patterns for the leather goods.
Scope	This unit/task covers the following: • Preparing the area • Operating the CAD software • Operating the CAM software
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Preparation of the work area	To be competent, the user/individual on the job must be able to: PC1. Ensure the work area is free from hazards as per the safety norm of the organization PC2. Ensure the cleanliness and orderliness of the work place as per the organizational standards PC3. Obtain and check the data on the specification sheet and carry out functions in line with the responsibilities of job role PC4. Set the machine parameters as per the manufacturers instruction
CAD software operation	PC5. Draw the pattern on the CAD software, if applicable, as per specification given PC6. Digitize the manual pattern on the CAD software, if applicable, as per specification given PC7. Perform grading of good, if applicable, as per measurements provided by client PC8. Perform modeling and testing of good on CAD, if applicable PC9. Adjust the pattern specification as per the product standards and allowances required
CAM software Operation	PC10. Set parameters on CAM machine as per required output PC11. Ensure the design output is cut and handed over to the next department PC12. Ensure the work is saved as a back-up before shutting down the CAD machine PC13. Shut down, after use, the CAD/CAM system carefully and in accordance with company instructions PC14. Manage the helpers work as per the organizational standards and requirements PC15. Ensure the sheets are prepared for the next operation as per the standards specified by the organization PC16. Ensure the product is free from production and handling damages
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the	The user/individual on the job needs to know and understand: KA1. Expectations and responsibilities of the job role KA2. The organization's rules, codes, guidelines and standards

LSS/N5101

Operate the CAD/CAM software to design leather goods

company / organization and its processes)	KA3. Procedures for operating assigned leather production machine KA4. Main types of hide and leather manufactured by the company KA5. Statutory responsibilities under health, safety and environmental legislation and regulations KA6. Common hazards in the work area and workplace procedures for dealing with them KA7. Importance of team work and harmonious working relationships KA8. Contact person in case of queries on procedure or products KA9. Method to handle tools and equipment safely and the health and safety implications of not doing so
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Knowledge of the CAD/CAM operating process KB2. Knowledge of the principles of CAD/CAM systems KB3. Process of modeling and testing using CAD KB4. Knowledge of grading using CAD KB5. Differences and advantages of 2D and 3D CAD KB6. Basic knowledge of computer operation KB7. Knowledge of possible manufacturing defects and rectification process KB8. Knowledge of the goods manufacturing process KB9. Various types of goods being produced in the company KB10. Knowledge of the organizations standard operating procedures KB11. Knowledge to identify the process and product problems KB12. Knowledge of escalation hierarchy
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to: SA1. Construct patterns/designs and express ideas clearly through written communication SA2. Fill up appropriate technical forms, process charts, activity logs in required format of the company SA3. Perform functional operations, including apply basic mathematical principles, such as numbers and space, and techniques such as estimation and approximation
	Reading Skills
	The user/ individual on the job needs to know and understand how to: SA4. Read images, graphs and technical drawings SA5. Understand the various coding systems as per company norms
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to: SA6. Express statements, opinions or information clearly SA7. Communicate effectively with supervisors, managers, etc. SA8. Respond appropriately to any queries
B. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to: SB1. Evaluate and use appropriate software for designing

National Occupational Standards

LSS/N5101

Operate the CAD/CAM software to design leather goods

	SB2. Visualize and interpret the technical drawings
	Plan and Organize
	The user/ individual on the job needs to know and understand how to:
	SB3. Set parameters as per the output
	SB4. Set targets to produce as per the specified productivity targets
	SB5. Perform modeling and testing of goods on CAD/CAM
	Customer Centricity
	The user/ individual on the job needs to know and understand how to:
	SB6. Ensure the designs are delivered on time
	SB7. Deliver the model on time
	Problem Solving
	The user/ individual on the job needs to know and understand how to:
	SB8. Analyse any defects in the system/software
	SB9. Troubleshoot the problems within one's responsibility
	SB10. Report to concerned authority if issues cannot be resolved
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB11. Identify the defects
	SB12. Pre-empt complexity of the design in order to increase the production speed of CAD/CAM modelling
	Critical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB13. Anticipate process disruptions
	SB14. Analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N8501

Maintain the work area, tools and machines

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to organise/ maintain work areas and activities to ensure tools and machines are maintained as per norms.

