ACKNOWLEDGEMENT

The LSSC is grateful to all of those with whom it has had the pleasure to work during this project. Each of the members related to this project has provided extensive personal and professional guidance. LSSC sincerely expresses appreciation for the contribution of the Industry, Trade Experts and all others who contributed in building the curriculum.

Special acknowledgement by LSSC to the following expert members who have contributed immensely in this curriculum.

BACKGROUND

- **Apprenticeship Training Scheme under Apprentice Act 1961**

The Apprentices Act enacted in 1961 with the objective of regulating the program of training of apprentices in the industry by utilizing the facilities available therein for imparting on-the-job training. The Act makes it obligatory for employers in specified industries to engage apprentices in designated trades and in optional trades to impart Apprenticeship Training on the job in industry to school leavers, graduates/ diploma and person having National Trade Certificate (ITI pass-outs) issued by National Council for Vocational Training (NCVT) to develop skilled manpower for the industry. There are five categories of apprentices namely; trade apprentice, graduate, technician, technician (vocational) apprentices and optional trade apprentice.

Qualifications and period of apprenticeship training of trade apprentices and optional trade apprentices vary from trade to trade. The apprenticeship training for trade apprentices and optional trade apprentices consists of basic training followed by practical training. At the end of the training, the apprentices are required to appear in a trade test conducted by NCVT and those successful in the trade tests are awarded the National Apprenticeship Certificate.

- **Changes in Industrial Scenario**

Recently we have seen huge changes in the Indian industry. The Indian Industry registered an impressive growth during the last decade and half. The number of industries in India have increased manifold in the last fifteen years especially in services and manufacturing sectors. It has been realized that India would become a prosperous and a modern state by raising skill levels, including by engaging a larger proportion of apprentices, will be critical to success; as will stronger collaboration between industry and the trainees to ensure the supply of skilled workforce and drive development through employment. Various initiatives to build up an adequate infrastructure for rapid industrialization and improve the industrial scenario in India have been taken.

- **Reformation**

The Apprentices Act, 1961 has been amended and brought into effect from 22nd December 2014 to make it more responsive to industry and youth. Key amendments are as given below:

- Prescription of number of apprentices to be engaged at establishment level instead of trade-wise.
- Establishment can also engage apprentices in optional trades which are not designated, with the discretion of entry level qualification and syllabus.
- Scope has been extended also to non-engineering occupations.
- Establishments have been permitted to outsource basic training in an institute of their choice.
- The burden of compliance on industry has been reduced significantly.

RATIONALE

Need for Apprenticeship in trade for Stitcher (Goods and Garments)

1. The greater degree of relevance of the training with latest advancements of the industry will enhance the employability opportunities.
2. Ability to assess leather and other components for stitching goods and garments that is suitable as per design.
3. Ability to know the procedure of stitching with accurate replica of the design.
4. Ability to operate various stitching machines (Post bed, Flat bed, Cylinder bed, computerized stitching machines, Zigzag machine, Double needle machines etc.
5. Ability to check quality of stitched component to ensure that leather is stitched properly to all edges.
6. Ability to do proper usage of tools for quality stitching.
7. Ability to control leather and other wastage as much as possible.
8. Ability to choose correct needles and thread for stitching.
9. Ability to detect product defects to achieve correct design, weight, finish, and dimensions as per design.
10. Ability to deliver complete product on time by reporting problems faced or anticipated well in advance.

JOB ROLE: Description

A Stitcher, also called a 'sewer' is an important job-role associated with Leather Goods and Garment sector. The primary responsibility of a stitcher is to sew fabric, fur, leather or synthetic materials to produce garments and other articles.

Stitcher should have good hand-eye co-ordination, motor skills and vision (including near vision, distance vision, color vision, peripheral vision, depth perception and ability to change focus).

