ACKNOWLEDGEMENT

The LSSC is grateful to all of those with whom it has had the pleasure to work during this project. Each of the members related to this project has provided extensive personal and professional guidance. LSSC sincerely expresses appreciation for the contribution of the Industry, Trade Experts and all others who contributed in building the curriculum.

Special acknowledgement by LSSC to the following expert members who have contributed immensely in this curriculum.

Sl. No.	Name & Designation Sh./Mr./Ms.	Organization	Expert Group Designation
1.	Dr. Swarna Kanth	Central Leather Research Institute	Principle scientist & Head
2.	Dr. Aravendan	National institute of Fashion Technology	Associate professor
3.	Mr. Murali	Central Footwear Training Institute	Director
4.	Dr. Anitha Manohar	National Institute of Fashion Technology	Director

BACKGROUND

- **Apprenticeship Training Scheme under Apprentice Act 1961**

The Apprentices Act enacted in 1961 with the objective of regulating the program of training of apprentices in the industry by utilizing the facilities available therein for imparting on-the-job training. The Act makes it obligatory for employers in specified industries to engage apprentices in designated trades and in optional trades to impart Apprenticeship Training on the job in industry to school leavers, graduates/ diploma and person having National Trade Certificate (ITI pass-outs) issued by National Council for Vocational Training (NCVT) to develop skilled manpower for the industry. There are five categories of apprentices namely; trade apprentice, graduate, technician, technician (vocational) apprentices and optional trade apprentice.

Qualifications and period of apprenticeship training of trade apprentices and optional trade apprentices vary from trade to trade. The apprenticeship training for trade apprentices and optional trade apprentices consists of basic training followed by practical training. At the end of the training, the apprentices are required to appear in a trade test conducted by NCVT and those successful in the trade tests are awarded the National Apprenticeship Certificate.

- **Changes in Industrial Scenario**

Recently we have seen huge changes in the Indian industry. The Indian Industry registered an impressive growth during the last decade and half. The number of industries in India have increased manifold in the last fifteen years especially in services and manufacturing sectors. It has been realized that India would become a prosperous and a modern state by raising skill levels, including by engaging a larger proportion of apprentices, will be critical to success; as will stronger collaboration between industry and the trainees to ensure the supply of skilled workforce and drive development through employment. Various initiatives to build up an adequate infrastructure for rapid industrialization and improve the industrial scenario in India have been taken.

- **Reformation**

The Apprentices Act, 1961 has been amended and brought into effect from 22nd December 2014 to make it more responsive to industry and youth. Key amendments are as given below:

- Prescription of number of apprentices to be engaged at establishment level instead of trade-wise.
- Establishment can also engage apprentices in optional trades which are not designated, with the discretion of entry level qualification and syllabus.
- Scope has been extended also to non-engineering occupations.
- Establishments have been permitted to outsource basic training in an institute of their choice.
- The burden of compliance on industry has been reduced significantly.

RATIONALE

Need for Apprenticeship in trade for Skiving Operator (Footwear)

1. The greater degree of relevance of the training with latest advancements of the industry will enhance the employability opportunities.
2. Ability to assess leather and other components for skiving footwear that is suitable as per design.
3. Ability to know the procedure of skiving with accurate thickness required.
4. Ability to operate and use Skiving machines (Single Skiving machine, Rampi/ Khurpi etc.)
5. Ability to check quality of skived component to ensure that the edge of leather is as per required depth and width.
6. Ability to use tools and machines properly for quality Skiving.
7. Ability to control leather and other wastage as much as possible.
8. Ability to choose correct skiving knife and templates for skiving operation.
9. Ability to detect product defects to achieve correct design, weight, finish, and dimensions as per design.
10. Ability to deliver complete product on time by reporting problems faced or anticipated well in advance.

JOB ROLE: Description

The Skiving Operation is a critical operation in footwear manufacturing. Skiving is done along the edges of the material, so that it can be folded and pasted with easy and accuracy. This operation greatly influences the appearance of the shoes. A highly skilled operator is required to do skiving as the skill required to skive is high and at the same time the opportunity to injure one while skiving is also high.

The Skiving operator must be capable to operate both upper and lower skiving machines and also skillful to perform skiving with accuracy according to the specifications. Skiving operator must also be capable to perform the maintenance of the grinder and the skiving disk knife.

The Skiving Operator must possess, concentration, good eye-hand co-ordination, monitoring ability, vision (including near vision, distance vision, color vision, peripheral vision), depth perception, quick response time or reflex, physical fitness, target oriented as well basic estimation and numerical skills.

GENERAL INFORMATION

1. Name of the Trade : SKIVING OPERATOR (FOOTWEAR)
2. Duration of Apprenticeship Training : 500Hrs+40Hrs=540 Hrs &
(Basic Training & Practical Training) 960 Hrs
3. Duration of Basic Training : Block–I: 500 Hrs + 40 Hrs Employability &
Entrepreneurship
Total duration of Basic Training : 540 Hrs (Additionally, 20 Hrs Digital
Literacy inputs given in online mode)
4. Duration of Practical Training : Block–II: 960 HRS, i.e. 36 weeks or 9
(On-job Training) months
5. Entry Qualification : Passed 5th class
6. Selection of Apprentices : The apprentices will be selected as per
Apprenticeship Act amended time to time
7. Rebate for ITI passed trainees : N.A.

Note: Industry may impart training as per above time schedule, however this is not fixed. The industry may adjust the duration of training considering the fact that all the components under the syllabus must be covered. However, the flexibility should be given keeping in view that no safety aspect is compromised and duration of industry training to be remain as 1 year

COURSE STRUCTURE

Training duration details: -

Time (in hours) Recommended Duration	540 hours	960 hours 36 weeks (9 months)
Basic Training	Block- I	-----
Practical Training (On-job training)	-----	Block- II

Components of Training	Months											
	1	2	3	4	5	6	7	8	9	10	11	12
Basic Training Block - I												
Practical Training Block - II												

CURRICULUM

BASIC TRAINING

(BLOCK – I)

DURATION: 500 hrs+40 hrs (Employability and Entrepreneurship Training) = 540 hrs (Additionally, 20 Hrs Digital Literacy inputs given in online mode)

Total duration of Basic Training: 540 Hrs

GENERAL INFORMATION

1. **Name of Trade** : Skiving Operator (Footwear)
2. **Hours of Instruction** : 500 Hrs+40 Hrs=540 Hrs.
3. **Batchsize** : 30
4. **Power Norms** : 6 KW for Workshop
4. **Space Norms** : 10 (x20=200sq) feet
5. **Examination** : The internal assessment will be held on the completion of Block-I.
6. **InstructorQualification** :

Trainer pre-requisites for job role: **Skiving Operator (Footwear)**

Sr. No.	Area	Details
1	Description	To deliver accredited training service, mapping to the curriculum detailed above, in accordance with the Qualification Pack “LSS/Q2401, Version 1.0”.
2	Personal Attributes	Aptitude for conducting training, and pre/ post work to ensure competent, employable candidates at the end of the training. Strong communication skills, interpersonal skills, ability to work as part of a team; a passion for quality and for developing others; well-organised and focused, eager to learn and keep oneself updated with the latest in the mentioned field.
3	Minimum Educational Qualifications	10 th with 18 months certificate course in Footwear (any) and above
4a	Domain Certification	Certified for Job Role: Skiving Operator (Footwear): Component mapped to QP: “LSS/Q2401, v1.0”. Minimum accepted score as per SSC guidelines is 80% on the SSC prescribed online theory assessment test based on an industry validated question bank.
4b	Platform Certification	Recommended that the Trainer is certified for the Job Role: “Trainer”, mapped to the Qualification Pack: “SSC/1402”. Minimum accepted score for the trainer is 80% as per SSC guidelines.
5	Experience	Minimum 6 years site experience with Skiving Operator (Footwear) Level-4 qualified.

Basic Training: Skiving Operator (Footwear) – LSS/Q2401

MODEL CURRICULUM

This program is aimed at training candidates for the job of a “Skiving Operator (Footwear)”, in the “Leather” Sector/ Industry and aims at building the following key competencies amongst the learner

Program Name	Skiving Operator (Footwear)		
Qualification Pack Name & Reference ID	Skiving Operator (Footwear) LSS/Q2401, V1.0		
Version No.	1.0	Version Update Date	15–06–2016
Pre-requisites to Training	Class V with 2-3 Years prior experience as helper in Footwear manufacturing.		
Training Outcomes	After completing this programme, participants will be able to: • Gain knowledge on overview of leather industry and generic skills: General instructions to importance of leather industry, general hazards in leather industry, basic health safety and hygiene precautions, generic skills to be followed in leather industry. • Perform pre-operational activities: Carry out the pre-operational procedures to ensure the correct operation of skiving tools and machines. • Learn and perform skiving operation: Carry out skiving operation appropriately using Rampi/ Khurpi and machine. • Handle work area, tools and machines appropriately: Ensure correct handling of material, tools and machines, maintain clean and hazard free work area, proper usage of cleaning equipment, maintain correct usage of workplace tools and equipment. • Contribute to achieve quality product in skiving process: Ensure the skiving is done accurately according to the specifications. Identify report and replace faulty materials and component parts which do not meet specification. • Become well versed with environment, health, safety& security at work: Well versed with health and safety measures in terms of personal safety and equipment safety relevant to skiving occupation. • Follow industrial regularity and organizational requirements: Carry out work in accordance with organizational guidelines and procedures, identify and report any possible deviation.		