LSS/N8501

Maintain the work area, tools and machines

Unit Code	LSS/N8501
Unit Title (Task)	Maintain the work area, tools and machines
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to organise/ maintain work areas and activities to ensure tools and machines are maintained as per norms.
Scope	This unit/task covers the following: Maintenance of the work area, tools and machines
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Maintenance of work area, tools and machines	To be competent, the user/individual on the job must be able to: PC1. Handle materials, machinery, equipment and tools safely and correctly PC2. Use correct lifting and handling procedures PC3. Use materials to minimize waste PC4. Prepare and organize work PC5. Maintain a clean and hazard free working area PC6. Deal with work interruptions PC7. Move around the workplace with care PC8. Maintain tools and equipment PC9. Carry out running maintenance within agreed schedules PC10. Carry out maintenance and/or cleaning outside responsibility PC11. Report unsafe equipment and other dangerous occurrences PC12. Ensure that the correct machine guards are in place PC13. Work in a comfortable position with the correct posture PC14. Use cleaning equipment and methods appropriate for the work to be carried out PC15. Dispose of waste safely in the designated location PC16. Store cleaning equipment safely after use PC17. Complete and store accurate records and documentation PC18. Maintain proper lighting, ventilation to make sure general comfort is there while working PC19. Give inputs and assist in completing documentation PC20. Report the need for maintenance and/or cleaning outside your area of responsibility PC21. Ensure safe and correct handling of materials, equipment and tools PC22. Maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. Personal hygiene and duty of care KA2. Safe working practices and organizational procedures KA3. Limits of one's own responsibility KA4. Ways of resolving with problems within the work area KA5. The production process and the specific work activities that relate to the whole process KA6. The lines of communication, authority and reporting procedures

LSS/N8501

Maintain the work area, tools and machines

	KA7. The organization's rules, codes and guidelines (including timekeeping) KA8. The companies quality standards KA9. The types of records kept, how are they completed and the importance of keeping them accurate KA10. The importance of complying with written instructions KA11. Equipment operating procedures / manufacturer's instructions KA12. Statutory responsibilities under Health, Safety and Environmental legislation and regulations KA13. The quality standards and processes followed by the organization relevant to your role KA14. Documentation required for reporting
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Work instructions and specifications and interpret them accurately KB2. Method to make use of the information detailed in specifications and instructions KB3. Relation between work role and the overall manufacturing process KB4. The importance of good time keeping and attendance KB5. The importance of minimized production costs KB6. The importance of taking action when problems are identified KB7. Different ways of minimizing waste KB8. The importance of running maintenance and regular cleaning KB9. Effects of contamination on products i.e. Machine oil, dirt KB10. Common faults with equipment and the method to rectify KB11. Maintenance procedures and manufacturer's instructions KB12. Hazards likely to be encountered when conducting routine maintenance KB13. Different types of cleaning equipment and substances and their use KB14. Safe working practices for cleaning and the method of carrying them out KB15. The production process and the specific work activities that relate to the whole process
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to: SA1. Write and document appropriate technical forms, job cards, inspection sheets as required format of the company
	Reading Skills
	The user/ individual on the job needs to know and understand how to: SA2. Read and comprehend basic English to read and interpret indicators in the machine and operating manuals, job cards, visual cards, SA3. Read and understand manuals, health and safety instructions, memos, reports, job cards etc
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to: SA4. Speak and communicate effectively to peers and supervisors SA5. Give clear instructions to co-workers, subordinates others SA6. Use correct technical term while interacting with supervisor

LSS/N8501

Maintain the work area, tools and machines

B. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to:
	SB1. Take appropriate decisions regarding to responsibilities
	SB2. Assess for any damage/faulty component in the concerned machinery and take action accordingly
	SB3. Evaluate the decision and conduct basic trouble shooting
	Plan and Organize
	The user/ individual on the job needs to know and understand how to:
	SB4. Plan and manage work routine based on company procedure
	SB5. Work with supervisors/ team mates to carry out work related tasks
	SB6. Plan for cleaning and lubricating the concerned machinery daily
	SB7. Plan for cleaning the concerned tools and workplace daily before and after operations
	Customer Centricity
	The user/ individual on the job needs to know and understand how to:
	SB8. Ensure and follow organizational procedures pertaining to health and safety are followed
	Problem Solving
	The user/ individual on the job needs to know and understand how to:
	SB9. Solve operational role related issues
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB10. Diagnose common problems in the machine based on visual inspection, sound, temperature etc
	Critical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB11. Analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

LSS/N8601

Maintain health, safety and security at workplace

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimize risk to self and others.