GENERAL INFORMATION

1. Name of the Trade : STITCHER (GOODS AND GARMENTS)
2. Duration of Apprenticeship Training : 200Hrs+40Hrs=240 Hrs &
(Basic Training & Practical Training) 960 Hrs
3. Duration of Basic Training : Block-I: 200 Hrs + 40 Hrs Employability &
Entrepreneurship
Total duration of Basic Training : 240 Hrs (Additionally, 20 Hrs Digital
Literacy inputs given in online mode)
4. Duration of Practical Training : Block-II: 960 HRS, i.e. 36 weeks or 9
(On-job Training) months
5. Entry Qualification : Passed 5th class
6. Selection of Apprentices : The apprentices will be selected as per
Apprenticeship Act amended time to time
7. Rebate for ITI passed trainees : N.A.

Note: Industry may impart training as per above time schedule, however this is not fixed. The industry may adjust the duration of training considering the fact that all the components under the syllabus must be covered. However, the flexibility should be given keeping in view that no safety aspect is compromised and duration of industry training to be remain as 1 year

Sr. No.	Area	Details
1	Description	To deliver accredited training service, mapping to the curriculum detailed above, in accordance with the Qualification Pack "LSS/Q5501, Version 1.0".
2	Personal Attributes	Aptitude for conducting training, and pre/ post work to ensure competent, employable candidates at the end of the training. Strong communication skills, interpersonal skills, ability to work as part of a team; a passion for quality and for developing others; well-organised and focused, eager to learn and keep oneself updated with the latest in the mentioned field.
3	Minimum Educational Qualifications	10 th with 18 months certificate course in Goods and Garments (any) and above
4a	Domain Certification	Certified for Job Role: Stitcher (Goods and Garments): Component mapped to QP: "LSS/Q5501, v1.0". Minimum accepted score as per SSC guidelines is 80% on the SSC prescribed online theory assessment test based on an industry validated question bank.
4b	Platform Certification	Recommended that the Trainer is certified for the Job Role: "Trainer", mapped to the Qualification Pack: "SSC/1402". Minimum accepted score for the trainer is 80% as per SSC guidelines.
5	Experience	Minimum 6 years site experience with Stitcher (Goods and Garments) Level-4 qualified.

Basic Training: Stitcher (Goods and Garments) – LSS/Q5501

MODEL CURRICULUM

This program is aimed at training candidates for the job of a “Stitcher (Goods and Garments)”, in the “Leather” Sector/ Industry and aims at building the following key competencies amongst the learner

Program Name	Stitcher (Goods and Garments)		
Qualification Pack Name & Reference ID	Stitcher (Goods and Garments) LSS/Q5501, V1.0		
Version No.	1.0	Version Update Date	16-09-2016
Pre-requisites to Training	Class V with 2-3 Years prior experience as helper in goods/garment manufacturing.		
Training Outcomes	After completing this programme, participants will be able to: • Gain familiarity with the stitching trade: General introduction to trade, leather manufacturing process, role of a stitcher in leather industry and generic skills • Stitch components to produce leather goods & garments: Stitch components for leather goods using machines or by hand • Contribute to achieving the product quality in stitching operations: Monitor the quality of the production while undertaking stitching related activities to ensure components get stitched as per Sample/Specification • Maintain the work area, tools and machines: Organise/ maintain work areas and activities to ensure tools and machines are maintained as per norms • Maintain health, safety and security at workplace: Comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimize risk to self, environment and other • Comply with industry, regulatory and organisational requirements: Complying with industry, regulatory and organizational requirements at the workplace		