Sr. No.	Module	Key Learning Outcomes	Equipment Required
1	Overview on Leather Industry and Generic Skills Theory Duration (hh:mm) 12:00 Practical Duration (hh:mm) 10:00	• Explain the importance of leather industry and describe leather manufacturing process • Explain general hazards or risk that can lead to accidents • Follow basic safety, health and hygiene measures • Wear and use PPE for safety • Carry out communication effectively with co-workers in writing as well as orally • Read the documents that are necessary for them to read to carry out operator's task	Chairs, Trainers desk and Computer, Student table, Projector, White projector screen, White board, Flip chart display stand, Safety Hazard signs, Newspaper, Stationery, PPE set

Sr. No.	Module	Key Learning Outcomes	Equipment Required
	Corresponding NOS Code Core skills/ Generic skills and Professional skills collated from all the NOS of the QP		
2	Carry-out Skiving Operation Using Rampi/ Khurpi Theory Duration (hh:mm) 03:00 Practical Duration (hh:mm) 200:00 Corresponding NOS Code LSS/N2401	• Make sure the work area is free from hazards • Obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of your job role • Ask questions to obtain more information on tasks when the instructions are unclear • Select and sort the tools and materials for the work • Set up the equipment and machineries as per the job requirement • Make sure that tools are safe and clean to use on the material • Agree and review your agreed upon work targets with your supervisor • Clean and sharpen the Rampi/ Khurpi using the sharpening stone • Carryout hand skiving operation as per the specification • Carryout folding post skiving based on the net pattern or base pattern, if required • Carryout visual inspection to ensure the accuracy of the skiving • Minimize wastage and dispose materials safely • Produce the required batch of components to match the job card and the company's production targets • Work in conformance to legal requirements, organizational policies and procedures	Steel rule, Job Card, Rampi/ Khurpi, Gloves, Safety shoe, Ear plug, Apron, Leather thickness measuring gauge, Sharpening stone, Adhesive, Leather, Folding hammer, Glass work table, Dust bin
3	Carry-out Skiving Operation Using Machine Theory Duration (hh:mm) 07:00 Practical Duration (hh:mm) 174:00 Corresponding NOS Code LSS/N2402	• Make sure the work area is free from hazards • Obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of your job role • Ask questions to obtain more information on tasks when the instructions are unclear • Select and sort the tools and materials for the work • Set up the equipment and machineries as per the job requirement • Make sure that tools are safe and clean to use on the material • Agree and review your agreed upon work targets with your supervisor • Minimize wastage and dispose materials safely • Produce the required batch of components to match the job card and the company's production targets • Work in conformance to legal requirements,	Leather cut pieces, Grinder, Skiving machine, Leather thickness measuring gauge, Gloves, Safety shoe, Ear plug, Apron

Sr. No.	Module	Key Learning Outcomes	Equipment Required
		organizational policies and procedures - Carry out visual inspection to ensure the products are free from handling defects - Perform skiving operations as per specification/instructions - Perform reporting and documentation - Perform sorting and placing	
4	Contribute to Achieving Product Quality in Skiving Operations Theory Duration (hh:mm) 02:00 Practical Duration (hh:mm) 30:00 Corresponding NOS Code LSS/N2403	- Set up and test skiving machines to ensure correct operation - Ensure the skiving is done accurately according to the specifications - Ensure the optimum condition of the disk knife and uniformity in skiving along the edges - Identify, report and replace faulty materials and component parts which do not meet specification - Follow reporting procedures where the cause of faults cannot be identified. - Maintain the required productivity and quality levels - Carry out quality checks at agreed intervals and in the approved way	Sample leather defects material, Inspection report documents, Leather thickness measuring gauge, Gloves, Safety shoe, Ear plug, Apron
5	Maintain the Work Area, Tools and Machines Theory Duration (hh:mm) 04:00 Practical Duration (hh:mm) 20:00 Corresponding NOS Code LSS/N8501	- Ensure housekeeping and safety - Maintain workplace, tools and equipment	One set of tools and facility for arranging tools, Skiving machines, Gloves, Safety shoe, Ear plug, Apron, Cleaning cloth, Water bucket, Cleaning materials, Mop, Dust bin, Broom, Grease Lubricate oil
6	Maintain Health, Safety and Security Requirements at Work Theory Duration (hh:mm) 10:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N8601	- Identify and correct (if possible) malfunctions in machinery and equipment - Minimize health and safety risks to self and others due to own actions - Monitor the workplace and work processes for potential risks and threats - Carry out periodic walk- through to keep work area free from hazards and obstructions, if assigned - Undertake first aid, fire-fighting and emergency response training, if asked to do so - Take action based on instructions in the event of fire, emergencies or accidents - Follow organisation procedures for shutdown and evacuation when required	First aid kit, Fire extinguisher, Gloves, Safety shoe, Ear plug, Apron
7	Comply with Industry, Regulatory and Organizational Requirements	Carry out work functions in accordance with legislation and regulations, organizational guidelines and procedures	Sample legal documents

Sr. No.	Module	Key Learning Outcomes	Equipment Required
	Theory Duration (hh:mm) 01:00 Practical Duration (hh:mm) 02:00 Corresponding NOS Code LSS/N8701	• Apply and follow policies and procedures within your work practices • Identify and report any possible deviation to ethical requirements	
	Total Duration Theory Duration 39:00 Practical Duration 461:00	Unique Equipment Required: Grinder, Skiving machine, Sample leather defects material, Inspection report documents, Leather thickness measuring gauge, Rampi/ Khurpi, Sharpening stone, Glass work table, Folding hammer, Adhesive, Gloves, Safety shoe, Ear plug, Apron, Cleaning cloth, Water bucket, Cleaning materials, Mop, Dust bin, Broom, Grease ,Lubricate oil, First aid kit, Fire extinguisher, Gloves, Safety shoe, Ear plug, Apron, Sample legal documents	

Grand Total Course Duration: 500Hours, 0 Minutes

ASSESSMENT CRITERIA

Assessment Criteria	
Job Role	Skiving Operator (Footwear)
Qualification Pack	LSS/Q2401, V1.0
Sector Skill Council	Leather

Sr. No.	Guidelines for Assessment
1	Criteria for assessment for each qualification pack will be created by the sector skill council. Each performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC
2	The assessment for the theory part will be based on knowledge bank of questions created by the SSC
3	Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training centre (as per assessment criteria below)
4	Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training centre based on these criteria
5	To pass the Qualification Pack, every candidate should score a minimum 50% of aggregate marks to successfully clear the assessment
6	In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

Assessable Outcome	Assessment Criteria	Total Mark	Out Of	Marks Allocation	
				Theory	Skills Practical
1. LSS/N2401: Carryout skiving footwear operations using Rampi/ Kurpi	PC1. Make sure the work area is free from hazards	100	4	0	4
	PC2. Obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of your job role		5	0	5
	PC3. Ask questions to obtain more information on tasks when the instructions you have are unclear		3	0	3
	PC4. Select and sort the tools and materials for the work •Rampi •Khurpi •Sharpening Stone • Adhesive • Beading Hammer/Folding Hammer • Measuring Scale		3	2	3
	PC5. Setup the tools for skiving as per the job requirement		5	2	3
	PC6. Make sure that tools are safe and clean to use on the material		3	2	3

	PC7. Agree and review your agreed upon work targets with your supervisor		3	1	2
	PC8. Seek feedback from supervisor on work related performance		3	2	1
	PC9. Ask for help and information from your colleagues, when necessary, in a polite manner		2	0	2
	PC10. Anticipate and respond to requests for assistance from colleagues willingly and politely		2	1	1
	PC11. Follow and utilize opportunities for learning		1.5	0.5	1
	PC12. Update and develop knowledge of the products		3	1	2
	PC13. Ask questions to obtain more information on tasks when the instructions you have are unclear		1	0	1
	PC14. Ensure if the Rampi/Khurpi is clean. If not, clean the Rampi/Khurpi.		3	1	2
	PC15. Ensure if the Rampi/Khurpi is sharp. If not, sharpen the Rampi/Khurpi using the sharpening stone.		4	1	3
	PC16. Adjust the width and thickness as per the specifications to perform skiving of the material (Marked Leather Sheets)		5	2	3
	PC17. Carryout skiving operation as per the specification		8	3	5
	PC18. Carryout folding post skiving based on the net pattern or base pattern, if required		8	3	5
	PC19. Carry out visual inspection to ensure the accuracy of the skiving machine		5	2	3
	PC20. Report risks/ problems likely to affect services to the relevant person promptly and accurately		4	2	2
	PC21. Produce the required batch of components to match the job card and the company's production targets		4	1	3
	PC22. Report defects in the tools and equipment you do not have the authority to repair		5	2	3
	PC23. Dispose of waste materials safely and return re-useable materials		3	1	2
	PC24. Carry out closedown procedures on completion of work		2	0	2
	PC25. Work in conformance to legal requirements, organizational policies and procedures		2.5	0.5	2
	PC26. Sort and place work to assist the next stage of production and minimize the risk of damage		2	0	2
	PC27. Carry out visual inspection to ensure the products are free from handling defects		2	0	2
	Total		100	30	70