LSS/N8601

Maintain health, safety and security at workplace

National Occupational Standard

Unit Code	LSS/N8601
Unit Title (Task)	Maintain health, safety and security at workplace
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimize risk to self and others.
Scope	This unit/task covers the following: Compliance with health, safety and security requirements at work
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Compliance with health, safety and security requirements at work	To be competent, the user/individual on the job must be able to: PC1. Comply with health and safety related instructions applicable to the workplace PC2. Use and maintain personal protective equipment as per protocol PC3. Carry out own activities in line with approved guidelines and procedures PC4. Maintain a healthy lifestyle and guard against dependency on intoxicants PC5. Follow environment management system related procedures PC6. Identify and correct (if possible) malfunctions in machinery and equipment PC7. Report any service malfunctions that cannot be rectified PC8. Store materials and equipment in line with manufacturer's and organizational requirements PC9. Safely handle and move waste and debris PC10. Minimize health and safety risks to self and others due to own actions PC11. Seek clarifications, from supervisors or other authorized personnel in case of perceived risks PC12. Monitor the workplace and work processes for potential risks and threats PC13. Carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned PC14. Report hazards and potential risks/ threats to supervisors or other authorized personnel PC15. Participate in mock drills/ evacuation procedures organized at the workplace PC16. Undertake first aid, fire-fighting and emergency response training, if asked to do so PC17. Take action based on instructions in the event of fire, emergencies or accidents PC18. Follow organization procedures for shutdown and evacuation when required
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company /	The user/individual on the job needs to know and understand: KA1. Potential hazards, risks and threats based on nature of operations KA2. Organizational procedures for safe handling of equipment and machine operations

LSS/N8601

Maintain health, safety and security at workplace

organization and its processes)	KA3. Potential risks due to own actions and methods to minimize these KA4. Environmental management system related procedures at the workplace KA5. Layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points KA6. Potential accidents and emergencies and response to these scenarios KA7. Reporting protocol and documentation required KA8. Details of personnel trained in first aid, fire-fighting and emergency response KA9. Actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Occupational health and safety risks and KB2. Personal protective equipment and method of use KB3. Identification, handling and storage of hazardous substances KB4. Proper disposal system for waste and by-products KB5. Signage related to health and safety and their meaning KB6. Importance of sound health, hygiene and good habits KB7. Ill-effects of alcohol, tobacco and drugs
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to: SA1. Document and report any health and safety related incidents/ accidents
	Reading Skills
	The user/ individual on the job needs to know and understand how to: SA2. Read and comprehend manuals of operations SA3. Read all organizational and equipment related health and safety manuals and documents SA4. Read instructions, guidelines/procedures/rules related to the worksite and machine operations
	Oral Communication (Listening and Speaking Skills)
	The user/ individual on the job needs to know and understand how to: SA5. Give clear instructions to co-workers, subordinates and other personnel SA6. Use correct technical terms while interacting with supervisor
B. Professional Skills	Decision Making
	The user/ individual on the job needs to know and understand how to: SB1. Make an appropriate timely decision in responding to emergencies/accidents in line with organizational SB2. Evaluate and use correct PPE and other safety gear while at the workplace
	Plan and Organize
	The user/ individual on the job needs to know and understand how to: SB3. Work with supervisors/ team mates to carry out work related tasks SB4. Plan work according to the required schedule SB5. Keep work area free from potential hazards

LSS/N8601

Maintain health, safety and security at workplace

	Customer Centricity
	The user/ individual on the job needs to know and understand how to: SB6. Ensure and follow organizational procedures pertaining to health and safety are followed
	Problem Solving
	The user/ individual on the job needs to know and understand how to: SB7. Take appropriate actions during emergencies, accidents or fire at the workplace SB8. Resolve issues pertaining to malfunctions in machineries and report if required
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to: SB9. Identify emergency situations SB10. Identify cause effect relationship for the emergencies
	Critical Thinking
	The user/ individual on the job needs to know and understand how to: SB11. Analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

National Occupational Standard

Overview

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for complying with industry, regulatory and organizational requirements at the workplace.