Sr. No.	Module	Key Learning Outcomes	Equipment Required
1	Overview on Leather Industry and Generic skills Theory Duration (hh:mm) 12:00 Practical Duration (hh:mm) 10:00 Corresponding NOS Code Core skills/ Generic skills and Professional skills collated from all the NOS of the QP	• Explain importance of leather industry and describe leather manufacturing process • Explain general hazards or risk that can lead to accidents • Follow basic safety, health and hygiene measures • Wear and use PPE for safety • Carry out communication effectively with co-workers in writing as well as orally • Read the documents that are necessary for them to read to carry out the task	Chairs, Trainers desk and computer, Student table, Projector, White projector screen, White board, Flip chart display stand, Safety hazard signs, Newspaper, Stationery, PPE set
2	Carry-out Basic Operations within Leather Goods Theory Duration (hh:mm) 04:00 Practical Duration (hh:mm) 80:00 Corresponding NOS Code LSS/N5501	• Select the correct component parts for the style being worked on • Check that the materials to be used are free from faults and report if any • Carry out operations at a rate which maintains work flow and meets production targets • Sort and place work to assist the next stage of production and minimise the risk of damage • Complete forms, records and other documentation • Work in conformance to legal requirements, organizational policies and procedures • Perform hand stitching operation • Set up machine according to manufacturers' instructions and production requirements • Perform machine stitching operation • Report risks/ problems likely to affect services to the relevant person promptly and accurately	Post bed sewing machine, Computerized sewing machine, Zig-Zag machine, Embroidery machine, Flatbed sewing machine, Cylinder bed type sewing machine, Sample leather pieces, Eyeletting tool, Revolving punch, Hand creasing machine with tools, Thread trimmer, Scissors, Stitching awl, Stitch maker, Spring divider, Steel rule, Khurpi, Wooden mallet, Indenting scissors, Hand clicking knife, Pricking awl, Iron head hammer, Screwdriver, Riveting tool, Bone folder, Edge setting iron, Welt knife, Nail puller, Leather thickness measuring gauge, Manchester nippers, Spring divider, Hand sewing needles, Thread, Dendrite paste, Pasting brushes

ASSESSMENT CRITERIA

Assessment Criteria	
Job Role	Stitcher (Goods and Garments)
Qualification Pack	LSS/Q5501, V1.0
Sector Skill Council	Leather

Sr. No.	Guidelines for Assessment
1	Criteria for assessment for each qualification pack will be created by the sector skill council. Each performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC
2	The assessment for the theory part will be based on knowledge bank of questions created by the SSC
3	Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training centre (as per assessment criteria below)
4	Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training centre based on these criteria
5	To pass the Qualification Pack, every candidate should score a minimum 50% of aggregate marks to successfully clear the assessment
6	In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

Grand Total Course Duration: **40 Hours, 0 Minutes**

(This syllabus/ curriculum has been approved by **National Skill Development Corporation**)

PRACTICAL TRAINING (ON-JOB TRAINING)
(BLOCK II)

DURATION: 960 Hours

GENERAL INFORMATION

1. **Name of the Trade** : Stitcher (Goods and Garments)
2. **Duration of On-Job Training** : 960 hours
3. **Batch size** : 30 (recommended)
4. **Examination** : i) The internal assessment will be held on completion of the block
ii) Leather Sector Skills Council (LSSC) will conduct exam at the end of Apprenticeship training
5. **Instructor Qualification** :
6. **Infrastructure for On-Job Training** : As per Tools & Equipment required for On- Job Training

Trainer Prerequisites for Job role: “Stitcher (Goods and Garments)”

Sr. No.	Area	Details
1	Description	To deliver accredited training service, mapping to the curriculum detailed above, in accordance with the Qualification Pack “LSS/Q5501, Version 1.0”.
2	Personal Attributes	Aptitude for conducting training, and pre/ post work to ensure competent, employable candidates at the end of the training. Strong communication skills, interpersonal skills, ability to work as part of a team; a passion for quality and for developing others; well-organised and focused, eager to learn and keep oneself updated with the latest in the mentioned field.
3	Minimum Educational Qualifications	10th with 18 months certificate course in Goods and Garments (any) and above
4a	Domain Certification	Certified for Job Role: “ <u>Stitcher (Goods and Garments)</u> ”, mapped to QP: “ <u>LSS/Q5501, Version 1.0</u> ”. The minimum accepted score should be as per the decision of the respective SSC guidelines.
4b	Platform Certification	Recommended that the Trainer is certified for the Job Role: “Trainer”, mapped to the Qualification Pack: “SSC/1402”. Minimum accepted score for the trainer is 80% as per SSC guidelines.
5	Experience	5-10 years of experience in leather goods and garments manufacturing sector.