2. LSS/N2402: Carry out footwear skiving operation using machine	PC1. Make sure the work area is free from hazards	100	6	2	4
	PC2. Obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of your job role		5	2	3
	PC3. Ask questions to obtain more information on tasks when the instructions you have are unclear		3	1	2
	PC4. Select and sort the tools and materials for the work		4	1	3
	PC5. Set up the equipment and machineries for lasting as per the job requirement		5	1	4
	PC6. Make sure that tools are safe and clean to use on the material		4	1	3
	PC7. Agree and review your agreed upon work targets with your supervisor		2	0	2
	PC8. Seek feedback from supervisor on work related performance		2	1	1
	PC9. Minimize wastage		5	2	3
	PC10. Produce the required batch of components to match the job card and the company's production targets		3	1	2
	PC11. Dispose of waste materials safely and return re-useable materials		4	1	3
	PC12. Work in conformance to legal requirements, organizational policies and procedures		3	1	2
	PC13. Ask questions to obtain more information on tasks when the instructions you have are unclear		1	0	1
	PC14. Carry out visual inspection to ensure the products are free from handling defects		3	1	2
	PC15. Ensure if the grinder is clean. If not, clean the grinder with grinder cleaner		5	2	3
	PC16. Ensure if the skiving disk blade is sharp. If not, sharpen the disk blade using the grinder		7	2	5
	PC17. Adjust the width and thickness as per the specifications to perform skiving of the material		5	1	4
	PC18. Carryout skiving operation as per the specification		7	2	5
	PC19. Carry out visual inspection to ensure the accuracy of the skiving machine		7	2	5
	PC20. Report risks/ problems likely to affect services to the relevant person promptly and accurately		5	2	3
	PC21. Complete forms, records and other documentation		2	1	1

	PC22. Follow company reporting procedures about defective tools and machines which affect work and report risks/ problems likely to affect services to the relevant person promptly and accurately		3	1	2
	PC23. Report defective machines, tools and/or equipment to the responsible person		2	1	1
	PC24. Sort and place work to the next stage of production and minimise the risk of damage		2	0	2
	PC25. Pass the skived uppers to the next stage in the manufacturing process after validation		5	1	4
	Total		100	30	70
3. LSS/N2403: Contribute to achieving product quality in footwear skiving operation	PC1. Set up and test skiving machines to ensure correct operation	50	3	1	2
	PC2. Operate the machine in accordance with machine and workplace standards		3	1	2
	PC3. Ensure the skiving is done accurately according to the specifications		3	1	2
	PC4. Ensure the optimum condition of the disk knife		3	1	2
	PC5. Ensure skiving is uniform even along the curvy edges		3	1	2
	PC6. Check the performance of the machine for signs of faulty operations and take action in accordance with workplace procedures		4	1	3
	PC7. Ensure materials and component parts meet specifications		4	1	3
	PC8. Report and replace faulty materials and component parts which do not meet specification		1.5	0.5	1
	PC9. Report faults outside personal responsibility to the appropriate person		1.5	0.5	1
	PC10. Identify faults in materials and products		3	1	2
	PC11. Identify causes of faults to maintain product quality		3	1	2
	PC12. Follow reporting procedures where the cause of faults cannot be identified		3	1	2
	PC13. Maintain the required productivity and quality levels		3	1	2
	PC14. Carry out quality checks at agreed intervals and in the approved way		4	1	3
	PC15. Identify process problems that effect product quality and report them promptly to appropriate people		4	1	3
	PC16. Identify faults in finished products and trace their causes		4	1	3

	Total		50	15	35
4. LSS/N8501: Maintain the work area, tools and machines	PC1. Handle materials, machinery, equipment and tools safely and correctly	50	2	0	2
	PC2. Use correct lifting and handling procedures		2	0	2
	PC3. Use materials to minimize waste		3	0	3
	PC4. Prepare and organize work		2	0	2
	PC5. Maintain a clean and hazard free working area		3	0	3
	PC6. Deal with work interruptions		2	0	2
	PC7. Move around the workplace with care		3	0	3
	PC8. Maintain tools and equipment		3	0	3
	PC9. Carry out running maintenance within agreed schedules		4	2	2
	PC10. Carry out maintenance and/or cleaning outside responsibility		2	1	1
	PC11. Report unsafe equipment and other dangerous occurrences		3	2	1
	PC12. Ensure that the correct machine guards are in place		1	0	1
	PC13. Work in a comfortable position with the correct posture		2	1	1
	PC14. Use cleaning equipment and methods appropriate for the work to be carried out		3	2	1
	PC15. Dispose of waste safely in the designated location		3	2	1
	PC16. Store cleaning equipment safely after use		2	1	1
	PC17. Complete and store accurate records and documentation		2	1	1
	PC18. Maintain proper lighting, ventilation to make sure general comfort is there while working		2	1	1
	PC19. Give inputs and assist in completing documentation		1	0	1
	PC20. Report the need for maintenance and/or cleaning outside your area of responsibility		1	0	1
	PC21. Ensure safe and correct handling of materials, equipment and tools		2	1	1
	PC22. Maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration		2	1	1
	Total		50	15	35
5. LSS/N8601: Maintain health, safety and security at workplace	PC1. Comply with health and safety related instructions applicable to the workplace	25	1	0	1
	PC2. Use and maintain personal protective equipment as per protocol		0.5	0	0.5

	PC3. Carry out own activities in line with approved guidelines and procedures		1	0	1
	PC4. Maintain a healthy lifestyle and guard against dependency on intoxicants		2	0	2
	PC5. Follow environment management system related procedures		5.5	5	0.5
	PC6. Identify and correct (if possible) malfunctions in machinery and equipment		0.5	0	0.5
	PC7. Report any service malfunctions that cannot be rectified		1	0	1
	PC8. Store materials and equipment in line with manufacturer's and organizational requirements		1	0	1
	PC9. Safely handle and move waste and debris		1	0	1
	PC10. Minimize health and safety risks to self and others due to own actions		0.5	0	0.5
	PC11. Seek clarifications, from supervisors or other authorized personnel in case of perceived risks		0.5	0	0.5
	PC12. Monitor the workplace and work processes for potential risks and threats		2	0	2
	PC13. Carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned		0.5	0	0.5
	PC14. Report hazards and potential risks/ threats to supervisors or other authorized personnel		5.5	5	0.5
	PC15. Participate in mock drills/ evacuation procedures organized at the workplace		0.5	0	0.5
	PC16. Undertake first aid, fire-fighting and emergency response training, if asked to do so		1	0	1
	PC17. Take action based on instructions in the event of fire, emergencies or accidents		0.5	0	0.5
	PC18. Follow organization procedures for shutdown and evacuation when required		0.5	0	0.5
	Total		25	10	15
6. LSS/N8701: Comply with industry, regulatory and organizational requirements	PC1. Carry out work functions in accordance with legislation and regulations, organizational guidelines and procedures	25	8	5	3
	PC2. Seek and obtain clarifications on policies and procedures, from the supervisor or other authorized personnel		3	0	3
	PC3. Apply and follow these policies and procedures within the work practices		2	0	2
	PC4. Provide support to the supervisor and team members in enforcing these considerations		9	5	4

	PC5. Identify and report any possible deviation to these requirements		3	0	3
	Total		25	10	15
	Grand Total	350	350	110	240
	Percentage Weightage:			31%	69%
	Minimum pass % to qualify (aggregate):			50%	

EQUIPMENT LIST

SKIING OPERATOR (FOOTWEAR) – LSS/Q2401

Sr. No	SSC	QP Code	Name of the QP	NSQF Level	Equipment Name	Minimum number of Equipment required (per batch of 30 trainees)	Unit Type	Is this a mandatory Equipment to be available at the Training Center (Yes/No)	Dimension/ Specification/ Description of the Equipment/ ANY OTHER REMARK
1	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Scissors	10	Nos	Yes	150mm and 300mm
2	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Bench grinder	1	Nos	Yes	STGB3715, 373 W, 3450 Rpm
3	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Skiving Machine	1	Nos	Yes	XCPLP3-400, 40 T, 1600*700mm, 3kw
4	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Leather Sample defect material	3	Nos	Yes	Leather Sample as per client spec
5	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Inspection report document	1	Nos	Yes	Sample report
6	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Rampi/ khurpi	4	Nos	Yes	2-inch width 6-inch blade length
7	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Sharpening stone	4	Nos	Yes	B&Q oil stone
8	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Glass work table	2	Nos	Yes	Standard
9	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Steel rule	2	Nos	Yes	Stainless Steel 6" - 15 NOS & 12"
10	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Adhesive	5	Nos	Yes	PU adhesive
11	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Folding Hammer	2	Nos	Yes	100 gms, 200 gms, 300 gms and 500 gms
12	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Leather thickness measuring gauge	1	Nos	No (Can be made available at OJT site)	- Measuring Range: 0 to 10 mm - Least count of dial gauge: 0.01