LSS/N8701 Comply with industry, regulatory and organizational requirements

National Occupational Standard

Unit Code	LSS/N8701
Unit Title (Task)	Comply with industry, regulatory and organizational requirements
Description	This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required for complying with industry, regulatory and organizational requirements at the workplace.
Scope	This unit/task covers the following: Compliance with industry, regulatory and organizational requirements
Performance Criteria(PC) w.r.t. the Scope	
Element	Performance Criteria
Compliance with industry, regulatory and organizational requirements	To be competent, the user/individual on the job must be able to: PC1. Carry out work functions in accordance with legislation and regulations, organizational guidelines and procedures PC2. Seek and obtain clarifications on policies and procedures, from the supervisor or other authorized personnel PC3. Apply and follow these policies and procedures within the work practices PC4. Provide support to the supervisor and team members in enforcing these considerations PC5. Identify and report any possible deviation to these requirements
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: KA1. The importance of having an ethical and value-based approach to governance KA2. Benefits to the company and oneself due to practice of these procedures KA3. Specific to the industry/sector, know and understand: - Legal, regulatory and ethical requirements - Procedures to follow if someone does not meet the requirements KA4. Customer specific requirements mandated as a part of the work process
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Country / customer specific regulations for the sector and their importance KB2. Reporting procedure in case of deviations KB3. Limits of personal responsibility
Skills (S)	
A. Core Skills / Generic Skills	Writing Skills
	The user/ individual on the job needs to know and understand how to: SA1. Write and document appropriate technical forms, job cards, inspection sheets as required format of the company
	Reading Skills
	The user/ individual on the job needs to know and understand how to: SA2. Read and comprehend the organizational documents pertaining to rules and procedures SA3. Read and comprehend basic English to read and interpret indicators in the machine and operating manuals, job cards, visual cards, etc

LSS/N8701 Comply with industry, regulatory and organizational requirements

	SA4. Read in the local language as applicable
	SA5. Read and understand manuals, health and safety instructions, memos, reports, job cards etc
	Oral Communication (Listening and Speaking Skills)
B. Professional Skills	The user/ individual on the job needs to know and understand how to:
	SA6. Positively influence the team members into following procedures
	Decision Making
	The user/ individual on the job needs to know and understand how to:
	SB1. Take appropriate decisions related to responsibilities
	Plan and Organize
	The user/ individual on the job needs to know and understand how to:
	SB2. Plan and manage work routine based on company procedure
	Customer Centricity
	The user/ individual on the job needs to know and understand how to:
	SB3. Ensure and follow organizational procedures and policies
	Problem Solving
	The user/ individual on the job needs to know and understand how to:
	SB4. Evaluate and seek and obtain clarification from the superiors
	Analytical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB5. Apply balanced judgement to different situations
	Critical Thinking
	The user/ individual on the job needs to know and understand how to:
	SB6. Analyse, evaluate and apply the information gathered from observation, experience, reasoning, or communication to act efficiently

Qualifications Pack For CAD/CAM Operator –Goods And Garments

CRITERIA FOR ASSESSMENT OF TRAINEES

Job Role CAD/CAM Operator - Goods

Qualification Pack LSS/Q5101

Sector Skill Council Leather

Guidelines for Assessment

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below)
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criteria
5. To pass the Qualification Pack, every trainee should score a minimum of 50% aggregate
6. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOSs to pass the Qualification Pack

		Marks Allocation			
		Total Mark	Out Of	Theory	Skills Practical
1.LSS/N5101 (Operating the CAD/CAM software to design goods)	PC1. Ensure the work are is free from hazards as per the safety norm of the organization	45	3	1	2
	PC2. Ensure the cleanliness and orderliness of the work place as per the organizational standards		2	0	2
	PC3. Obtain and check the data on the specification sheet and carry out functions in line with the responsibilities of job role		3	1	2
	PC4. Set the machine parameters as per the manufacturers instruction		3	0	3
	PC5. Draw the pattern on the CAD software, if applicable, as per specification given		4	1	3
	PC6. Digitize the manual pattern on the CAD software, if applicable, as per specification given		2	0	2
	PC7. Perform grading of good, if applicable, as per measurements provided by client		3	1	2

Qualifications Pack For CAD/CAM Operator –Goods&Garments

	PC8. Perform modeling and testing of good on CAD, if applicable		3	1	2
	PC9. Adjust the pattern specification as per the product standards and allowances required		3	0	3
	PC10. Set parameters on CAM machine as per required output		3	1	2
	PC11. Ensure the design output is cut and handed over to the next department		3	1	2
	PC12. Ensure the work is saved as a back-up before shutting down the CAD machine		3	1	2
	PC13. Shut down, after use, the CAD/CAM system carefully and in accordance with company instructions		3	1	2
	PC14. Manage the helpers work as per the organizational standards and requirements		2	0	2
	PC15. Ensure the sheets are prepared for the next operation as per the standards specified by the organization		2	0	2
	PC16. Ensure the product is free from production and handling damages		3	1	2
		Total	45	10	35
2. LSS/N8501 (Maintain the work area, tools and machines)	PC1. Handle materials, machinery, equipment and tools safely and correctly	50	2	0	2
	PC2. Use correct lifting and handling procedures		2	0	2
	PC3. Use materials to minimize waste		3	1	2
	PC4. Prepare and organize work		3	1	2
	PC5. Maintain a clean and hazard free working area		3	1	2
	PC6. Deal with work interruptions		3	1	2
	PC7. Move about the workplace with care		2	0	2