BROAD SKILL COMPONENT

BROAD SKILL COMPONENT TO BE COVERED DURING ON-JOB TRAINING

BLOCK – II

1. Develop reading and writing skills for understanding the specifications for different operations and methods for doing Stitching operation (Goods and Garments).
2. Learn to carry out the Pre operational checks required for stitching operations and follow standard procedures for doing stitching operations.
3. To understand different Stitching operational methods/machines-Flat bed, Post bed, Cylinder bed and Holden stitch methods (Stitches without pasting)and different types of seams that go in to the manufacturing of Goods &Garments to achieve correct Quality and Productivity.
4. Spot difficulties with respect to practicality of different Stitching methods to achieve correct Quality for each style as per the sample and specifications.
5. Develop the new skill of stitching the Leather and Non Leather material (computer aided machines).
6. Learn to understand the different parts of Stitching Machine and their functions.
7. To understand the basic units of measurements with respect to the Stitching operations.
8. Develop visual inspection skill to ensure the accuracy of the stitching operations as per the specifications and sample
9. Learn to know and understand the different types of Leather/ Non Leather materials and their properties with respect to Stretching/Shrinkage while doing Stitching operations.
10. Learn to use and maintain the different Stitching machine and their parts.
11. Learn to read the Job card and also to identify the different components for performing Stitching operations.
12. Able to deduct product/manufacturing defects and control manufacturing loses and ensure Quality in each and every stage of stitching operations as per sample and specifications.
13. To understand and comply with Health, safety, security, legal, regulatory and ethical requirements at the work place.
14. To learn the reporting methods of stitching operations for the day (Documentations).

Stitcher (Goods and Garments) – LSS/Q5501

Week 11	Carry out Stitching Operation-Post Production Session 9 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 26:00 Corresponding NOS Code LSS/N5501	The trainee will be able to: - Identify and list the checking parameters of the finished component to ensure if specifications are met - Check the stitched components before passing to the next stage of production - Report accordingly where stitched items do not meet production specification	Job card, Stitched component, Stitch checklist
Week	Carry out Stitching	The trainee will be able to:	PPE, Stationery,

Sr. No.	Module	Key Learning Outcomes	Equipment Required
12	Operation-Post Production Session 10 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 26:00 Corresponding NOS Code LSS/N5501	- Minimize and dispose of waste materials in the approved manner - Seek feedback from team mates on work related performance - Communicate with colleagues for information and help related to work in a polite manner - Complete the requirement of task to meet the specification from the superior	Waste material, Dustbin, Sample stitch feedback form
Week 13	Carry out Stitching Operation-New Products Session 11 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 26:00 Corresponding NOS Code LSS/N5501	The trainee will be able to: - Follow and utilize opportunities for learning - Update and develop knowledge of the products - Check with others when unsure of new product details	Stationery, New product detail
Week 14	Carry out Stitching Operation-Cleaning and Maintenance Session 12 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 26:00 Corresponding NOS Code LSS/N5501	The trainee will be able to: - Identify and checks the required cleaning agents to clean the machine - Carry out cleaning process of machines after the use - Ensure the safety guards are in place with machine when not in use - Carry out basic maintenance of own machines like lubrication etc.	PPE, Cleaning agent, Waste cloth, Machine guards, Lubricating agents
Week 15	Carry out Stitching Operation-Reporting and Documentation Session 13 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 26:00	The trainee will be able to: - Report risks/ problems likely to affect services to the relevant person promptly and accurately - Complete forms, records and other documentation of stitching methods of particular day - Work in conformance to legal requirements, organizational policies and procedures	Stationery, Sample records and documentation