									• Diameter of anvil: 50 mm approximately • Diameter of indenter: 10 mm • Pressure on indenter: 100 gm/cm² • Throat depth: 50 mm
13	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Dust Bins	3	Nos	Yes	30 lts capacity
14	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Dust Pan with Handle & Broom	1	Nos	Yes	Long handle
15	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Dry and wet mop	Each one	Nos	Yes	Long handle
16	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Water Bucket	1	Nos	Yes	20 lts capacity
17	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	PPE set	2	Nos	Yes	Standard
18	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	First aid kit	1	Nos	Yes	Standard
19	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Fire Extinguisher	1	Nos	Yes	ABC Type

EMPLOYABILITY AND ENTREPRENEURSHIP SKILLS

MODEL CURRICULUM

Program Name	Employability and Entrepreneurship Skills		
Qualification Pack Name & Reference ID	ALL		
Version No.	1.0	Version Update Date	
Pre-requisites to Training	NA		
Training Outcomes	After completing this programme, participants will be able to: • Identify personal strengths and value systems: safe work habits, achievement motivation, time management, anger management, stress management. • Recall important tenets of digital literacy: fundamentals of computer terminology, parts of a computer and a keyboard, main applications of MS Office. • Discuss the essentials of matters pertaining to money: saving money, bank accounts, types of costs, investment options, insurance products, taxes. • Prepare for employment and self-employment: preparing for an interview, effective resume writing, basic workplace terminology. • Illustrate the basics of entrepreneurship and identify new business opportunities: effective leadership, effective speaking, effective listening, problem solving, business opportunities, types of entrepreneurs, entrepreneurial process and ecosystem, resilient entrepreneurs		

Sr. No.	Module	Key Learning Outcomes	Equipment Required
1	Introduction Theory Duration (hh:mm) 00:30 Practical Duration (hh:mm) 00:00	• Recognize the importance of general discipline in the class room (dos and don'ts) • List expectations from the program • Outline the objectives of the program	Laptop, white board, marker, projector
2	Personal Strengths and Value Systems Theory Duration (hh:mm) 04:00 Practical Duration (hh:mm) 04:00	• Identify common health issues and tips to prevent them • Discuss critical safety habits to be followed by employees • Understand motivation with the help of Maslow's Hierarchy of Needs • List the characteristics of entrepreneurs with achievement motivation • Discuss how to maintain a positive attitude • Discuss the role of attitude in self- analysis • List your strengths and weaknesses	Workbook exercises on health standards, Laptop, activity on strengths and weaknesses, white board, marker, projector

Sr. No.	Module	Key Learning Outcomes	Equipment Required
		- Describe the importance of honesty in entrepreneurs - List the characteristics of highly creative and innovative people - Discuss the benefits of time management - List the traits of effective time managers - Apply effective time management techniques - Apply tips for anger management and stress management	
3	Digital Literacy: A Recap Theory Duration (hh:mm) 01:00 Practical Duration (hh:mm) 03:00	- Identify the basic parts of a computer and keyboard - Recall basic computer terminology - Identify the functions of basic computer keys - Discuss the main applications of MS Office - Discuss the benefits of Microsoft Outlook - Identify the different types of e-commerce - Explain the benefits of e-commerce for retailers and customers - Discuss how the Digital India campaign will help boost e-commerce in India - Describe how you will sell a product or service on an e-commerce platform - Elaborate on the need for digital transactions - Identify the modes of digital transactions - Explain the uses of digital transactions	Laptop, white board, marker, projector, CPU, Monitor, keyboard, mouse, MS Office software, E-Wallet soft wares such as PayTM, SBI buddy etc.
4	Money Matters Theory Duration (hh:mm) 06:00 Practical Duration (hh:mm) 02:00	- Recognize the importance and benefits of saving money - Discuss the main types of bank accounts - Illustrate the process of opening a bank account - Differentiate between fixed and variable costs - Describe the main types of investment options - Identify the different types of insurance products and types of taxes - Discuss the uses of online banking - Describe the main types of electronic funds transfers	Laptop, white board, marker, projector, Passport, Driving License, Voter ID card, PAN card, Aadhaar card, sample KYC document, bank opening form (can be downloaded from the Internet)
5	Preparing for Employment and Self-Employment Theory Duration (hh:mm) 02:00 Practical Duration (hh:mm) 04:00	- Follow the steps to prepare for an interview - Create an effective Resume - Identify the most frequently asked interview questions - Discuss how to answer the most frequently asked interview questions - Identify basic workplace terminology	Laptop, white board, marker, projector, sample CVs, Mock interviews, role plays, role play briefs, FAQs, quiz on basic workplace technologies
6	Entrepreneurship Theory Duration (hh:mm) 04:30	- Discuss the concept and significance of entrepreneurship and the characteristics of an entrepreneur - List the qualities of an effective leader and the benefits of effective leadership	Laptop, white board, marker, projector, SWOT activity: pen and paper individual

Sr. No.	Module	Key Learning Outcomes	Equipment Required
	Practical Duration (hh:mm) 09:00	- List the traits of an effective team - Apply techniques of effective listening - Apply techniques of effective speaking - Solve problems by identifying important problem-solving traits - Discuss how to identify new business opportunities within your business - Describe the different types of entrepreneurs - State the characteristics of entrepreneurs - Recall entrepreneur success stories - Follow the entrepreneurial process and explain the entrepreneurship ecosystem - Recognize the purpose of the Make in India campaign - Identify key schemes to promote entrepreneurs - Define the relationship between entrepreneurship and risk appetite and entrepreneurship and resilience - Discuss the characteristics of a resilient entrepreneur - Identify techniques of dealing effectively with failure	exercise, charts, colored pens, Group Activity: poster making on entrepreneurship ecosystem. Activity: SMART Goal writing
	Total Duration Theory Duration 18:00 Practical Duration 22:00	Unique Equipment Required: Laptop, white board, marker, projector.	

Grand Total Course Duration: **40 Hours, 0 Minutes**

(This syllabus/ curriculum has been approved by **National Skill Development Corporation**)

PRACTICAL TRAINING (ON-JOB TRAINING)
(BLOCK II)

DURATION: 960 Hours
GENERAL INFORMATION

1. **Name of the Trade** : Skiving Operator (Footwear)
2. **Duration of On-Job Training** : 960 hours
3. **Batch size** : 30 (recommended)
4. **Examination** : i) The internal assessment will be held on completion of the block

ii) Leather Sector Skills Council (LSSC) will conduct exam at the end of Apprenticeship training
5. **Instructor Qualification** :
6. **Infrastructure for On-Job Training** : As per Tools & Equipment required for On-Job Training

Trainer Prerequisites for Job role: “Skiving Operator (Footwear)”

Sr. No.	Area	Details
1	Description	To deliver accredited training service, mapping to the curriculum detailed above, in accordance with the Qualification Pack “LSS/Q2401, Version 1.0”.
2	Personal Attributes	Aptitude for conducting training, and pre/ post work to ensure competent, employable candidates at the end of the training. Strong communication skills, interpersonal skills, ability to work as part of a team; a passion for quality and for developing others; well-organised and focused, eager to learn and keep oneself updated with the latest in the mentioned field.
3	Minimum Educational Qualifications	10th with 18 months certificate course in Footwear (any) and above
4a	Domain Certification	Certified for Job Role: “Skiving Operator (Footwear)”, mapped to QP: “LSS/Q2401, Version 1.0”. The minimum accepted score should be as per the decision of the respective SSC guidelines.
4b	Platform Certification	Recommended that the Trainer is certified for the Job Role: “Trainer”, mapped to the Qualification Pack: “SSC/1402”. Minimum accepted score for the trainer is 80% as per SSC guidelines.
5	Experience	Minimum 6 years site experience with Skiving Operator (Footwear) Level-4 qualified

BROAD SKILL COMPONENT

BROAD SKILL COMPONENT TO BE COVERED DURING ON-JOB TRAINING

BLOCK – II

1. Develop reading and writing Skills for understanding the specifications for different Skiving thickness measurements and methods for doing Skiving operations.
2. Learn to carryout Pre operational checks required for Skiving operations and follow standard procedures for doing Skiving operations.
3. To understand different Skiving operational methods that go in to the manufacturing of footwear products to achieve correct Quality and Productivity.
4. Spot difficulties with respect to practicality of different widths and thickness to achieve correct Quality for each style as per the sample and specifications.
5. Understand the different working methods of Skiving operations.
6. Develop the Skill of Skiving the Leather and Non Leather material.
7. Learn to understand the function of Skiving Machine and their different parts.
8. To understand the basic units of measurements with respect to the Skiving operations
9. Develop visual Inspection skill to ensure the accuracy of the skiving as per the specifications and sample
10. To know the different types of Leather/ Non-Leather material and their properties of stretching while doing Skiving operation.
11. Learn to use and maintain the Skiving machine, Skiving disc blade & Grinder etc.
12. Learn to read the Job card and also to identify the different components to perform the Skiving operations.
13. Able to deduct product/manufacturing defects and control manufacturing loses.
14. To learn the reporting and documentation methods of Skiving operations

Skiving Operator (Footwear) – LSS/Q2401

Model Curriculum

Key Learning Outcomes:

Program Name	Skiving Operator (Footwear)		
Qualification Pack Name & Reference ID	Skiving Operator (Footwear) LSS/Q2401, V1.0		
Version No.	1.0	Version Update Date	16-09-2016
Pre-requisites to Training	Class V with 2-3 Years prior experience as helper in footwear manufacturing.		
Training Outcomes	After completing this programme, participants will be able to: • Gain knowledge on overview of leather industry and generic skills: General instructions to importance of leather industry, general hazards in leather industry, basic health safety and hygiene precautions, generic skills to be followed in leather industry. • Perform pre-operational activities: Carry out the pre-operational procedures to ensure the correct operation of skiving tools and machines. • Learn and perform skiving operation: Carry out skiving operation appropriately using Rampi/ Khurpi and machine. • Handle work area, tools and machines appropriately: Ensure correct handling of material, tools and machines, maintain clean and hazard free work area, proper usage of cleaning equipment, maintain correct usage of workplace tools and equipment. • Contribute to achieve quality product in skiving process: Ensure the skiving is done accurately according to the specifications. Identify report and replace faulty materials and component parts which do not meet specification. • Become well versed with environment, health, safety& security at work: Well versed with health and safety measures in terms of personal safety and equipment safety relevant to skiving occupation. • Follow industrial regularity and organizational requirements: Carry out work in accordance with organizational guidelines and procedures, identify and report any possible deviation.		

Sr. No.	Module	Key Learning Outcomes	Equipment Required
Week 1	Preparatory Work Session 1 Theory Duration (hh:mm) 04:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code	The trainee will be able to explain: • Procedures to operate the upper skiving and bottom skiving machines • Procedures and concept of the operations followed in the skiving process • Knowledge of the parameter setting in the skiving machines(thickness, width) The trainee will be able to explain: • Make sure the work area is free from hazards • Obtain and check the data on the work ticket or job card and carry out functions in line with the	Steel rule, Job Card, Rampi/ Khurpi, Skiving machine, Gloves, Safety shoe, Ear plug, Apron, Leather thickness measuring gauge, Sharpening stone, Adhesive, Leather, Folding hammer, Glass work table, Dust bin

Sr. No.	Module	Key Learning Outcomes	Equipment Required
	LSS/N2401	responsibilities of your job role - Ask questions to obtain more information on tasks when the instructions you have are unclear - Select and sort the tools and materials for the work	
Week 2	Preparatory Work Session 2 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N2402	The trainee will be able to: - Set up the equipment and machineries for lasting as per the job requirement - Make sure that tools are safe and clean to use on the material - Agree and review your agreed upon work targets with your supervisor - Seek feedback from supervisor on work related performance - Minimize wastage	Steel rule, Job Card, Rampi/ Khurpi, Skiving machine, Gloves, Safety shoe, Ear plug, Apron, Leather thickness measuring gauge, Sharpening stone, Adhesive, Leather, Folding hammer, Glass work table, Dust bin
Week 3	Preparatory Work Session 3 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N2402	The trainee will be able to: - Produce the required batch of components to match the job card and the company's production targets - Dispose of waste materials safely and return re-useable materials - Work in conformance to legal requirements, organizational policies and procedures - Ask questions to obtain more information on tasks when the instructions you have are unclear - Carry out visual inspection to ensure the products are free from handling defects	Steel rule, Job Card, Rampi/ Khurpi, Skiving machine, Gloves, Safety shoe, Ear plug, Apron, Leather thickness measuring gauge, Sharpening stone, Adhesive, Leather, Folding hammer, Glass work table, Dust bin
Week 4	Machine Skiving Session 1 Theory Duration (hh:mm) 04:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N2402	The trainee will be able to explain: - The ways by which material can be contaminated or damaged during processing and the effects on quality - Knowledge of the skiving disk blade and procedure to sharpen it - Knowledge of the grinder and its maintenance The trainee will be able to: - Ensure if the grinder is clean. If not, clean the grinder with grinder cleaner - Ensure if the skiving disk blade is sharp. If not, sharpen the disk blade using the grinder	Steel rule, Job Card, Rampi/ Khurpi, Skiving machine, Gloves, Safety shoe, Ear plug, Apron, Leather thickness measuring gauge, Sharpening stone, Adhesive, Leather, Folding hammer, Glass work table, Dust bin
Week 5	Machine Skiving Session 2 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm)	The trainee will be able to: - Read the job card to understand the required width and thickness asked for a given material - Communicate with your supervisor for the job card specification if any doubt - Check the skiving machine for workability and functionality with a sample material - Adjust the width and thickness as per the specifications to perform skiving of the material	Steel rule, Job Card, Rampi/ Khurpi, Skiving machine, Gloves, Safety shoe, Ear plug, Apron, Leather thickness measuring gauge, Sharpening stone, Adhesive, Leather,

Sr. No.	Module	Key Learning Outcomes	Equipment Required
	25:00 Corresponding NOS Code LSS/N2402		Folding hammer, Glass work table, Dust bin
Week 6	Machine Skiving Session 3 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N2402	The trainee will be able to: • Carryout skiving operation as per the specification • Identify the tools and equipment required for skiving operation • Check the condition of the tools and equipments to ensure if it is in good condition • Carry out visual inspection to ensure the accuracy of the skiving machine	Steel rule, Job Card, Rampi/ Khurpi, Skiving machine, Gloves, Safety shoe, Ear plug, Apron, Leather thickness measuring gauge, Sharpening stone, Adhesive, Leather, Folding hammer, Glass work table, Dust bin
Week 7	Manual Skiving Session 4 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N2402	The trainee will be able to: • Ensure if the grinder is clean. If not, clean the grinder with grinder cleaner • Collect the required tools and accessories for manual skiving operation • Ensure if the skiving knife is sharp. • Sharpen the skiving knife using the grinder if it is not sharp	Steel rule, Job Card, Rampi/ Khurpi, Skiving machine, Gloves, Safety shoe, Ear plug, Apron, Leather thickness measuring gauge, Sharpening stone, Adhesive, Leather, Folding hammer, Glass work table, Dust bin
Week 8	Manual Skiving Session 5 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N2402	The trainee will be able to: • Read the job card to understand the required width and thickness asked for a given material • Communicate with your supervisor for the job card specification if any doubt • Check the skiving machine for workability and functionality with a sample material • Adjust the width and thickness as per the specifications to perform skiving of the material	Steel rule, Job Card, Rampi/ Khurpi, Skiving machine, Gloves, Safety shoe, Ear plug, Apron, Leather thickness measuring gauge, Sharpening stone, Adhesive, Leather, Folding hammer, Glass work table, Dust bin
Week 9	Manual Skiving Session 6 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code	The trainee will be able to: • Carryout manual skiving operation as per the specification • Identify the tools and equipment required for skiving operation • Check the condition of the tools and equipments to ensure if it is in good condition • Carry out visual inspection to ensure the accuracy of the manual skiving	Steel rule, Job Card, Rampi/ Khurpi, Skiving machine, Gloves, Safety shoe, Ear plug, Apron, Leather thickness measuring gauge, Sharpening stone, Adhesive, Leather, Folding hammer, Glass work table, Dust bin

Sr. No.	Module	Key Learning Outcomes	Equipment Required
	LSS/N2402		
Week 10	Reporting and Documentation Session 1 Theory Duration (hh:mm) 03:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N2402	The trainee will be able to explain: • Safely performing skiving without getting injured in the process • Knowledge of the leather and basic units of measurements knowledge The trainee will be able to: • Report risks/ problems likely to affect services to the relevant person promptly and accurately • Complete forms, records and other documentation • Follow company reporting procedures about defective tools and machines which affect work and report risks/ problems likely to affect services to the relevant person promptly and accurately • Report defective machines, tools and/or equipment to the responsible person	Sample reports and documents, Stationery
Week 11	Sorting and Placing Session 2 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N2402	The trainee will be able to: • Sort and place work to the next stage of production and minimize the risk of damage • Pass the skived uppers to the next stage in the manufacturing process after validation	Skived uppers, Gloves, Safety shoe, Ear plug, Apron, Leather thickness measuring gauge
Week 12	Achieve Product Quality Session 1 Theory Duration (hh:mm) 03:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N2403	The trainee will be able to explain: • Different techniques and methods used to detect faults in the skiving process • Types of adjustments suitable for specific types of faults • Importance of product checks • Difference between correctable and non-correctable faults The trainee will be able to: • Set up and test skiving machines to ensure correct operation • Operate the machine in accordance with machine and workplace standards • Ensure the skiving is done accurately according to the specifications	Sample leather defects material, Inspection report documents, Leather thickness measuring gauge, Gloves, Safety shoe, Ear plug, Apron
Week 13	Achieve Product Quality Session 2 Theory Duration (hh:mm)	The trainee will be able to: • Ensure the optimum condition of the disk knife • Ensure skiving is uniform even along the curvy edges • Check the performance of the machine for	Sample leather defects material, Inspection report documents, Leather thickness measuring