Sr. No.	Module	Key Learning Outcomes	Equipment Required
	Corresponding NOS Code LSS/N5501		
Week 16	Achieve product quality in stitching operation Session 1 Theory Duration (hh:mm) 08:00 Practical Duration (hh:mm) 18:00 Corresponding NOS Code LSS/N5502	The trainee will be able to Explain: - Techniques and methods used to detect faults - Types of adjustments suitable for specific types of faults - Appropriate lock stitches to prevent opening The trainee will be able to: - Identify and use materials required based on the job card/ work ticket - Conform the materials to company quality standards if not take necessary action	Sample leather defects materials, Leather thickness measuring gauge, Gloves, Helmet, Safety shoe, Ear plug, Apron, Goggles
Week 17	Achieve product quality in stitching operation Session 2 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 26:00 Corresponding NOS Code LSS/N5502	The trainee will be able to: - Identify faulty materials and component parts which do not meet specification - Report to the supervisor on faulty materials and replace the same	Sample leather defects materials, Leather thickness measuring gauge, Gloves, Helmet, Safety shoe, Ear plug, Apron, Goggles
Week 18	Achieve product quality in stitching operation Session 3 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 26:00 Corresponding NOS Code LSS/N5502	The trainee will be able to: - Estimate the time required to carry out the work flow - Carry out work safely and at a rate which maintains work flow	Sample leather defects materials, Leather thickness measuring gauge, Gloves, Helmet, Safety shoe, Ear plug, Apron, Goggles
Week 19	Achieve product quality in stitching operation Session 4 Theory Duration (hh:mm) 00:00 Practical Duration (hh:mm) 26:00	The trainee will be able to: - Spot difficulties with respect to practicality of different stitching method to achieve quality - Report to the supervisor when the work flow of other production areas disrupts work - Test, sort, track feed and examine work in progress	Sample leather defects materials, Leather thickness measuring gauge, Gloves, Helmet, Safety shoe, Ear plug, Apron, Goggles

ASSESSMENT CRITERIA

Assessment Criteria	
Job Role	Stitcher (Goods and Garments)
Qualification Pack	LSS/Q5501, V1.0
Sector Skill Council	Leather

Sr. No.	Guidelines for Assessment
1	Criteria for assessment for each qualification pack will be created by the sector skill council. Each performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC
2	The assessment for the theory part will be based on knowledge bank of questions created by the SSC
3	Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training centre (as per assessment criteria below)
4	Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training centre based on these criteria
5	To pass the Qualification Pack, every candidate should score a minimum 50% of aggregate marks to successfully clear the assessment
6	In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

FURTHER LEARNING PATHWAYS

After completion of the apprenticeship training the candidates have wide career choices available with them in the Leather industry. A candidate after completing apprenticeship can be skilled horizontally in various segments like; stitching goods and garments etc. and vertically, they can go to higher levels in plant hierarchy.

Employment opportunities:

Apart from above mentioned avenues, the apprentice can always aspire to be one of the following as stated below:

- 1) **Goods and Garments manufacturing units in India:** The apprentice may be employed with the biggest player of the trades and be a part of their manufacturing set and deliver quality work.
- 2) **Goods and Garments manufacturing set up/ Retail Unit:** The apprentice may be encouraged to set up their own manufacturing unit, which they may also channelize into owning a retail unit and be able to sell their merchandise directly to the consumers.
- 3) **Education and Training:** They may also take up the role of the instructor in this field where they can impart their manufacturing knowledge to the aspiring students.

INFRASTRUCTURE FOR ON-JOB TRAINING

TRADE: STITCHER (GOODS AND GARMENTS)

For a Batch of 30 APPRENTICES

Actual training will depend on the existing facilities available in the establishments. However, the industry should ensure that the broad skills defined against On-Job Training part (i.e. 9 months) are imparted. In case of any short fall the concern industry may impart the training in cluster mode/ any other industry/ at any set up.

GUIDELINES FOR INSTRUCTORS AND PAPER SETTERS

Due care to be taken for proper & inclusive training delivery in the batch.

1. Some of the following method of delivery may be adopted:
 - a. LECTURE
 - b. LESSON
 - c. DEMONSTRATION
 - d. PRACTICE
 - e. GROUP DISCUSSION
 - f. DISCUSSION WITH PEER GROUP
 - g. PROJECT WORK
 - h. STORE VISIT
2. Maximum utilization of latest form of training viz., audio visual aids, integration of IT, etc. may be adopted.
3. The total hours to be devoted against each topic may be decided with due diligence to safety & with prioritizing transfer of required skills.