Sr. No.	Module	Key Learning Outcomes	Equipment Required
	00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N2403	signs of faulty operations and take action in accordance with workplace procedures • Ensure materials and component parts meet specifications • Report and replace faulty materials and component parts which donot meet specification	gauge, Gloves, Safety shoe, Ear plug, Apron
Week 14	Achieve Product Quality Session 3 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N2403	The trainee will be able to: • Report faults outside personal responsibility to the appropriate person • Identify faults in materials and products • Identify causes of faults to maintain product quality • Follow reporting procedures where the cause of faults cannot be identified	Sample leather defects material, Inspection report documents, Leather thickness measuring gauge, Gloves, Safety shoe, Ear plug, Apron
Week 15	Achieve Product Quality Session 4 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N2403	The trainee will be able to: • Maintain the required productivity and quality levels • Carry out quality checks at agreed intervals and in the approved way • Identify process problems that effect product quality and report them promptly to appropriate people • Identify faults in finished products and trace their causes	Sample leather defects material, Inspection report documents, Leather thickness measuring gauge, Gloves, Safety shoe, Ear plug, Apron
Week 16	Maintain Work area Session 1 Theory Duration (hh:mm) 04:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N8501	The trainee will be able to explain: • Work instructions and specifications and interpret them accurately • Method to make use of the information detailed in specifications and instructions • Relation between work role and the overall manufacturing process • The importance of good time keeping and attendance • The importance of minimized production costs The trainee will be able to: • Handle work area safely and correctly • Use correct lifting and handling procedures • Use materials to minimize waste	One set of tools and facility for arranging tools, Skiving machines, Gloves, Safety shoe, Ear plug, Apron, Cleaning cloth, Water bucket, Cleaning materials, Mop, Dust bin, Broom, Grease, Lubricate oil
Week 17	Maintain Work area Session 2 Theory Duration (hh:mm)	The trainee will be able to: • Prepare and organize work • Maintain a clean and hazard free working area • Deal with work interruptions • Move around the workplace with care	One set of tools and facility for arranging tools, Skiving machines, Gloves, Safety shoe, Ear

Sr. No.	Module	Key Learning Outcomes	Equipment Required
	00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N8501		plug, Apron, Cleaning cloth, Water bucket, Cleaning materials, Mop, Dust bin, Broom, Grease, Lubricate oil
Week 18	Maintain Work area Session 3 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N8501	The trainee will be able to: • Work in a comfortable position with the correct posture • Maintain proper lighting, ventilation to make sure general comfort is there while working • Maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration	One set of tools and facility for arranging tools, Skiving machines, Gloves, Safety shoe, Ear plug, Apron, Cleaning cloth, Water bucket, Cleaning materials, Mop, Dust bin, Broom, Grease, Lubricate oil
Week 19	Maintain the tools Session 1 Theory Duration (hh:mm) 04:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N8501	The trainee will be able to explain: • The importance of running maintenance and regular cleaning • Effects of contamination on products i.e. Machine oil, dirt • Common faults with equipment and the method to rectify • Maintenance procedures and manufacturer's instructions The trainee will be able to: • Handle tools and materials safely and correctly • Maintain tools and equipment • Carry out running maintenance within agreed schedules	One set of tools and facility for arranging tools, Skiving machines, Gloves, Safety shoe, Ear plug, Apron, Cleaning cloth, Water bucket, Cleaning materials, Mop, Dust bin, Broom, Grease, Lubricate oil
Week 20	Maintain the Skiving tools Session 2 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N8501	The trainee will be able to: • Carry out maintenance and/or cleaning outside responsibility • Report unsafe equipment and other dangerous occurrences • Use cleaning equipment and methods appropriate for the work to be carried out • Dispose of waste safely in the designated location	One set of tools and facility for arranging tools, Skiving machines, Gloves, Safety shoe, Ear plug, Apron, Cleaning cloth, Water bucket, Cleaning materials, Mop, Dust bin, Broom, Grease, Lubricate oil
Week 21	Maintain the Skiving tools Session 3 Theory Duration (hh:mm)	The trainee will be able to: • Store cleaning equipment safely after use • Complete and store accurate records and documentation • Ensure safe and correct handling of materials,	One set of tools and facility for arranging tools, Skiving machines, Gloves, Safety shoe, Ear

Sr. No.	Module	Key Learning Outcomes	Equipment Required
	00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N8501	equipment and tools	plug, Apron, Cleaning cloth, Water bucket, Cleaning materials, Mop, Dust bin, Broom, Grease, Lubricate oil
Week 22	Maintenance the Skiving machines Session 1 Theory Duration (hh:mm) 04:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N8501	The trainee will be able to explain: • Hazards likely to be encountered when conducting routine maintenance • Different types of cleaning equipment and substances and their use • Safe working practices for cleaning and the method of carrying them out • The production process and the specific work activities that relate to the whole process The trainee will be able to: • Handle machines safely and correctly • Carry out running maintenance within agreed schedules • Report unsafe machine and other dangerous occurrences • Ensure that the correct machine guards are in place	One set of tools and facility for arranging tools, Skiving machines, Gloves, Safety shoe, Ear plug, Apron, Cleaning cloth, Water bucket, Cleaning materials, Mop, Dust bin, Broom, Grease, Lubricate oil
Week 23	Maintenance the Skiving machines Session 2 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N8501	The trainee will be able to: • Use cleaning equipment and methods appropriate for the work to be carried out • Complete and store accurate records and documentation • Report the need for maintenance and/or cleaning outside your area of responsibility	One set of tools and facility for arranging tools, Skiving machines, Gloves, Safety shoe, Ear plug, Apron, Cleaning cloth, Water bucket, Cleaning materials, Mop, Dust bin, Broom, Grease, Lubricate oil
Week 24	Maintain health at workplace Session 1 Theory Duration (hh:mm) 03:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N8601	The trainee will be able to explain: • Occupational health and safety risks • Personal protective equipment and method of use • Identification, handling and storage of hazardous substances The trainee will be able to: • Comply with health related instructions applicable to the workplace • Carry out own activities in line with approved guidelines and procedures	First aid kit, Fire extinguisher, Gloves, Safety shoe, Ear plug, Apron

Sr. No.	Module	Key Learning Outcomes	Equipment Required
Week 25	Maintain health at workplace Session 2 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N8601	The trainee will be able to: • Maintain a healthy lifestyle and guard against dependency on intoxicants • Minimize health and safety risks to self and others due to own actions • Seek clarifications, from supervisors or other authorized personnel in case of perceived risks	First aid kit, Fire extinguisher, Gloves, Safety shoe, Ear plug, Apron
Week 26	Maintain health at workplace Session 3 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N8601	The trainee will be able to: • Carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned • Identify the different hazard and potential risk at workplace • Report hazards and potential risks/ threats to supervisors or other authorized personnel	First aid kit, Fire extinguisher, Gloves, Safety shoe, Ear plug, Apron
Week 27	Maintain safety at workplace Session 1 Theory Duration (hh:mm) 03:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N8601	The trainee will be able to explain: • Proper disposal system for waste and by-products • Signage related to health and safety and their meaning The trainee will be able to: • Comply with safety related instructions applicable to the workplace • Use and maintain personal protective equipment as per protocol	First aid kit, Fire extinguisher, Gloves, Safety shoe, Ear plug, Apron
Week 28	Maintain safety at workplace Session 2 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code	The trainee will be able to: • Carry out own activities in line with approved guidelines and procedures • Follow environment management system related procedures • Identify and correct (if possible) malfunctions in machinery and equipment • Report any service malfunctions that cannot be rectified	First aid kit, Fire extinguisher, Gloves, Safety shoe, Ear plug, Apron

Sr. No.	Module	Key Learning Outcomes	Equipment Required
	LSS/N8601		
Week 29	Maintain safety at workplace Session 3 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N8601	The trainee will be able to: • Store materials and equipment in line with manufacturer's and organizational requirements • Safely handle and move waste and debris • Monitor the workplace and work processes for potential risks and threats	First aid kit, Fire extinguisher, Gloves, Safety shoe, Ear plug, Apron
Week 30	Maintain security at workplace Session 1 Theory Duration (hh:mm) 03:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N8601	The trainee will be able to explain: • Importance of sound health, hygiene and good habits • Ill-effects of alcohol, tobacco and drugs The trainee will be able to: • Comply with security related instructions applicable to the workplace • Carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned •	First aid kit, Fire extinguisher, Gloves, Safety shoe, Ear plug, Apron
Week 31	Maintain security at workplace Session 2 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N8601	The trainee will be able to: • Report hazards and potential risks/ threats to supervisors or other authorized personnel • Participate in mock drills/ evacuation procedures organized at the workplace	First aid kit, Fire extinguisher, Gloves, Safety shoe, Ear plug, Apron
Week 32	Maintain security at workplace Session 3 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00	The trainee will be able to: • Undertake first aid, fire-fighting and emergency response training, if asked to do so • Take action based on instructions in the event of fire, emergencies or accidents • Follow organization procedures for shutdown and evacuation when required	First aid kit, Fire extinguisher, Gloves, Safety shoe, Ear plug, Apron

Sr. No.	Module	Key Learning Outcomes	Equipment Required
	Corresponding NOS Code LSS/N8601		
Week 33	Comply with industry, regulatory and organizational requirements Session 1 Theory Duration (hh:mm) 03:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N8701	The trainee will be able to explain: - Country / customer specific regulations for the sector and their importance - Reporting procedure in case of deviations - Limits of personal responsibility The trainee will be able to: - Carry out work functions in accordance with legislation and regulations, organizational guidelines and procedures - Seek and obtain clarifications on policies and procedures, from the supervisor or other authorized personnel	Sample legal documents
Week 34	Comply with industry, regulatory and organizational requirements Session 2 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 25:00 Corresponding NOS Code LSS/N8701	The trainee will be able to: - Apply and follow these policies and procedures within the work practices - Provide support to the supervisor and team members in enforcing these considerations - Identify and report any possible deviation to these requirements	Sample legal documents
Week 35	Revision 1 Theory Duration (hh:mm) 02:00 Practical Duration (hh:mm) 40:00 Corresponding NOS Code LSS/N2401	- Summarize the skills learned in previous weeks - Attend all the previous exercises which are mixed - Make them ready to adopt a career in this field	All the equipment as mentioned above for Skiving Operator (Footwear)
Week 36	Revision 2 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 30:00	- Summarize the skills learned in previous weeks - Attend all the previous exercises which are mixed - Make them ready to adopt a career in this field	All the equipment as mentioned above for Skiving Operator (Footwear)

Sr. No.	Module	Key Learning Outcomes	Equipment Required
	Corresponding NOS Code LSS/N2401		
	Total Duration 960:00 Theory Duration 40:00 Practical Duration 920:00	Unique Equipment Required: Grinder, Skiving machine, Sample leather defects material, Inspection report documents, Leather thickness measuring gauge, Rampi/ Khurpi, Sharpening stone, Glass work table, Folding hammer, Adhesive, Gloves, Safety shoe, Ear plug, Apron, Cleaning cloth, Water bucket, Cleaning materials, Mop, Dust bin, Broom, Grease ,Lubricate oil, First aid kit, Fire extinguisher, Gloves, Safety shoe, Ear plug, Apron, Sample legal documents	

Grand Total Course Duration: **960 Hours, 0 Minutes**

ASSESSMENT CRITERIA

Assessment Criteria	
Job Role	Skiving Operator (Footwear)
Qualification Pack	LSS/Q2401, V1.0
Sector Skill Council	Leather

Sr. No.	Guidelines for Assessment
1	Criteria for assessment for each qualification pack will be created by the sector skill council. Each performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC
2	The assessment for the theory part will be based on knowledge bank of questions created by the SSC
3	Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training centre (as per assessment criteria below)
4	Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training centre based on these criteria
5	To pass the Qualification Pack, every candidate should score a minimum 50% of aggregate marks to successfully clear the assessment
6	In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

Assessable Outcome	Assessment Criteria	Total Mark	Out Of	Marks Allocation	
				Theory	Skills Practical
1. LSS/N2401: Carryout skiving footwear operations using Rampi/ Kurpi	PC1. Make sure the work area is free from hazards	100	4	0	4
	PC2. Obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of your job role		5	0	5
	PC3. Ask questions to obtain more information on tasks when the instructions you have are unclear		3	0	3
	PC4. Select and sort the tools and materials for the work •Rampi •Khurpi •Sharpening Stone • Adhesive • Beading Hammer/Folding Hammer • Measuring Scale		3	2	3
	PC5. Setup the tools for skiving as per the job requirement		5	2	3
	PC6. Make sure that tools are safe and		3	2	3

	clean to use on the material				
	PC7. Agree and review your agreed upon work targets with your supervisor		3	1	2
	PC8. Seek feedback from supervisor on work related performance		3	2	1
	PC9. Ask for help and information from your colleagues, when necessary, in a polite manner		2	0	2
	PC10. Anticipate and respond to requests for assistance from colleagues willingly and politely		2	1	1
	PC11. Follow and utilize opportunities for learning		1.5	0.5	1
	PC12. Update and develop knowledge of the products		3	1	2
	PC13. Ask questions to obtain more information on tasks when the instructions you have are unclear		1	0	1
	PC14. Ensure if the Rampi/Khurpi is clean. If not, clean the Rampi/Khurpi.		3	1	2
	PC15. Ensure if the Rampi/Khurpi is sharp. If not, sharpen the Rampi/Khurpi using the sharpening stone.		4	1	3
	PC16. Adjust the width and thickness as per the specifications to perform skiving of the material (Marked Leather Sheets)		5	2	3
	PC17. Carryout skiving operation as per the specification		8	3	5
	PC18. Carryout folding post skiving based on the net pattern or base pattern, if required		8	3	5
	PC19. Carry out visual inspection to ensure the accuracy of the skiving machine		5	2	3
	PC20. Report risks/ problems likely to affect services to the relevant person promptly and accurately		4	2	2
	PC21. Produce the required batch of components to match the job card and the company's production targets		4	1	3
	PC22. Report defects in the tools and equipment you do not have the authority to repair		5	2	3
	PC23. Dispose of waste materials safely and return re-useable materials		3	1	2
	PC24. Carry out closedown procedures on completion of work		2	0	2
	PC25. Work in conformance to legal requirements, organizational policies and procedures		2.5	0.5	2
	PC26. Sort and place work to assist the next stage of production and minimize the risk of damage		2	0	2
	PC27. Carry out visual inspection to ensure the products are free from handling defects		2	0	2

	Total		100	30	70
2. LSS/N2402: Carry out footwear skiving operation using machine	PC1. Make sure the work area is free from hazards	100	6	2	4
	PC2. Obtain and check the data on the work ticket or job card and carry out functions in line with the responsibilities of your job role		5	2	3
	PC3. Ask questions to obtain more information on tasks when the instructions you have are unclear		3	1	2
	PC4. Select and sort the tools and materials for the work		4	1	3
	PC5. Set up the equipment and machineries for lasting as per the job requirement		5	1	4
	PC6. Make sure that tools are safe and clean to use on the material		4	1	3
	PC7. Agree and review your agreed upon work targets with your supervisor		2	0	2
	PC8. Seek feedback from supervisor on work related performance		2	1	1
	PC9. Minimize wastage		5	2	3
	PC10. Produce the required batch of components to match the job card and the company's production targets		3	1	2
	PC11. Dispose of waste materials safely and return re-useable materials		4	1	3
	PC12. Work in conformance to legal requirements, organizational policies and procedures		3	1	2
	PC13. Ask questions to obtain more information on tasks when the instructions you have are unclear		1	0	1
	PC14. Carry out visual inspection to ensure the products are free from handling defects		3	1	2
	PC15. Ensure if the grinder is clean. If not, clean the grinder with grinder cleaner		5	2	3
	PC16. Ensure if the skiving disk blade is sharp. If not, sharpen the disk blade using the grinder		7	2	5
	PC17. Adjust the width and thickness as per the specifications to perform skiving of the material		5	1	4
	PC18. Carryout skiving operation as per the specification		7	2	5
	PC19. Carry out visual inspection to ensure the accuracy of the skiving machine		7	2	5
	PC20. Report risks/ problems likely to affect services to the relevant person promptly and accurately		5	2	3
	PC21. Complete forms, records and other documentation		2	1	1

	PC22. Follow company reporting procedures about defective tools and machines which affect work and report risks/ problems likely to affect services to the relevant person promptly and accurately		3	1	2
	PC23. Report defective machines, tools and/or equipment to the responsible person		2	1	1
	PC24. Sort and place work to the next stage of production and minimise the risk of damage		2	0	2
	PC25. Pass the skived uppers to the next stage in the manufacturing process after validation		5	1	4
	Total		100	30	70
3. LSS/N2403: Contribute to achieving product quality in footwear skiving operation	PC1. Set up and test skiving machines to ensure correct operation	50	3	1	2
	PC2. Operate the machine in accordance with machine and workplace standards		3	1	2
	PC3. Ensure the skiving is done accurately according to the specifications		3	1	2
	PC4. Ensure the optimum condition of the disk knife		3	1	2
	PC5. Ensure skiving is uniform even along the curvy edges		3	1	2
	PC6. Check the performance of the machine for signs of faulty operations and take action in accordance with workplace procedures		4	1	3
	PC7. Ensure materials and component parts meet specifications		4	1	3
	PC8. Report and replace faulty materials and component parts which do not meet specification		1.5	0.5	1
	PC9. Report faults outside personal responsibility to the appropriate person		1.5	0.5	1
	PC10. Identify faults in materials and products		3	1	2
	PC11. Identify causes of faults to maintain product quality		3	1	2
	PC12. Follow reporting procedures where the cause of faults cannot be identified		3	1	2
	PC13. Maintain the required productivity and quality levels		3	1	2
	PC14. Carry out quality checks at agreed intervals and in the approved way		4	1	3
	PC15. Identify process problems that effect product quality and report them promptly to appropriate people		4	1	3
	PC16. Identify faults in finished products and trace their causes		4	1	3

	Total		50	15	35
4. LSS/N8501: Maintain the work area, tools and machines	PC1. Handle materials, machinery, equipment and tools safely and correctly	50	2	0	2
	PC2. Use correct lifting and handling procedures		2	0	2
	PC3. Use materials to minimize waste		3	0	3
	PC4. Prepare and organize work		2	0	2
	PC5. Maintain a clean and hazard free working area		3	0	3
	PC6. Deal with work interruptions		2	0	2
	PC7. Move around the workplace with care		3	0	3
	PC8. Maintain tools and equipment		3	0	3
	PC9. Carry out running maintenance within agreed schedules		4	2	2
	PC10. Carry out maintenance and/or cleaning outside responsibility		2	1	1
	PC11. Report unsafe equipment and other dangerous occurrences		3	2	1
	PC12. Ensure that the correct machine guards are in place		1	0	1
	PC13. Work in a comfortable position with the correct posture		2	1	1
	PC14. Use cleaning equipment and methods appropriate for the work to be carried out		3	2	1
	PC15. Dispose of waste safely in the designated location		3	2	1
	PC16. Store cleaning equipment safely after use		2	1	1
	PC17. Complete and store accurate records and documentation		2	1	1
	PC18. Maintain proper lighting, ventilation to make sure general comfort is there while working		2	1	1
	PC19. Give inputs and assist in completing documentation		1	0	1
	PC20. Report the need for maintenance and/or cleaning outside your area of responsibility		1	0	1
	PC21. Ensure safe and correct handling of materials, equipment and tools		2	1	1
	PC22. Maintain appropriate environment to protect stock from pilfering, theft, damage and deterioration		2	1	1
	Total		50	15	35
5. LSS/N8601: Maintain health, safety and security at workplace	PC1. Comply with health and safety related instructions applicable to the workplace	25	1	0	1
	PC2. Use and maintain personal protective equipment as per protocol		0.5	0	0.5

	PC3. Carry out own activities in line with approved guidelines and procedures		1	0	1
	PC4. Maintain a healthy lifestyle and guard against dependency on intoxicants		2	0	2
	PC5. Follow environment management system related procedures		5.5	5	0.5
	PC6. Identify and correct (if possible) malfunctions in machinery and equipment		0.5	0	0.5
	PC7. Report any service malfunctions that cannot be rectified		1	0	1
	PC8. Store materials and equipment in line with manufacturer's and organizational requirements		1	0	1
	PC9. Safely handle and move waste and debris		1	0	1
	PC10. Minimize health and safety risks to self and others due to own actions		0.5	0	0.5
	PC11. Seek clarifications, from supervisors or other authorized personnel in case of perceived risks		0.5	0	0.5
	PC12. Monitor the workplace and work processes for potential risks and threats		2	0	2
	PC13. Carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned		0.5	0	0.5
	PC14. Report hazards and potential risks/ threats to supervisors or other authorized personnel		5.5	5	0.5
	PC15. Participate in mock drills/ evacuation procedures organized at the workplace		0.5	0	0.5
	PC16. Undertake first aid, fire-fighting and emergency response training, if asked to do so		1	0	1
	PC17. Take action based on instructions in the event of fire, emergencies or accidents		0.5	0	0.5
	PC18. Follow organization procedures for shutdown and evacuation when required		0.5	0	0.5
	Total		25	10	15
6. LSS/N8701: Comply with industry, regulatory and organizational requirements	PC1. Carry out work functions in accordance with legislation and regulations, organizational guidelines and procedures	25	8	5	3
	PC2. Seek and obtain clarifications on policies and procedures, from the supervisor or other authorized personnel		3	0	3
	PC3. Apply and follow these policies and procedures within the work practices		2	0	2
	PC4. Provide support to the supervisor and team members in enforcing these considerations		9	5	4

	PC5. Identify and report any possible deviation to these requirements		3	0	3
	Total		25	10	15
	Grand Total	350	350	110	240
	Percentage Weightage:			31%	69%
	Minimum pass % to qualify (aggregate):			70%	

EQUIPMENT LIST

Skiving Operator (FOOTWEAR) – LSS/Q2401

Sr. No	SSC	QP Code	Name of the QP	NSQF Level	Equipment Name	Minimum number of Equipment required (per batch of 30 trainees)	Unit Type	Is this a mandatory Equipment to be available at the Training Center (Yes/No)	Dimension/ Specification/ Description of the Equipment/ ANY OTHER REMARK
1	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Scissors	10	Nos	Yes	150mm and 300mm
2	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Bench grinder	1	Nos	Yes	STGB3715, 373 W, 3450 Rpm
3	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Skiving Machine	1	Nos	Yes	XCPLP3-400, 40 T, 1600*700mm, 3kw
4	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Leather Sample defect material	3	Nos	Yes	Leather Sample as per client spec
5	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Inspection report document	1	Nos	Yes	Sample report
6	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Rampi/ khurpi	4	Nos	Yes	2-inch width 6-inch blade length
7	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Sharpening stone	4	Nos	Yes	B&Q oil stone
8	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Glass work table	2	Nos	Yes	Standard
9	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Steel rule	2	Nos	Yes	Stainless Steel 6" - 15 NOS & 12"
10	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Adhesive	5	Nos	Yes	PU adhesive
11	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Folding Hammer	2	Nos	Yes	100 gms, 200 gms, 300 gms and 500 gms
12	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Leather thickness measuring gauge	1	Nos	No (Can be made available at OJT site)	- Measuring Range: 0 to 10 mm - Least count of dial gauge: 0.01

									• Diameter of anvil: 50 mm approximately • Diameter of indenter: 10 mm • Pressure on indenter: 100 gm/cm² • Throat depth: 50 mm
13	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Dust Bins	3	Nos	Yes	30 lts capacity
14	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Dust Pan with Handle & Broom	1	Nos	Yes	Long handle
15	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Dry and wet mop	Each one	Nos	Yes	Long handle
16	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Water Bucket	1	Nos	Yes	20 lts capacity
17	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	PPE set	2	Nos	Yes	Standard
18	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	First aid kit	1	Nos	Yes	Standard
19	LSSC	LSS/Q2401	Skiving Operator (Footwear)	4	Fire Extinguisher	1	Nos	Yes	ABC Type

FURTHER LEARNING PATHWAYS

After completion of the apprenticeship training the candidates have wide career choices available with them in the Leather industry. A candidate after completing apprenticeship can be skilled horizontally in various segments like; Skiving Operator etc. and vertically, they can go to higher levels in plant hierarchy.

Employment opportunities:

Apart from above mentioned avenues, the apprentice can always aspire to be one of the following as stated below:

- 1) **Footwear manufacturing units in India:** The apprentice may be employed with the biggest player of the trades and be a part of their manufacturing set and deliver quality work.
- 2) **Footwear Job work skiving manufacturing set up:** The apprentice may be encouraged to set up their own manufacturing job work unit for components skiving for big Footwear manufacturing companies.
- 3) **Education and Training:** They may also take up the role of the instructor in this field where they can impart their manufacturing knowledge to the aspiring students.

INFRASTRUCTURE FOR ON-JOB TRAINING

TRADE: SKIVING OPERATOR (FOOTWEAR)

For a Batch of 30 APPRENTICES

Actual training will depend on the existing facilities available in the establishments. However, the industry should ensure that the broad skills defined against On-Job Training part (i.e. 9 months) are imparted. In case of any short fall the concern industry may impart the training in cluster mode/ any other industry/ at any set up.

GUIDELINES FOR INSTRUCTORS AND PAPER SETTERS

Due care to be taken for proper & inclusive training delivery in the batch.

1. Some of the following method of delivery may be adopted:
 - a. LECTURE
 - b. LESSON
 - c. DEMONSTRATION
 - d. PRACTICE
 - e. GROUP DISCUSSION
 - f. DISCUSSION WITH PEER GROUP
 - g. PROJECT WORK
 - h. STORE VISIT
2. Maximum utilization of latest form of training viz., audio visual aids, integration of IT, etc. may be adopted.
3. The total hours to be devoted against each topic may be decided with due diligence to safety & with prioritizing transfer of required skills.
